Well, you're are wrong again, Piero. Just to show you how screwed up you are I'm attaching a copy of my cellular telephone bill among many that get mailed to me every month; you will please note my address. You simply don't understand how our system works here and are really making a fool of yourself. You are a prime example of attempts to misuse your badge and position. It's called abuse of power and you would have been immediately fired here in Arizona if not in your own precinct. Many of my friends, and one special one you'd be very, very surprised who I'm talking about, has personally suggested I not ignore your lies, and inflammatory statements, with my silence but that I respond to your lies. The truth is with the evidence, I could sue you and very easily win, but you don't have any assets to attach. All I could do is screw up your life with some ridiculous judgment I could never collect on. For what, I don't dislike you but instead hope you get better. You might consider that maybe you're burned out on your job, OM.

My friends and acquaintances have suggested I should reimburse you the amount FEDEX would have charged you only. Majority have said I shouldn't reimburse you anything because of your mouth. I feel It is not your fault but instead simply your ignorance of shipping conventions for which you shouldn't be penalized..
Roland

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly
used due to lack of time and other commitments. Would be surprised if
used more than 75-100 hours in total. I am original owner and have
manuals and original packaging for the unit. Price also includes new
Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better
use of it that I have.

Will sell for best offer over $2400 plus shipping. Condition warrants
price.

The first thing that raises a flag is the he claims to be a member of a
Posse (volunteer group) and not an actual deputy.

The address he has given sounds like one of those Mailboxes, Etc. retail
store post office boxes that you can rent by the month. I don't ship
until I see the $$$.

Hey Piero and Sid,
     Don't feel singled out, this jerk has ripped a buddy and I off in
similar ways. I sent him a Federal Express COD package that this jerk
refused to pay for and I got stuck for the shipping charges and my buddy
shipped him an old Johnson mobile radio he never paid for. We both
contacted this jerk time and time again and he never made good on the
deals. The best advice is for everyone to avoid ANY business dealings
with Roland Geter...he is a thief!
Pat

Hi;
     Mr. Geter claimed to issue "personal purchase order numbers" and that
packages should be sent "COD-cash only". His memory errs because he did
not specify either of those conditions at the time that I sent him the
RCA numerical indicator tubes.

As far as I'm concerned, I've been ripped off to the tune of a big $25.00 and that's the end of it. Son cosas de la vida.

bye, sid KC2COO

You will find this type of "individual" obtains pleasure from fleecing those more responsible among us. He is, after all, almost URBAN LEGEND status on ALL of the swap lists with his unscrupulous ways. I got bit two years ago when he responded to an ad for a Johnson Viking Thunderbolt amplifier. It was always "the check got lost, send it anyway and I will get another check right out".... You know how much that Thunderbolt weighed??? Took three men and a boy to lift it!! Like Monica said, "dealing with him leaves a bad taste in your mouth...."...

Too bad Roland, it appears you are the only one who is getting fed up
with this problem YOU created...you should have gone to the Federal
Express Depot when they called you and told you about the package.

> We

"We"? You have a mouse in your pocket?

> personally feel too sorry for you to complain because maybe you can't
> help your condition.

What condition? My aversion to people who cause me financial loss? If
that is a condition then I guess I have one.

> But you really should seek help, seriously, OM,

Sorry Roland, but I'm not the one who is writing bad checks, receiving
merchandise and not paying for it, not paying for C.O.D. shipments I
have personally authorized to be shipped, etc., etc. like you have been
for many years as it appears by all the replies and posts.

> Good Luck. Roland

It is nice you can pay your cellular phone bill but you can't pay for
your C.O.D. shipments, other packages you receive, etc., etc.

> you will please note my address.
> You simply don't understand how our system works here and are really
> making a fool of yourself.

Ohhh, I see, those of us who don't "understand" your system have to
suffer financial loss.

> You are a prime example of attempts to
> misuse your badge and position.

If you consider me "misusing my badge and position" to bring light to your games then I guess I do. Hopefully, by posting these warnings, no one else will fall prey to your games. I also guess I "misuse" my badge every day I go to work when I arrest thieves, bad check writers, stop creeps from victimizing other people, etc., etc. I must be doing something right, I'm the highest decorated officer in my department and in the area so I guess no one in this area agrees with you

> It's called abuse of power

Wrong again, abuse of power is when, as a police officer, I commit a crime. Sorry, I haven't committed any crimes here. I haven't written bad checks, caused financial loss to others by having others ship C.O.D. packages and not paying for them, or worse yet, receiving items and just not paying for them as you have done.

> would have been immediately fired here in Arizona if not in your own
> precinct. Many of my friends, and one special one you'd be very, very
> surprised who I'm talking about, has personally suggested I not ignore
> your lies, and inflammatory statements, with my silence but that I
> respond to your lies.

I can back up my statements with copies of your e-mail messages (which I have kept) and every other aspect of our transaction. Also, if you look around you will see many others who have replied about similar problems...I guess we are all mistaken? I guess we are all lying and you are the only one telling the truth.

> The truth is with the evidence, I could sue you
> and very easily win, but you don't have any assets to attach.

And I have plenty of evidence. Please sue me, I'd be glad to see if the State of Arizona would fly two law enforcement officers here to pick me up, then transport me (fly of course) to Arizona for the civil trial. At the civil trial I would bring all the copies of our e-mails, my receipts, subpoena the other victims who have replied, and of course your court abstract from the Glendale District Attorney's Office. Oh, I forgot, the Governor of Pennsylvania won't sign an extradition order for me to be taken to Arizona for a civil trial, and I don't think the State of Arizona is willing to spend thousands of dollars to process a civil service when they look at your track record. As far as my personal assets, I have many assets you could try to attach. I own a 3000 sq. ft. 4 bedroom, 2 1/2 bath home with an inground swimming pool. I own two modern cars and two antique cars, and I own a lot of other personal property. Speaking of assets, still living in an RV?

> All I
> could do is screw up your life with some ridiculous judgment I could
> never collect on.

You are correct there, Pennsylvania won't honor your ridiculous claims,
and from what the Arizona Attorney General's office told me on the
phone, they won't either.

> For what, I don't dislike you but instead hope you
> get better.

I would get better if you paid me the $132.58 you cost me from shipping
that package to you and you not picking it up.

> You might consider that maybe you're burned out on your
> job, OM.

Sorry to disappoint you, but the professionals disagree with you.

>
> My friends and acquaintances have suggested I should reimburse you the
> amount FEDEX would have charged you only.

That would be better then the nothing I have received from you.

> Majority have said I
> shouldn't reimburse you anything because of your mouth.

I guess your "majority" has not suffered financial loss because of your
actions. I told you not to play games, did you think I would just take
this lying down like so many other of your victims?

> I feel It is
> not your fault but instead simply your ignorance of shipping
> conventions for which you shouldn't be penalized..

No, it is my fault for not insisting on payment up front with a postal
money order and not shipping until I received the money up front. I
trusted you when you said you would reimburse me after you failed to
pick up the package when notified by the supervisor , I'll never make
those two mistakes again! It cost me $132.58 to learn that lesson.

Don't feel bad Sid, Roland Geter specifies "his" conditions as he goes along. Even if you had met every one of his "conditions", you would still be out your $25.00. That was his excuse for not picking up the C.O.D. package I sent him as he specified, even when contacted by the supervisor at the Federal Express Depot in Phoenix, Arizona where he "does a lot of business". Yes, I also have suffered a loss, mine was a little more expensive to the tune of $132.58. I hope others won't fall victim to Roland Geter's shenanigans and they heed my warnings. You can also forget Roland Geter's false promises of making good also, I can send you his e-mails where he promises to reimburse me for the lost shipping charges AND wants me to reship the computer. Fortunately I demanded payment up front before I shipped this notebook computer again. Of course the postal money order never arrived.

An expensive lesson learned,
Piero

I did notify the Maricopa County Sheriff's Office who took
administrative action against Roland Geter. I also notified the Arizona
and Pennsylvania Attorney General's Office. Unfortunately, because of
the small amount ($132.58), they would rather reimburse me out of their
own funds instead of prosicuting Roland Geter for Theft by Deception.
Prosecution just isn't finacially fesable for bothe states. However, if
everone who has suffered a loss by Roland Geter would file a complaint,
maybe some further action would be taken.

Piero

Greetings,
     I have an IC706MKII for sale. I won this radio at the Madison,
Ohio Hamfest 03/98.
The radio is in brand new condition. I only used it twice on 6 meters.
I have only approx. four hours of use with it. Due to my schedule. Box
and manuals. I am asking $950.00 or best offer. If interested please
either email me or you can call me at 440-352-7787. Thanks in advance.

Have specially modified Kenwood TS-742 that works in combination with a CSI
Patch IV. This provides autopatch, repeater, remote controllable

configuration. Have used this set-up for field day repeater, local repeater with a 150 watt FM UHF amplifier which is also for sale.

This is an excellent combo package for anyone looking for autopatch, economic repeater for private club or individual use.

Asking $1300 for everything and a few extras - customized cabling with N connectors, discriminator output switch, etc.

Will consider any reasonable offer or trade. Available to ship overnight!

Greetings:

I have 2 units for sale:

1) Kenwood TS-440sat (built-in automatic antenna tuner)
-comes with Hand mic, SP-430 speaker, and owners manual.
-no internal filters added

$800.00 CDN OBO

2) Alinco DJ-560 dual band HT
-full size HT with 2 battery packs and "wall wart" charger.

$250.00 CDN OBO

Would prefer to sell to someone who will pick-up, as I can
verify operation on my IFR-1500 before purchase.

I was recently given an ICOM IC-02AT transceiver and it has some problems. The
first was easy to fix - a bad battery pack (luckily it came with one that had
replaceable AAs). But the second is more baffling. It seems like the volume
switch doesn't work - it turns on and I can get low volume but once I turn it
more than ~1/6 I lose all volume. Any help ? How can I fix it ? is it worth
fixing ?

Also can someone tell me how old this unit is ? and how much it would be worth
 ? IF I were to sell it or trade it in ?

Thanks for any help you can provide,
Mike McLeod

Hello, depending on where the
volume switch is, it may be
overloading a base circuit, in
which case the transitor or
one of its associated
components is not functioning.

I need the Main Board for an Icom 02AT or an Icom H16. (I've been told it's
the same board).

Thanks

I Would like to trade my Yaesu VX-1R (rev A102) for a Kenwood TH-G71A.

The VX-1R has extended TX & RX and is in good condition includes original
box, accessories and manual.

Possibly consider cash sale... email me.

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly used due to lack of time and other commitments. Would be surprised if used more than 75-100 hours in total. I am original owner and have manuals and original packaging for the unit. Price also includes new Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Will sell for best offer over $2400 plus shipping. Condition warrants price.

The radio is at least 10 years old
We used them for field ex when i was attached to seabees
in 88/89 and the mars station i think had them for a couple years before
that I THINK
if your tecnically inclined open it up an clean the swich/pot with a
electronic cleaning soution and check the wiring of the swx
don

I have for sale or will do some trading for motorola mobile or
portable(must do amateur bands) ie:maxtrac, radius, spectra (A7),
saber(3) or similiar models or am interested in a cat rptr controller:

Kenwood TS 570D - $1000
MFJ 962c Tuner - $185
Ameritron AL-811 Amp - $450
Kenwood MC 60a Deskmike - $100
MFJ 1025 noise cancellar - $75

Heil promicro headset HC5 element
comes with hand switch and
kenwood adapter. - $85

All items will be sold as follows:
Prepaid postal money order and I pay shipping or
I'll ship COD and you pay shipping.
Ph. 712-546-1556 between 8:00am - 1:00pm CDT (I work nights)
or e-mail.

I'm selling to finance my repeater projects and am interested in
aquiring quality vhf, uhf radios.

I have a sick 757GX and am looking for a good repair service.

Any suggestions and/or comments on ones you may have dealt with would be
welcome.

Hi Guys,

     Need to know the value range of an ETO amplifier model Alpha
374A. Good to very rough shape, I may have several of these units for
asle soon.

     Thanks
          John Hill, VE6CU...

People fall on hard times sometimes and that was why I was getting rid
of the radio so I could get some stuff I needed and that is why the
radio is not getting replaced.

Radio is in excellent condition -keyboard mod has been performed and cpy of
mod will be sent with shipment - Radio includes cable for dc (car cigarette
lighter plug operation) The wall charger did go out on me, however I have
been using it (as I said before) in the car and havent really missed/needed
it - Other than the wall charger dead, the rest of the radio is in excellent
condition! Manual included!
WILL TRADE FOR COMPLETE WEATHER STATION! PEET BROTHERS WANTED OTHERS
CONSIDERED!

$150 shipped

I'm interested in acquiring any version of an RCA Cosmac Elf computer system
from around 1978. You can contact me at chipsndips@snet.net if you have one
you want to sell or if you have something similar.

Alan

I have for sale-
Icom IC-706 (Original) with HM-95 Touch Tone Hand mic.
Matching AT-180 auto antenna tuner for the 706.
The 706 has the CR-502 High stability oscillator,
UT-102 Voice synth. and
FL-223 1.9 kHz IF SSB filter installed.
Radio has the MARS/CAP Mods.

$925.00 shipped Con U.S.
Maybe Swan 250 in good shape plus $

I can send digital pictures if interested.

Also looking for a 5 pin DIN to fit a Microwave Modules Transverter.

For Sale:
2 ea: Alinco DJ-S11T 2 Meter "Pager Size" HT

Bought new around 2-3 months ago. Operating time is about 10 hours between
both of them. In absolute new condition. I want to sell because I live in a
rural area and can't hit but one repeater with them. They both are great
radios and have no problems and work 100% like new. I still have all
original packaging that came with the units.

$65 each or $115 for both.
this includes shipping in US.

Greetings:

I'm looking for either a 1270b or 1270c or 1274 with the 9600
baud modem. We are switching to FlexNet and I need to replace
a D4-10 which won't interface with the new software.

Would prefer to buy in Canada, but American replies are
welcome.

 Steve -

Have you removed the channel select knob and removed the silver
stop behind it? I can't recall ever seeing a MCX-100 that didn't have
a 32 channel switch.

Also I can supply programmed PROM's for these radios.

The 32 channel MCX100's that I have all use a 16 channel switch,
along with a push button switch to select two banks if 16 channels.
I have about 8 radios that work this way.

My manual doesn't show a 32 position switch, but that doesn't mean
one doesn't exist!

Gary

Steve!

I tried to reply to your email message, but it bounced.

Do you have another email address?

Gary Sanders

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly
used due to lack of time and other commitments. Would be surprised if
used more than 75-100 hours in total. I am original owner and have
manuals and original packaging for the unit. Price also includes new
Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better
use of it that I have.

Will sell for $2900 U.S. plus shipping. Condition warrants price.

Is it true that you gave him the WRONG tracking number for the package? Do
you think others should have to pay for YOUR mistakes?

The laptops ARE to be used for a law enforcement project. Is it true that you LIED to the Maricopa County Sheriff's Office, telling them that Roland said he was a Deputy Sheriff when in fact he would never say that? If you did lie, and you are in fact a police officer, then maybe someone needs to take some action with the Internal Affairs office at YOUR agency. There's nothing worse than a corrupt cop.

I have a New MFJ-1024 active shortwave antenna with the following

1) Covers 50kHz - 30MHz
2) 20dB attenuator with gain control
3) 54 in. whip antenna
4) 50ft. cable

MFJ does not sell this with any sort of power supply. I will throw that in as
well. This is new guaranteed against DOA. First $75 gets it. Buyer pays
shipping. Questions to thecrow@poboxes.com.

He didn't even need the tracking number. Federal Express in Phoenix
Arizona contacted Mr. Geter personally to pick up his package. They had
the package waiting for him and he never picked it up! They (Federal
Express) and I contacted him several times to pick up the package but he
never picked it up!

WRONG! He told me what the laptops were to be used for and that he was a
deputy sheriff for the Maricopa County Sheriff's Office. If he didn't
tell me that, how would I have known that fact, crystal ball???
I also have several e-mails from other amateur radio operators he has
done the exact same thing to, I guess we are all lying and Roland Geter
is the only one telling the truth!

>If you did lie, and you are in fact a police officer, then maybe >someone needs
to take some action with the Internal Affairs office at >YOUR agency. There's
nothing worse than a corrupt cop.

No, I did not lie and I substantiated my facts with the Maricopa County
Sheriff's Office with documentation. I will be more then happy to submit
to a P.S.E. test, (more accurate then a regular polygraph), given to me
by any qualified and certified law enforcement agency/operator
> - Harold

Harold, get your facts straight before you accuse someone of something
you have no personal involvement in and are only getting part of the
story. The Maricopa County Sheriff's Department was satisfied with the

documentation I provided them, something you apparently weren't informed of.

YD-844A = Desk Mic = 9+

If you are hunting a very nice near complete station here it is and this one won't be here long !

You would only need SP-101 Speaker or SP-101PB Phone patch and QTR-24 World clock to complete station http://www.qsl.net/nw2m/ as seen here.

I would like to sell as a complete set, but "might" consider splitting up

I'm going to withdraw from this discussion temporarily, until our internal
investigation of this matter is complete (I'm a member of the same group
Roland belongs to, and no, neither one of us are Deputies).

BTW I don't put my email address in newsgroup postings, because the spammers
search Usenet for addresses. It's not out of some desire to be sneaky. If
you want to email me, you can reach me at ShlinesP@AindirectM.com (remove
the caps).

Hi and thanks for rteading me

I need desesperatly a service manual for my Icom ICW2A

Not the instruction manual ...but really the service manual with diagram and board components

Copy will be enought

Thanks for any reply

If anyone has an EJ-24U installed in their DR-610T or 610TQ,and they do
not need decode capability,
I would like to trade the encoder module in my 610T + cash , for it.
I happen to need the decode capability, but many only need the encoder
for repeater access.
If anyone is interested, contact me via direct email.
TIA, Don, W9SL

I have one VHF 138 - 174Mhz, 25 watt, two channel radio. Combination
#KT-134-A. Comes with mic but no speaker. Current tx on 158.XXX and rx
on 152.XXX. Has had a horn honk device added to it (two switches and an

led) on the front upper left panel of radio with a small circuit board mounted in front panel..

$75.00. Shipping not included. US Postal Service money order as payment.

I have a Kenwood TS-140 all manuals(service & operating). It has the FM board, computer interface port installed and 11 meter mod. Rig works and look great. Picture's can be available on request.

I also have a AEA AT-300 Tuner, two pl-259 inputs, a balanced feed and a dummy load position.

Will take $500.00 for the pair or offers on seperating them.

Motivated to sell these as wife says I need to for my tower project. GRIN...

Hi
I'v got an Icom ic706mk1. Just got it recently, only a few months ago, but
I have hardly used it. Not worth my having it really. HF mobile operation
didn't turn out as successful as I hoped and I'v got another rig in the
house. So I was thinking of selling it, but, what would be better is a
trade.
Anyone like to swap/exchange anything radio related? Maybe a good FT747? A
TS50 plus a few quid would do, or even CB gear if you've got some decent
stuff. Or what have you got?
Get in touch.
cheers
Jack MM0AXL
PS. I am situated in the south west of Scotland, UK.

Talk about nit-picking!!!! This of course is a correct statement, but
they are mostly reffered to as MK1's ...A lot easier than saying
"original", or requiring someone to ask "is it a MKII"..

Seems like we have a lot of people on this and other groups that have
nothing to do but criticize others' spelling, grammar. etc..

I have eight Motorola Micor low-band (42 - 50Mhz), 100 watt radios. Model # T71RTN-3190A. They are four channel and come with channel elements, control head, cable, speaker, and mic. Capable of 6 meters with a few minor mods (info provided).

OR, use the power amp in the radio to build a PA for your 6meter HT.

Schematic included.

$60.00/obo each. US Postal Service money order as payment. Shipping not included. Shipping weight is 37 pounds from zip 93309.

Ignore it jack, I knew what you meant, as probably do most other people
with less important things on their mind than being so damm pedantic
that they scan newsgroups looking for spelling errors, grammatical
errors and inaccuracy.

Good look getting rid of the 706.

Why confuse the issue. I owned an oringinal 706. If someone has a 706 for sale call a spade a spade. Until the MK II no one thought of calling it a MK I. If I am interested in a piece of used gear I want to know it's correct model number, not some made up CB lingo..there run with it!

And you're probably like most US amateurs, if it doesn't fall in their lap ready made, to the letter, then they don't want to know and don't have the intelligence to figure it out for themselves.

Stick to it Jack. Some of us do have the intelligence to work things out

for ourself without it being in black and white, and to the letter.

Are you really interested in this rig or are you just looking for something
to bitch about? BTW it is not a "706" it is an "IC-706". Please follow
your own advise.

Are there any QC people out there who can explain what this mil-spec
business is all about? All the major manufacturers are making terrfic
claims to imply a high standard of durability, but they're not being very
"mil-specific."

Please post comments.

As the sender of the original IC706Mk1 message, I cant believe that this
has got so out of hand. Dont you think this is such a minor matter that its
embarrassing that some sad lonely people have nothing better to do than
pick fault.
So heres a message to Steve and Gary W8PU.
As far as I'm concerned if a radio manufacturer makes a "mark2" than the
previous model should be described as a " mark1" to save any confusion.
Now would both of you please not answer any message of mine ever again, and
preferably never post one to this newsgroup. We have better things to do
with out time than search through this crap looking for sensible material.
Jack.

Right on the head Jack. It comes from people with nothing better to do
but to sit an trawl NG's looking for things to nit pick. Good luck
selling your gear Jack.

For all your info, my 706 has been sold. To a bloke who, peculiar though it
may seem, didn't give two hoots what it was called. I'm sure that wondering
if it should be a Mk1 or not wont spoil his enjoymeent of the set.

I sent a few messages to people to tell them it was sold, but they bounced
back, so I hope you all read this.
Jack

There are hundreds of thousands of specification out there written to
cover everything that can be imagined from communication equipment to
choclate chip cookies and even condoms. These mil specs detail out

every requirement that the product must meet. Each of these reqirement must be tested and verified on either a sample basis or on every unit depending on the contract requirements. The mil spec system was a response to questionable equipment delivered during the late 50s and 60s. This system is being replaced by Acquisistion Reform. The new set up puts all the control and responsibility back with the manufacture. The same as it was before the Mil Specs came about. Will this lead to the same problems all over again? MOST LIKELY.

The mil spec hardware may or may not be any better than commercial equipment. I have worked on equipment that the manufacture built to the mil spec requirements and the same equipment built to "Best Commercial Practices", sometimes the mil spec is better sometimes the commercial is better. I hoe this sheds some shadows on the idea of MIL SPECs

Hi,

Mil-spec is short for military specifications. These are simply a set of minimum standards that the military has for some types of equipment. This does not mean the equipment is superior to non-spec equipment. Many manufactures exceed the mil-spec by a wide margin. It does guaranty a minimum sort of standard. The mil-specs were devised to insure equipment would be reliable, and rugged enough for field use. As a member of the military who has used and repaired a fair amount of mil-spec equipment I can only say, treat it like any other purchase. Call around and see

what the people who use it say.

MIL SPEC..... It is s standard set by the gov for the manufactoring of radio
gear it is the lowest they will accept.[it meets or exceds mil specs] SO
WHAT.....

 Its time for a shack clearout, I'm getting rid of everything I dont use
and
 looking for something more useful.
 The following equipment is not necessarily for sale, I'm not strapped for
 cash at the moment (nice to be able to say that for a change) so I would
 prefer to swap / part ex these items for something else. Like a TS50, a
 FT747, a 2m/70cms dual band mobile, decent CB gear, or whatever you've got
spare. Try me.

 Yaesu FT690R2, 6m multimode. Boxed, pretty good nick apart from a mark on
the top case,
 BUT it comes with a brand new top case straight from Japan (still wrapped
 in Japanese newspaper). Complete with clip on telescopic antenna, battery
 charger and a set of brand new nicads (never been charged)

Also, Nevada 15 watt linear amp for 6m.

Also, Yaesu FT290R2, 2m multimode , with rubber duck antenna and full of nicads. Not as
tidy as the 690, a few scratches here and there on the top and bottom cases
and the display backlight doesn't work, but everything else works perfectly.

Also, Microwave modules ML144/30-LS 30 watt linear amp for 2m.

Now I reckon this stuffs got to be worth 600 notes. But like I say, I'd prefer to swap it. Drop me an email if you'd like to chat about it.

Another consideration is, they will never tell you what paragraphs or

tests under the generic MIL they're quoting, much less how testing was performed ("qualified" labs, etc.) MIL testing is laborious and expensive. I doubt seriously that ANY ham manufaturer has actually gone through all the hoops to qualify thier equipment. I asked Yaesu, once, and they blew it off. They had no idea what I was talking about!! Take it with a grain of MIL-K-876B/C salt!

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly used due to lack of time and other commitments. Would be surprised if used more than 75-100 hours in total. I am original owner and have manuals and original packaging for the unit. Price also includes new Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Will sell for $3400 U.S. plus shipping. Condition warrants price.

HI I just got an EICO 753 and need to know what the tube number is that
sits next to the 5.2xx xtal on the left side of the radio as you face it.
It is a nine pin tube. I am also looking for a manual for the 753 and 751
P.S. If anyone wants to dispose of one please let me know. Thanks Larry

Whoever you are cgoin@ime.net

The nature of your reply was uncalled for and your bad language is no excuse for not

knowing the answer. Were it not for the fact that you are an insipid little troll I would be
angry but must, instead, consider the source and wish you all the best in your endeavors to
impress someone else. And, by the by, you left out the "U", "C","I:", and "G". A loud filthy
mouth that cannot spell is a sad sound indeed. I am posting this here so that everyone can see what kind of person you really are.

sad indeed..

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly
used due to lack of time and other commitments. Would be surprised if
used more than 75-100 hours in total. I am original owner and have
manuals and original packaging for the unit. Price also includes new
Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better
use of it that I have.

Will sell for $3400 U.S. plus shipping. Condition warrants price.

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly used due to lack of time and other commitments. Would be surprised if used more than 75-100 hours in total. I am original owner and have manuals and original packaging for the unit. Price also includes new Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Will sell for $3400 U.S. plus shipping. Condition warrants price.

Alan,

Nice to know somebody remembers Cromemco. Microcomputers have advanced and matured fast in the last thirty years so that a "sci.antique.microcomputers" dealing in everything about "antique" microcomputers should be a good outgrowth out of interest in electronics.

>If you have an old Cromemco Z-1 or Z-2 or something close to it and
>you are interested in digging it out of the corner, let me know. I'd
>like to buy one or the other and we could work out an incentive for
>you to go dig it out out.

The Z-1, Z-2 looks and weighs in like a 'boatanchor'. You must be into collecting. Good luck. I saw once a complete set of the series in one of those fund raising used-stuff stores for something like twenty bucks. Discouraging prices reflecting the demand for the stuff but it disappeared overnight. I didn't need it, I still had my own still sitting in the computer room much like an old vacuum tube set. Takes up too much space anyway to get another one, even for collecting. One day, I'll fire mine up again just for the 'll of it to stare at the cursor. :). The thing was like the Collins in its heyday. It cost a lot more though. And the software choices were very limited. Cromemco disappeared as part of another company. The S-100 bus design microcomputers were overcome by IBM, shrinking demand, and plain economics.

  Forgot the price -- $250 each, these are like new, very few
  mins of use. These are not abused, ham fest condition, but
  like new

Thanks

I have one GE Delta S low-band (42 - 50Mhz) 100 watt with 8 channel
control head, cable, speaker, and mic. Programmable so no crystals
involved. Easy
conversion to 6 meters, just program it!. Capable of up to 128 channels.

$130.00/obo. US Postal Service money order as payment. Shipping not included.

We have a mixture of hollow- and solidstate radios and test equipment available to go to new homes. All prices are in US Dollars and do not include shipping. Please call (403.247.4396) or email for details.

ANTENNAS
KIWA Pocket Loop, $75

Palomar base with BCB Antenna, $100

RADIOS

AOR 7030 $800

Kenwood R5000 $695

Marconi CSR5A (general coverage receiver works extremely well, very sensitive, s-meter added to front panel) $150

Marconi Electra (striking receiver appearance-wise, works, very difficult to find, overall cosmetics very good. This receiver has been modified to accomodate a professionally constructed internal power supply which has been fitted inside the original manufacturer's cabinet, works.) $400

Pye Model 39HC (British-made wood cabinet receiver, works, dial excellent, overall very good condition) $250

Hallicrafters SX-23 (Typically very difficult to find especially in fine cosmetic and working condition. This Hallicrafters model was manufactured for a short period of time; I believe one year. Raymond Lowey is believed to have been involved in the design of this uniquely attractive receiver. The gray painted chassis is original and is in excellent condition as is the overall receiver. Easily a 9 on a scale of 1 to 10) $575

Hallicrafters SX 28A (Have seen at least a dozen nice examples of this model receiver. This receiver has the nicest knobs of any SX-28 we've ever seen. I'd call them a 9 on a scale of 1 to 10. The front panel has had a toggle switch added (alongside the BASS toggle)-- it's been extremely well done,

tho I don't know what it is supposed to do. On a scale of 1 to 10, the legends, front panel, etc. are an easy 9. BTW, it's also marked SX-28A on the front panel. Internally the receiver has been modified -- one mod is a Collins filter addition, audio mods are apparent as well. Works but needs electrical restoration.) $200

Hallicrafters SkyBuddy S19R (One of the earlier Hallicrafters, still has original speaker grille flocking, very good cosmetic condition) $125

Hammarlund HQ 145A (Double conversion, similar appearance to HQ 180, no clock, chassis immaculate, front panel excellent, perforated-design cabinet ala HQ-180 has some minor scratches) $175

RCA AR88 LF (Black wrinkle boatanchor that carries an equally weighty reputation as one of the best superhets ever. National S-meter has been added, receiver works but has not had cosmetic or electrical restoration, also has a cabinet.) $200

RCA BP61X (Vacuum tube lunchbox-style portable, works, cosmetics 8.5 on scale of 1 to 10) $75

RCA A-3 (Wood cabinet receiver, recently tuned, good condition, works very well) $75

Breting 14 (Newly powder-coated cabinet, mirror excellent, escutcheon very nice, this 1930's vintage radio hasn't been restored electrically yet) $350

Patterson PR-16 (Cosmetics very good, recapped, suprisingly sensitive receiver with a unique look) $425

Stromberg Carlson Model 874 (Wood cabinet, battery operated set in good condition, untested) $50

Phillips (Small maroon bakelite tabletop shortwave receiver in very nice condition, excellent reception, great little receiver on SW bands) $65

TEST EQUIPMENT
Hickok Model 156 Traceometer w/probes. Very good condition, works. Manual copy. $150

Hickok 288-X in good condition, one escutcheon is broken off at top edge but luckily it doesn't make it look terrible from a cosmetic standpoint. Very nice condition overall. Manual copy. $65

Heathkit IM-58 Harmonic Distortion Meter in good condition, works, $45

Hewlett-Packard Model 5328A Universal Counter w/HP-IB IO Opt. 011 and Opt. H99 (TCXO) in good condition, works $550

RCA Chanalyst w/probes and manual copy. Works and is in very nice condition. $150

Starkit Sweep Marker Generator is in very nice condition, $15

Simpson Model 480 Genescope with original manual. $75

Singer Spectrum Analyzer, MF-5 w/VR4 Module. Very good condition, works and has manual from Tucker. $135

Heathkit IO-102 Scope (works, manual copy available and is in nice cosmetic condition) $45

Hi folks,
I'm cleaning the shack and down sizing some equipment that I wont be using.
Please email with questions. Terms are check or
money order. Prices dont include shipping. I can ship by what
ever means you like. Net references available.

UPDATED LIST AS OF 8/3/98:

6. Regency CB converted to 10M SSB. Radio runs 15W output PEP
   and covers AM and USB. Freq coverage is 28.5-28.8 Mhz in
   23 channel increments. Has VFO slider for both TX and RX,
   to cover all the in-between and gap frequencies.
   Can be easily moved up
   or down the band with just a couple $5 crystals (available
   from JAN Crystal). Nice SSB tx audio from hand microphone.

Great for mobile/backpacking. Nice cosmetic condition too. Includes manual, sams photofact, mic, power cord, and radio. $65 + shipping

8. Kenwood AT-120 mobile antenna tuner. Matches the Kenwood TS-50 in size. Originally for use with Kenwood TS-120 HF transceiver. Covers 80 thru 10 meters. Includes lighted VSWR meter, as well as tuner bypass position.
Simple coax in and coax out connections.
Very clean -- works well. Also very close in size to Icom 706 and Alinco DX70 mini HF transceivers making a nice compact ham station. $80 + shipping (reduced price)

10. Vibroplex #6 "lightning bug" key -- late 1930's vintage with Japanned base (no gold trim). Keyer is fully functional but is missing both the original dit arm weight and the vibroplex name plate. Homebrew dit arm is included. This is a nice bug -- took it in on trade, but decided that I like the auto-keyer since I get "glass arm" sending with a bug. This one is probably not collector quality, but works great with my S-line and gold dust twins. $70 + shipping (reduced price)

14. ICOM IC3N UHF handheld transceiver covering 430-440 Mhz (note the band, this is for use in Asia, Central, South America, and Europe. Does "minus 5 megahertz" repeater split and automatically transmits the 88.5Hz tone burst to open repeaters (as in Japan). Good cosmetics, good electrical. 3 batteries, radio, antenna, and wall charger. $99 + shipping

15. JC Penney 981-6247 SSB/AM CB radio -- AC/DC, 40 channel, and ready to convert to 10 meters. Will include converstion instructions (only requires a change in the oscillator crystal). Will also include SAMS photofact. Rig works fine. Just no time to convert it. Would be great for new novice or tech plus to try voice on 10M for an inexpensive price. Works AC and DC (has built in power supply for 120VAC). Includes hand mic, and AC power cord. Wood grain cabinet. Smaller size, does not take up much room. Has vol, sql, clarifier, tone, dim, vswr calibrate, mode switch, pa switch, nb, anl, etc. Again, excellent for 10M SSB conversion --will include conversion plans -- simple 2 crystal change and receiver tweak.
Currently still on CB band, but slider in place.
$ 70 + shipping. (price reduced)

17. Home brew boat anchor power supply -- designed for use with all HEATHKITS. Much heavier duty than the HP23 supply. Could also be used with the COLLINS S-line and KWM2 transmitter/transceiver with simple re-wire of the octal power plug. No schematic, heavy (about 40 LBS), works fine. $45 + shipping

19. Radio Shack 2M 30 watt amplifier with preamp. Model 19-1122. 0.5-5w input will give 30 watts out. Nice helical front end

and GaAs FET preamplifier cuts down on intermod. In box, brand
new, never opened, never used, tape seal still in place.
Everything included: box, manual, packing material, etc.
Paid $99 new from Radio Shack. 1/2 price - $50 + shipping.

20. Icom HT rapid charger, model BM-82U. Found this in the closet
and dont recall what radio this charged. Does not fit
Icom 2AT/3AT/4AT or 02AT series. Maybe works with
the xSAT series rigs or commercial equivalent ??
$40 + shipping

21. Yaesu MD-48 touchtone hand mic. 8 pin, up/down buttons, 16
button touch tone. Think this was an accessory for the
FT-726R and FT-736R. $30 + shipping

22. Radio Shack PRO-34 handheld scanner.
Covers 68-88, 108-136, 137-174,
380-512, 806-960.
NO 800 Mhz GAPS! COVERS CELL RX TOO! Fair
physical condition -- one ding on the lower
edge of the case, repaired with epoxy. Does not look bad.
Works 100% electrically. With instructions, wall charger,
flexible antenna, and radio. $99 + shipping

I'm located in Portland, Oregon.
No LIDS, No KIDS, No SPACE CADETS. NO BAD NEWS either.
Happy to discuss details via email or can call you. Net
references available on items that I've already sold.

Mailto:K7JOE@yahoo.com
thanks,
Joe

After getting my license and playing on 2m for a while I got sidetracked and have been out of amateur radio for a while. I'm looking to get active again and am looking for some good 6m equipment to use while I study my code. However I am a college student so my budget isn't that big. If anyone has a good 6m rig or plans to build one that a college student could afford please let me know. 73's.

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly used due to lack of time and other commitments. Would be surprised if used more than 75-100 hours in total. I am original owner and have manuals and original packaging for the unit. Price also includes new Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Will sell for $3400 U.S. plus shipping. Condition warrants price.

Well,

Congratulations. You've just insured that I'll never do any business
with you. As for the products you sell, well - I've done very well with
out them so far and you can be assured you've given me even more
insentive to avoid them in the future.

Take it to the papers fools

HW-8 QRP transceiver, with manual copy. About 2 watts on 80m, 40m, 20m,
and 15m. Average condition cosmetically, works fine, receives
submicrovolt signals on all bands. A nice little QRP rig. $150 plus
shipping.

I have for sale the following-

Icom IC-V100 Commercial VHF 16 Ch. Radio with EX-494 Programmer.
Currently programmed in the 2 Meter ham band.
CTCSS Encode and Decode.
35 Watts (That is what is on the radio tag but actually puts out 45 Watts.)
A 6 on a scale of 1 to 10 (Would be an 8 but it has a small notch cutout for the programming cable)
I have a copy of the programming manual.
$150.00 Plus Shipping

Kantronics Data Engine
Has both 1k2 an 9k6 Modems
In good shape.
$125.00 Plus Shipping
(Note: No it does not do Pactor or any of the HF modes, It is high speed packet or Node use.)

Radio Shack DX-394 Communications Receiver
150 kHz to 29.999 MHz
AM,LSB,USB,CW
LCD Display
9 on a scale of 1 to 10
$150.00 Plus Shipping

I can send JPEG's of any of the items.
Email me @

I have eight Motorola Micor low-band (42 - 50Mhz), 100 watt radios. Model # T71RTN-3190A. They are four channel and come with channel elements, control head, cable, speaker, and mic. Easy conversion to 6 meter---- recrystal the channel element.

OR, use the power amp in the radio to build a PA for your 6meter HT. Schematic included.

$70.00/obo each. US Postal Service money order as payment. Shipping not included. Shipping weight is 37 pounds from zip 93309.

I have one GE Delta S low-band (42 - 50Mhz) 100 watt with 8 channel
control head, cable, speaker, and mic. Programmable so no crystals
involved. Easy conversion to 6 meters, just program it!. Capable of up
to 128 channels with different control head.

$130.00/obo. US Postal Service money order as payment. Shipping not
included.

Selling due to lack of time to get on bands from home - I'm fully
mobile now...

Cushcraft 10-15-20M 4 element tribander, with manual and
set of spare trap covers (I think its a complete set). $175
plus shipping (and box cost) from Tempe Arizona.

please reply by email. (or find me in the callbook, I should
be good)

I have the following for sale:
    1 Kenwood TR-7950 2mtr mobile with mic, no bracket or manual, $65.00. Works great, volume pot is noisy, very good condition
    1 Kenwood TM-731A 2mtr/440 dual band mobile with mic, manual and duplexer, no bracket. $120.00. Works great, very good condition, can do crossband repeat
    1 Alinco DJ-S41T micro 440 handheld, new, manual, box, warranty card. $65.00. Would work well in a city environment, doesn't quite cut the mustard out in the sticks where I am!

Please email billp@idsely.com if interested. Prices include shipping.

73,

Bill KD7AVW

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly
used due to lack of time and other commitments. Would be surprised if
used more than 75-100 hours in total. I am original owner and have
manuals and original packaging for the unit. Price also includes new
Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Asking $3400 U.S. plus shipping. Condition warrants price.

FT200 SSb/CW transciever, with power supply. This set should be
considered as a parts set, although the right person can probably get it
going. Not getting any power out, but the recieve side works. Power
supply and cabinet look great, receiver cabinet is good. Make me a
reasonalble offer or will consider trades. I may sell individual parts
if enough people are interseted so let me know what you might want from
it as well. Thanks. / Larry.

I have a HTX-404 with all original accessories plus a rapid charger and two
hi-cap batteries for same.

Am looking to trade for a VHF HT-600 (preferrably 6 channel).

Let me know.

HW-8 QRP transceiver, with manual copy. About 2 watts on 80m, 40m, 20m, and 15m. Average condition cosmetically, works fine, receives submicrovolt signals on all bands. A nice little QRP rig. $130 plus shipping.

I have one GE Delta S low-band (42 - 50Mhz) 100 watt with 8 channel
control head, cable, speaker, and mic. Programmable so no crystals
involved. Easy conversion to 6 meters, just program it!. Capable of up
to 128 channels with different control head.

$130.00/obo. US Postal Service money order as payment. Shipping not
included.

I have eight Motorola Micor low-band (42 - 50Mhz), 100 watt radios.
Model # T71RTN-3190A. They are four channel and come with channel
elements, control head, cable, speaker, and mic. Capable of 6 meters
with a few minor mods.

OR, use the power amp in the radio to build a PA for your 6meter HT.
Schematic included.

$60.00/obo each. US Postal Service money order as payment. Shipping not
included. Shipping weight is 37 pounds from zip 93309.

Newsgroups: rec.radio.swap,rec.radio.scanner,rec.ham-radio.swap,rec.radio.amateur.swap

I have a crystal Scanner, 16 channel capacity by Tenelec. It is called a Tennetrac IV. Has conrrols for volume, squelch,scanrate, tone, scan / delay and local / distant rockers. Serial #1335678. Condition is bout 8 out of 10. I know it works as I had one crystal for my local department and it picked them up fine. It has the original antennas (seperate vhf & uhf). I aquired this unit and although it is nice I am limiting my crystal units to Bearcat III's and right now, i have a couple two many of those. I believe there are followers of this type unit out there as it is frankly a pretty nice radio.
I would like to make an even trade for a realistic HTX-202 or HTX-404 with all original accessories (charger / ni-cad pak / AA pak / Duckie antenna. Manual and box/packing items would be nice but not required. Radio should be in an 8 out of 10 condition in cosmetics and operation.

Or what have you?????????write and lets talk.

Have a nice day.

Hi folks, -- UPDATED LIST.
 Family time is more important than ham radio time. I'm cleaning
 the shack and down sizing some equipment that I wont be using.
 Please email with questions. Terms are check or
 money order. Prices dont include shipping.   I can ship by what
 ever means you like. Net references available. Entertain offers
 on some of this, trades considered too.

 1. TH-75A SOLD

 2. Kenwood TR-2600 2M ht. About same size as Radio Shack HTX-202.
     Cosmetically clean and works fine electrically. Covers
     140-160 TX and RX.   NO PL. Includes radio, battery, charger,
     ant, and soft case.   Great starter HT. 10 memories.
     $99+shipping

 3. Kenwood TR-7850 2M mobile rig. 40W output. 14 memories.
     LED frequency readout and direct frequency entry via keypad.
     Includes mic, mobile bracket, power cord, radio, and original
     kenwood manual.   No pl (can be added though) and very heavily

built. Used mobile but cosmetics ok. $125 + shipping

4. SB102 SOLD

5. Icom HF solid-state transceiver station including:
Icom 701, PS701 and SM-8 desk microphone. This is a 100W DIGITAL all solid state HF rig covering 160 thru 10 meters (excludes WARC bands). Radio covers USB/LSB/CW/CW-N/RTTY and red LED digital frequency readout.
Has speech compressor, cw-narrow filter,
vox capability. Microphone is a condenser "gooseneck" type with PTT button on the base. Power supply matches the radio cosmetically. It is a 13.8V at 20 amps. Power supply also has big speaker in it, to be used as external station speaker. Entire setup is very clean--a few minor scratches, but front panel is perfect. I have the original manual too. This would make a great setup from Tech plus thru Extra. The rig works great on SSB with the speech compression, as well as on CW with the narrow CW filter. The bands are coming back NOW.
Dont miss the action, especially on 10M and 15M!
Entire station (wont split) $425 + 1/2 shipping.

6. Regency CB converted to 10M SSB. Radio runs 15W output PEP and covers AM and USB. Freq coverage is 28.5-28.8 Mhz, the phone portion of 10M. Great for mobile/backpacking. Good condition. Includes manual, sams photofact, mic, power cord, and radio. $65 + shipping

7. ECI Fleet Courier 30B 10M/6M AM transceiver.
Cosmetically a beauty.
Electrically a beauty. This is a classic early 1960's tube "mobile/base" AM HF transceiver. Six crystal-controlled channels.
Chromed cabinet. Blue front panel with white lettering.
Good cabinet and front panel. Output is 15 watts AM.
Includes microphone, AC power cord, and DC-DC convertor.
This is a classic
in very nice condition. Thought it was sold before, but buye never sent payment. Includes 1 set of
crystals (26.1, I think) Asking $45 + shipping.

8. AT-120 SALE PENDING

9. SOLD

10. Vibroplex #6 "lightning bug" key -- late 1930's vintage with Japanned base (no gold trim). Keyer is fully functional but is missing both the original dit arm weight and the vibroplex name plate. Homebrew dit arm is included. This is a nice bug -- took it in on trade, but decided that I like the auto-keyer since I get "glass arm" sending with a bug. This one is probably not collector quality, but works great with my S-line and gold dust twins. $80 + shipping

11. Collins Winged PM-2 mobile power supply that goes with Collins KWM2/KWM2A. This one is CCA fair. Serial number is 11771. Has some scratches here and there, but is complete except for missing grey 2 amp fuse "cap" that holds the fuse in place. Works fine. $125 + shipping

11b. Collins Winged KWM-2A S/N 325. This is one of the first 2A's Art and company made. 100Kc calibrator crystal dates 11/69. Condition is CCA good to fair: Cabinet has been repainted and looks very good (a close match to St. James, but not perfect) the trim ring is primer grey and needs a white coat of paint. Missing 3.8-4.0 75M crystal. VFO dial is a little bit stiff. Mic jack changed from 3/16 to 1/4". Front panel is excellent, no wear. Chassis is very clean, with no known modifications. Certainly a functional piece that would require just a little TLC to bring up a CCA notch or two. Fired up on 40M and rx/tx was fine. No manual $380

Will sell 11A and 11B as a package for $450 + shipping

12. Alinco DR-110T 2 meter, 45 watt mobile radio with TT mic, bracket, and manual. Has PL (CTCSS) encode and decode. Has wide band VHF receive, as well as CELLULAR and UHF aircraft band receive! Covers 136-174 Mhz transmit/receive. 360-400, and 870-890 RX only. Very nice condition --not a beat up piece of junk -- used almost exclusively inside the house. $150 + shipping

13. Desk amplified Microphone - turner +3 $30 Currently wired for Kenwood 4-pin. Can rewire for you at nominal charge (cost of mic plug from Radio Shack). (sold 1, still have 1 to go).

14. Heathkit-COMPATIBLE Power supply -- for HW101, SB102, and other heathkit tube radio's. No schematic. Works fine. Much heavier duty than original heathkit HP-23/a/b/c. Probably works with Collins gear too with simple re-wire of connector plug. Weighs about 40 pounds. Home brewed. Nice. $45 + shipping.

I'm located in Portland, Oregon.
No LIDS, No KIDS, No SPACE CADETS.
Happy to discuss details via email or can call you.
Mailto:K7JOE@yahoo.com
thanks,
Joe

Have for my neighbor:

  For trade: Icom IC229H 2m mobile unit, mostly base use.
                   45watt, 22ch, wideband mods done, looks and works
                    great.

Looking for: Would like to trade for an ht, Relm whs150 (must include
accys), or FT10, or GP68 (he has taken a liking to my gp68.... nice radio,
btw.) Anyway, need keypad programming radio, commercial or ham similar in
type and vintage or whatever as listed above!
Please email!
thanks,
Randy

I have a Motorola model N1275A UHF amplifier for sale. It was designed for HT use, and puts out 40W+ with 2W in. It has been centered in the UHF ham band, but is broadbanded enough to easily cover the commercial band as well. It is in perfect condition, and comes with a power cord that currently has a cigarette lighter plug on the end.
I will ship ConUS for $80.
If interested reply via direct email.

For Sale:

80' self-supporting galvanized steel tower in NW Illinois.

This a very heavy-duty, 24" face, straight leg tower consisting of
4 - 20' sections. Total weight of sections about 2300 lbs. Uses
solid round bar legs ranging from 1" diameter in the top section to
1 7/8" diameter in the bottom and 5/8" solid round bar braces.

Tower is disassembled and ready for pickup. Price includes loading
sections on your trailer (sections will transport very nicely on
a 16' tandem axle car-hauler type trailer).

$ 1000.00

(2) Motorola MRF153, 300 watt, 1-150 mHz RF power MOSFETs.

Typical specs:

Power OUT: 300 watts
Power in: 6 watts
Gain at 30 mHz: 17 dB
Vdd: 50 volts

New/unused in original packaging. Great for HF to VHF. The pair will
work great in a 600 watt output solid-state broadband or single band
linear oe class-C amp, 160M - 2M!

$100 for both including postage.

radio.marketplace,rec.radio.amateur.boatanchors

Hi folks,
 Family time is more important than ham radio time. I'm cleaning

the shack and down sizing some equipment that I wont be using.
Please email with questions. Terms are check or
money order. Prices dont include shipping. I can ship by what
ever means you like. Net references available.

1. Kenwood TH75A SOLD

2. Kenwood TR2600 SOLD

3. Kenwood TR-7850 2M mobile rig. 40W output. 14 memories.
   LED frequency readout and direct frequency entry via keypad.
   Includes mic, mobile bracket, power cord, radio, and original
   kenwood manual. No pl (can be added though) and very heavily
   built. Used mobile but cosmetics ok. $125 + shipping

4. Heathkit Coax Switch (unbuilt, new in box) SOLD

5. Icom HF solid-state transceiver station including:
   Icom 701, PS701 and SM-8 desk microphone. This is a 100W
   DIGITAL all solid state HF rig covering 160 thru 10 meters
   (excludes WARC bands). Radio covers USB/LSB/CW/CW-N/RTTY and
   red LED digital frequency readout.
   Has speech compressor, cw-narrow filter,
   vox capability. Microphone is a condenser "gooseneck" type
   with PTT button on the base. Power supply matches the radio
   cosmetically. It is a 13.8V at 20 amps. Power supply also
   has big speaker in it, to be used as external station speaker.
   Entire setup is very clean--a few minor scratches, but front
   panel is perfect. I have the original manual too. This would
   make a great setup from Tech plus thru Extra. The rig works
   great on SSB with the speech compression, as well as on CW with
   the narrow CW filter. The bands are coming back NOW.
   Dont miss the action, especially on 10M and 15M!
   Entire station (wont split) $425 + 1/2 shipping.

6. Regency CB converted to 10M SSB. Radio runs 15W output PEP
   and covers AM and USB. Freq coverage is 28.5-28.8 Mhz, the
   phone portion of 10M. Great for mobile/backpacking. Good
   condition. Includes manual, sams photofact, mic, power cord,
   and radio. $65 + shipping

7. ECI Fleet Courier 30B 10M/6M AM transceiver.
   Cosmetically a beauty.
   Electrically a beauty. This is a classic early 1960's tube
  "mobile/base" AM HF transceiver. Six crystal-controlled
  channels.
  Chromed cabinet. Blue front panel with white lettering.
  Good cabinet and front panel. Output is 15 watts AM.
  Includes microphone, AC power cord, and DC-DC convertor.
  This is a classic
  in very nice condition. Thought it was sold before, but buye
  never sent payment. Includes 1 set of

crystals (26.1, I think) Asking $45 + shipping.

8. Kenwood AT-120 mobile antenna tuner. Matches the Kenwood TS-50 in size. Originally for use with Kenwood TS-120 HF transceiver.
Covers 80 thru 10 meters. Includes lighted VSWR meter, as well as tuner bypass position. Single coax in and coax out connections.
Very clean -- works well. Also very close in size to Icom 706 and Alinco DX70 mini HF transceivers. $100 + shipping

9. Heathkit SB102 SOLD

10. Vibroplex #6 "lightning bug" key -- late 1930's vintage with Japanned base (no gold trim). Keyer is fully functional but is missing both the original dit arm weight and the vibroplex name plate. Homebrew dit arm is included. This is a nice bug -- took it in on trade, but decided that I like the auto-keyer since I get "glass arm" sending with a bug. This one is probably not collector quality, but works great with my S-line and gold dust twins. $80 + shipping

11. Collins Winged PM-2 mobile power supply SOLD
11b. Collins Winged KWM-2A S/N 325. SOLD

12. Alinco DR-110T 2 meter SOLD

13. Desk amplified Microphones SOLD

I'm located in Portland, Oregon.
No LIDS, No KIDS, No SPACE CADETS. NO BAD NEWS either.
Happy to discuss details via email or can call you.
Mailto:K7JOE@yahoo.com
thanks,
Joe

Hi, I have a kenwood UHF mobile radio as listed (tk805d) for sale.
Radio has 16ch. & seems to go from infinity and beyond, but guessing
410-490ish.... FIELD PROGRAMMABLE thru ptt and front buttons/channel
selector!!!
Will program to suit and include copy of software for same!!
Sorry, no programming cable, but hey, It does have the factory hangup clip!
:) This radio is in LIKE NEW condition, as it's only about a year or two
old. Includes radio, s/w, new style mic/hangup clip and mounting bracket.
no cut cords, either! no docs. Asking $250 shipping included CONUS. email
please and no trades!
thanks,
Randy, KC8CPK

For sale in Northwest Illinois:

80' galvanized steel self-supporting tower. 24" face, straight legged. Consists of 4 - 20' sections. Constructed of solid round bar (no hollow members). Very heavy-duty tower; approximately 2300 lbs for all 4 sections. $1000.00 includes loading on your truck or trailer. Will travel nicely on 16' car-hauler type trailer.

Hi folks,
Family time is more important than ham radio time. I'm cleaning the shack and down sizing some equipment that I wont be using. Please email with questions. Terms are check or money order. Prices dont include shipping. I can ship by what ever means you like. Net references available.

1. Kenwood TH75A SOLD

2. Kenwood TR2600 SOLD

3. Kenwood TR-7850 2M mobile rig. SOLD

4. Heathkit Coax Switch (unbuilt, new in box) SOLD

5. Icom HF solid-state transceiver station including:
   Icom 701, PS701 and SM-8 desk microphone. This is a 100W DIGITAL all solid state HF rig covering 160 thru 10 meters (excludes WARC bands). Radio covers USB/LSB/CW/CW-N/RTTY and red LED digital frequency readout.
   Has speech compressor, cw-narrow filter, vox capability. Microphone is a condenser "gooseneck" type with PTT button on the base. Power supply matches the radio cosmetically. It is a 13.8V at 20 amps. Power supply also has big speaker in it, to be used as external station speaker. Entire setup is very clean--a few minor scratches, but front panel is perfect. I have the original manual too. This would make a great setup from Tech plus thru Extra. The rig works great on SSB with the speech compression, as well as on CW with the narrow CW filter. The bands are coming back NOW. Dont miss the action, especially on 10M and 15M!
   Entire station (wont split) $425 + 1/2 shipping.

6. Regency CB converted to 10M SSB. Radio runs 15W output PEP and covers AM and USB. Freq coverage is 28.5-28.8 Mhz, the phone portion of 10M. Great for mobile/backpacking. Good condition. Includes manual, sams photofact, mic, power cord, and radio. $65 + shipping

7. ECI Fleet Courier 30B 10M/6M AM transceiver.
Cosmetically a beauty.
Electrically a beauty. This is a classic early 1960's tube "mobile/base" AM HF transceiver. Six crystal-controlled channels.
Chromed cabinet. Blue front panel with white lettering.
Good cabinet and front panel. Output is 15 watts AM.
Includes microphone, AC power cord, and DC-DC convertor.
This is a classic
in very nice condition. Thought it was sold before, but buye never sent payment. Includes 1 set of
crystals (26.1, I think) Asking $45 + shipping.

8. Kenwood AT-120 mobile antenna tuner. Matches the Kenwood TS-50 in size. Originally for use with Kenwood TS-120 HF transceiver.
Covers 80 thru 10 meters. Includes lighted VSWR meter, as well as tuner bypass position. Single coax in and coax out connections.
Very clean -- works well. Also very close in size to Icom 706 and Alinco DX70 mini HF transceivers. $100 + shipping

9. Heathkit SB102 SOLD

10. Vibroplex #6 "lightning bug" key -- late 1930's vintage with Japanned base (no gold trim). Keyer is fully functional but is missing both the original dit arm weight and the vibroplex name plate. Homebrew dit arm is included. This is a nice bug -- took it in on trade, but decided that I like the auto-keyer since I get "glass arm" sending with a bug. This one is probably not collector quality, but works great with my S-line and gold dust twins. $80 + shipping

11. Collins Winged PM-2 mobile power supply -- CCA good condition. Works with KWM2/KWM2A. Tested and works fine. Paint a little rough, but not terrible. S/N 11XXX. $130 + shipping

11b. Collins Winged KWM-2A S/N 325. CCA good condition or better. This is one of the earlier KWM2A's. All original except cabinet paint, and the mic jack was changed from PJ068 plug to a standard 1/4 inch phono plug. Works fine -- clean chassis. Case has been repained -- a close match to the original St. James Grey color. Trim ring is primed -- but not yet painted white. $420 + shipping

Will sell both the KWM2A and the PM2 mobile supply for $500 plus shipping if someone is interested in both. Price is firm.

12. Alinco DR-110T 2 meter SOLD

13. Desk amplified Microphones SOLD

14. ICOM UHF handheld transceiver covering 430-440 Mhz (note the band, this is for use in Asia, Central, South America, and Europe. Does "minus 5 megahertz" repeater split and automatically transmits the 88.5Hz tone burst to open repeaters (as in Japan). Good cosmetics, good electrical. 3 batteries, radio, antenna, and wall charger. $99 + shipping

15. JC Penney 981-6247 SSB/AM CB radio -- AC/DC, 40 channel, and ready to convert to 10 meters. Will include converstion instructions (only requires a change in the oscillator crystal). Will also include SAMS photofact. Rig works fine. Just no time to convert it. Would be great for new novice or tech plus to try voice on 10M for an inexpensive price. Works AC and DC (has built in power supply for 120VAC). Includes hand mic, and AC power cord. Wood grain cabinet. Smaller size, does not take up much room. Has vol, sql, clarifier, tone, dim, vswr calibrate, mode switch, pa switch, nb, anl, etc. Again, excellent for 10M SSB conversion -- currently on CB band. $ 80 + shipping.

16. Regency INFORMANT 1 police radio mobile scanner. Preprogrammed scanner covering VHF LO and HI bands -- designed for monitoring state / county police. Simply dial up your state, and the preprogrammed scanner does the rest....Designed for 13.8VDC and includes both radio and cig lighter power cord. $25 + shipping

17. Home brew boat anchor power supply -- designed for use with all HEATHKITS. Much heavier duty than the HP23 supply. Could also be used with the COLLINS S-line and KWM2 transmitter/transceiver with simple re-wire of the octal power plug. No schematic, heavy (about 40 LBS), works fine. $45 + shipping

I'm located in Portland, Oregon.
No LIDS, No KIDS, No SPACE CADETS. NO BAD NEWS either.
Happy to discuss details via email or can call you. Net references available on items that I've already sold.

Mailto:K7JOE@yahoo.com
thanks,
Joe

1. Kenwood TH75A SOLD
2. Kenwood TR2600 SOLD
3. Kenwood TR-7850 SOLD
4. Heathkit Coax Switch (unbuilt, new in box) SOLD

5. Icom HF solid-state transceiver station including:
   Icom 701, PS701 and SM-8 desk microphone.   This is a 100W
   DIGITAL all solid state HF rig covering 160 thru 10 meters
   (excludes WARC bands).   Radio covers USB/LSB/CW/CW-N/RTTY and
   red LED digital frequency readout.
   Has speech compressor, cw-narrow filter,
   vox capability.   Microphone is a condenser "gooseneck" type
   with PTT button on the base.   Power supply matches the radio
   cosmetically.   It is a 13.8V at 20 amps.   Power supply also
   has big speaker in it, to be used as external station speaker.
   Entire setup is very clean--a few minor scratches, but front
   panel is perfect. I have the original manual too. This would
   make a great setup from Tech plus thru Extra. The rig works
   great on SSB with the speech compression, as well as on CW with
   the narrow CW filter. The bands are coming back NOW.
   Dont miss the action, especially on 10M and 15M!
   Entire station (wont split) $425 + 1/2 shipping.   (sale pending)

6. Regency CB converted to 10M SSB. Radio runs 15W output PEP
   and covers AM and USB. Freq coverage is 28.5-28.8 Mhz in
   23 channel increments. Has VFO slider for both TX and RX,
   to cover all the in-between and gap frequencies.

Can be easily moved up
or down the band with just a couple $5 crystals (available
from JAN Crystal). Nice SSB tx audio from hand microphone.
Great for mobile/backpacking. Nice cosmetic condition too.
Includes manual, sams photofact, mic, power cord,
and radio. $65 + shipping

7. ECI Fleet Courier 30B 10M/6M AM transceiver.
Cosmetically a beauty.
Electrically a beauty. This is a classic early 1960's tube
"mobile/base" AM HF transceiver. Six crystal-controlled
channels.
Chromed cabinet. Blue front panel with white lettering.
Good cabinet and front panel. Output is 15 watts AM.
Includes microphone, AC power cord, and DC-DC convertor.
This is a classic in very nice condition. Includes 1 set of
crystals (26.1, I think) Asking $45 + shipping.

8. Kenwood AT-120 mobile antenna tuner. Matches the Kenwood
TS-50 in size. Originally for use with Kenwood TS-120 HF
transceiver. Covers 80 thru 10 meters. Includes lighted VSWR
meter, as well as tuner bypass position. Simple coax in and coax out
connections.
Very clean -- works well. Also very close in size to Icom 706
and Alinco DX70 mini HF transceivers making a nice
compact ham station. $100 + shipping

9. Heathkit SB102 and mobile power supply SOLD

10. Vibroplex #6 "lightning bug" key -- late 1930's vintage with
Japanned base (no gold trim). Keyer is fully functional but
is missing both the original dit arm weight and the vibroplex name
plate. Homebrew dit arm is included. This is a nice bug --
took it in on trade, but decided that I like the auto-keyer
since I get "glass arm" sending with a bug. This one is
probably not collector quality, but works great with my S-line and
gold dust twins. $80 + shipping

11. Collins Winged PM-2 mobile power supply -- CCA good condition.
Works with KWM2/KWM2A. Tested and works fine. Paint a little
rough, but not terrible. S/N 11XXX. $130 + shipping

11b. Collins Winged KWM-2A S/N 325. CCA good condition or better.
This is one of the earlier KWM2A's. All original except cabinet
paint, and the mic jack was changed from PJ068 plug to a standard
1/4 inch phono plug. Works fine -- clean chassis. Case has
been repained -- a close match to the original St. James Grey
color. Trim ring is primed -- but not yet painted white.
$420 + shipping (sale pending)

12. Alinco DR-110T 2 meter SOLD
13. Desk amplified Microphones SOLD

14. ICOM IC3N UHF handheld transceiver covering 430-440 Mhz (note the band, this is for use in Asia, Central, South America, and Europe. Does "minus 5 megahertz" repeater split and automatically transmits the 88.5Hz tone burst to open repeaters (as in Japan). Good cosmetics, good electrical. 3 batteries, radio, antenna, and wall charger. $99 + shipping

15. JC Penney 981-6247 SSB/AM CB radio -- AC/DC, 40 channel, and ready to convert to 10 meters. Will include converstion instructions (only requires a change in the oscillator crystal). Will also include SAMS photofact. Rig works fine. Just no time to convert it. Would be great for new novice or tech plus to try voice on 10M for an inexpensive price. Works AC and DC (has built in power supply for 120VAC). Includes hand mic, and AC power cord. Wood grain cabinet. Smaller size, does not take up much room. Has vol, sql, clarifier, tone, dim, vswr calibrate, mode switch, pa switch, nb, anl, etc. Again, excellent for 10M SSB conversion --will include conversion plans -- simple 2 crystal change and receiver tweak. Currently still on CB band, but slider in place.
$ 80 + shipping.

16. Regency INFORMANT 1 police radio mobile scanner. Preprogrammed scanner covering VHF LO and HI bands -- designed for monitoring state / county police. Simply dial up your state, and the preprogrammed scanner does the rest....Designed for 13.8VDC and includes both radio and cig lighter power cord.
$25 + shipping

17. Home brew boat anchor power supply -- designed for use with all HEATHKITS. Much heavier duty than the HP23 supply. Could also be used with the COLLINS S-line and KWM2 transmitter/transceiver with simple re-wire of the octal power plug. No schematic, heavy (about 40 LBS), works fine.
$45 + shipping

18. Heathkit MicroMatic CW keyer -- one of the last kits made by heathkit in 1981. This is the iambic CW paddle and keyer combo with capacitive cw paddle (keys by hand capacitance, not mechanical). Keys both boat anchor and modern rigs. Lots of features: memories and adjustable speed/weighting. This keyer/paddle combo also has auto-cw practice (great for upgrading your cw speed and practicing). Includes wall power supply. Model is SA-5010. Condition is very good. Works well. $50 + shipping

19. Radio Shack 2M 30 watt amplifier with preamp. Model 19-1122. 0.5-5w input will give 30 watts out. Nice helical front end and GaAs FET preamplifier cuts down on intermod. In box, brand new, never opened, never used, tape seal still in place. Everything included: box, manual, packing material, etc. Paid $99 new from Radio Shack. 1/2 price - $50 + shipping.

20. Icom HT rapid charger, model BM-82U. Found this in the closet
and dont recall what radio this charged. Does not fit
Icom 2AT/3AT/4AT or 02AT series. Maybe works with
the xSAT series rigs or commercial equivalent ??
$40 + shipping

21. Yaesu touch tone, up/down hand microphone. Model YM-48.
This is a 600 ohm condenser microphone. Has 16-digit
touchtone pad, up/down buttons, and 8 pin mic connector.
In perfect condition -- unused. Think it was an accessory
for the Yaesu FT-726R or FT-736R - not sure though.
$30 + shipping

I'm located in Portland, Oregon.
No LIDS, No KIDS, No SPACE CADETS. NO BAD NEWS either.

Ten-Tec Argonaut 505 QRP SSB/CW transceiver. Nice QSK, 5 watts input, about 6 lbs. Draws less than 100 mA on receive. There were only about 2000 of these produced. This one is very good looking, a 9.5 out of 10 cosmetically, and operationally perfect. It has the newer spinner VFO knob with the 1 KHz markings and the dial operates as smooth as silk. Comes with a copy of the manual. Great for camping, or just QRP operating.

Reason for selling: I have an Argonaut 505 already. I thought I was getting an Argonaut 509 when I bought this one. I wanted an Argonaut 509 for nastalgic reasons because I used to have one in my younger days. If you would like to look at some data, including a scanned QST advertisement, see: http://asd.state.va.us/tentec/tttrans.htm

$288 plus shipping or trade for a more common Argonaut 509.

Rob Frohne, KL7NA/W7

I remember paying $288 for one of these in 1972. I got it out to the car,
hooked it to a pair of AA lantern batteries (while in the car) and got
it going out in the radio shop's parking lot. Took it to Barbados and
made QSOs as 8P6FS. Etc. etc. etc. etc. much fun radio!

My first time use one, or to see one for that matter, was field day
'80-'81. If I could slip another by my wife I'd buy it. Super little
radio.

Hi All,

I realize this is a long shot, but here goes....

I'm looking for the Ten-Tec Argonaut 509, serial number 509-4580. It had green LEDs replacing the dial lights and a couple of diodes back to back tacked on the SSB generator board to provide some RF clipping. Back in my freshman year in college, my dad gave me that rig. I had a lot of fun with it, but then in my lean grad school years I traded it at TNT Radio in Minnesota for a shiney new Icom IC-735. If you have any info on this perticular radio, please send me a note!

73,

Rob, KL7NA/W7

Looking for one or two Maratrac heads and cables - mics and speakers also
would be nice, but not necessary. Prefer 99 channel type, but would consider
clamshells as well. Let me know what you have available, and your price.

    Thanks,

    Phil Barber

ditto on the argonaut. I still regret the day I got rid of mine. Best rcvr I
have ever
come across and that was back in the mid 70's.....shit time flies, QCWA is just
around
the corner and I'm only 31. Has someone figured out how to get those lost years
back
yeat?!

Yaesu FT 1000D in absolutely mint, out-of-the-box condition. Hardly used due to lack of time and other commitments. Would be surprised if used more than 75-100 hours in total. I am original owner and have manuals and original packaging for the unit. Price also includes new Yaesu compatible speaker (with filters) and desk microphone.

Hate to sell but unit needs a new home and Owner willing to make better use of it that I have.

Will sell for $3400 U.S. plus shipping. Condition warrants price.

Can anyone help me identify a radio made by Motorola for Western Electric? There is no external Moto model, but it is labelled as a Western KS21466. The connector for the head cable is the same as some of the Moto IMTS radios; internally it has duplexer. I suspect it isn't a complete custom, but a relabel of a standard Moto product. Any ideas?

    Thanks,

    Phil Barber

Lowband/6 meter equipment for sale:

RCA Series 1000 mobile radio, model CMFM7MMRNC. 100 watts, presently on 39.xxMHz. Complete system with 4 frequency scanning control head & bracket, speaker, mic, mounting tray, and control/power cable. Noise blanker option. Also includes complete, original RCA 700/1000 series lowband service manual set in three ring binder. Clean, complete, working when pulled a couple years ago. $95.

RCA Supercarfone mobile, model CMFA50N2TT. 50 watts, 45-54MHz split, presently on 47.98. Complete system with 4 frequency 'integrated' control head with mtg bracket, speaker with mtg bracket, mic, mic hangup box, mounting tray, control and power cables. Also includes complete, original RCA Supercarfone/Superfleetfone lowband service manual set. Radio is very clean, head and cables complete, but a little dirty and worn. Working when pulled a couple years ago. $65.

Motorola 'Private Line' desktop base station, model L51GJB-20. A real heavy duty antique! All tube, don't know what vintage, but original Motorola manual (included) is dated 7/56. 60 watts, mechanical digital clock built in. Complete except for top cover and 2 knobs. Was working a few years ago, but haven't turned it on since. Probably should be turned on slowly with a Variac to reform electrolytics. Weighs about 100lbs., so local pickup is definitely preferred. Offers?

6 meter 5 element beam. Complete and in good condition, but I'm not sure of brand. It's about 20% larger and a lot heavier than a 5 element Cushcraft I had. Prefer a pickup since it would take a while to disassemble and package for shipment. $65 if you come and get it (it's on the ground), or $85 if I disassemble and pack it.

All equipment located in southern NH; I would be glad to show it if you're in the area. Prices plus shipping.

Dave,

Fun is sure the word. In 1974 I was living in an apartment in the Philadelphia area had a 505 and a run of #28 wire about 150 feet from my bedroom window to the top of a tree. No RF interfearence with this setup and it was very stealthy as you could not really notice the antenna.

I was listening to the 75 meter big guns from New England and Long Island on the lower end of the phone band working into Europe one evening and

broke in and asked if they could relay me through to one of the Great Britian stations I was hearing but whom I never thought would hear me... more of an SWL report than anything. This station from Long Island asked everyone to standby and let the QRP station try to cross the pond with 5 watts SSB. I received a 5/5 report from several G stations and it was one of my biggest thrills in ham radio.

The equipment consists of the M-8000 decoder and the color Monitor.

The Universal M-8000 Decoder

Decoder:	Universal M8000 (version 5)
Level:	Professional-grade, sophisticated decoder for Experts
Synopsis:	Stand-alone decoder much used by professional and semi-professional monitoring agencies around the world. Decodes just about anything that you'll hear on VHF or HF, but not quite in the same league as the Hoka PC-based systems or the Wavecom family. Can be fully controlled by a computer or terminal. Ten memories can be used to store favourite operating settings. Housed in a standard 19 inch rack mount cabinet.
Modes Decoded:	Baudot RTTY 20 to 250 Baud, auto speed determination CW (auto speed determination) SITOR-A SITOR-B ASCII (ITA-5/IRA) 75, 110, 150, 300, 600, 1200 Baud VFT (FDM) 8, 12, 16, or 24 channels Piccolo 6 tone ARQ-M2 86, 96, 100 Baud ARQ-M4 172, 192, 200 Baud ARQ-E 48, 64, 72, 86, 96, 144, 192 Baud ARQ-E3 48, 64, 72, 86, 96, 100, 192, 200 Baud ARQ-S 4, 5, 6, 7 character blocks

ARQ-6-90 200 Baud
SWED-ARQ 3, 9, 22 character blocks
FEC-A 96, 144, 192 Baud
FEC-S 96, 100, 144, 192, 200 Baud
FAX 60, 90, 120, 240 LPM: 288 or 576 IOC
AX.25 Packet 300, 1200 baud
PACTOR 100, 200 Baud
POCSAG
GOLAY
ACARS

Analysis Tools: Third shift Cyrillic alphabet can be printed on-screen. Literal mode printing of data received, databit mode, auto baudrate, tuning and shift determination. Start printer when upto 3 matching selcalls are received. On-screen tuning scope. Screen print and screen saver. Multi-channel ARQ surveillance function. Signal spectrum display. User settable signal filters. Multiple scroll inhibit and Unshift on Space. Built-in self test functions. Display has on-screen tuning bars and real-time clock.

Extras Required: VGA colour monitor (640x860 resolution or better)
Graphics compatible parallel printer (for FAX)

Supplier: (US) Universal Radio, 6830 Americana Parkway, Reynoldsburg, Ohio, OH 43068, USA Tel: 614 866 4267

Here is the site with the information on the decoder.

http://www.scancat.com/wun-dcdr.html

Contact Jim Crate @ 713-246-6947 He is Asking $800 .

(2) Motorola MRF153, 300 watt, 1-150 mHz RF power MOSFETs.

Typical specs:

Power OUT: 300 watts
Power in: 6 watts
Gain at 30 mHz: 17 dB
Vdd: 50 volts

New/unused in original packaging. Great for HF to VHF. The pair will work great in a 600 watt output solid-state broadband or single band linear oe class-C amp, 160M - 2M!

$100 for both including postage.

New Motorola MRF150 Power Fets.

150 watts OUTPUT from 1 to 150 mHz.

Typical performance:

Vdd: 50 volts
Pout: 150 watts
Pin typical: 2.9 watts
Gain: 17 dB
IMD d3: -32dB
IMD d11: -60dB

Design / application data available.

See Granberg's article in December 1982 QST for application info on
building 300W - 1kW solid-state broadband amp using these FETs.

 $40 each or 4 for $150 postage paid.

General Electric 25uF, 4000 VDC oil filled filter capacitors. I have
three available. They work great! I bought four, and I'm using one
in the PS to my 8877 amp.

$30 each

i have a pair of down east microwave 903mhz 'loopers'
for sale....only been used in a few hilltop vhf contest set-ups
back 1988-1990...in storage (indoors) since.
want to sell them as pickup only, i am located in
Croswell, Michigan....about 20miles from Port Huron, MI

also included is down east microwave 903mhz power
divider...the loopers are the model 3333LY 12' boom
18.5dBi gain each 33 elements each. the lot originally
cost about $250.....all yours now for $ 75. OBO

Has anyone had any experience with the Federal Signal Corp Emergency Alert Receiver (EAR). It looks to me like it will work as a weather alert receiver for the new S.A.M.E. Format or as a fire alert receiver with to tone sequential. I found it at http://www.fsws.com/ear.htm Jim AA0FJ

Hi James,

In my county we are selling them to the public. They have been configured with the tones in such a way that they are only activated if WE set them off. That way we can assure people that they will be heard only when a real emergency is happening locally. The local radio station which is contracted to perform EA broadcasts also sells a receiver, but that gets activated by them for six or seven different counties in the area.

The ones we sell get tested twice a month, once with the test for the school and hospital emergency receivers, and once with the outdoor siren test. Other than that they are only activated during an emergency in the county that would affect many people. And not just weather...

This also gives the public a radio they can use to find out about what is happening, rather than searching through local broadcast media stations who may or may not know yet what is going on...

I am told that they CAN be configured as a general EA receiver and will work anywhere in the country in that configuration. Having seen no advertising I would bet they use the SAME technology since they are relatively new. But that's just a guess. Hope this helps.

<schnoor@wavetech.net> wrote:

> Who did you buy them from?

Directly from Federal Signal.

> How much do they cost?

Something close to list price, we do not get much of a price break
only making 5-7 dollars on the sale. We were told that even if we
order 40 at once (we might need to soon) we won't get a better
price. It's something like $140, but don't quote me too closely.

> How much do you sell them to the public for?

As I said, about $5-7 more than we buy them for. That may change
soon so we can cover shipping, etc. but we don't see it as a big
money-maker.

> Did you give any
> consideration to the one by either L-Tronics or Reach?

Not sure as the sales started before I did...I just joined this
group in January.

> How do you like them? Are they programmable by a PC or some
> other means?

As far as I know they are programed at the factory. Since I have not
actually seen one yet I don't know how easy that programming is to
alter. I'm told they work extremely well. I know of one large
University (hint, hint: see email address) that is buying them as
quickly as we can get them, about 5-10 a month, and may want to place
a large order soon.

Hope this helps...

I'm looking for an inexpensive Argonaut (505, 509 or 515). The condition
is not important.

If you are interested in a trade, I've got several items you might want to
consider, a Drake T-4XC, AC-4, spare finals, manuals, Electrovoice 644
mic, Drake SC-2 converter, manual, Heathkit HR-1680 receiver with speaker
and manual, and a bunch of other stuff.

Send me a note if you have one sitting on the shelf you'd like to get rid of.

73,

Rob, KL7NA/W7

From: dalessio@manatee.cig.mot.com (Mario D'Alessio)
Subject: WANTED: Car adapter for Motorola HT600 Radio
Date: 1998/06/10
Message-ID: <dalessio.897502449@manatee>#1/1
X-Deja-AN: 361444057
Distribution: usa
Summary: WANTED: Car adapter for Motorola HT600 Radio
Organization: Motorola Cellular Infrastructure Group
Keywords: WANTED: Car adapter for Motorola HT600 Radio
Newsgroups: rec.ham-radio.swap,chi.wanted,chi.forsale,local.soc

I'm looking for a car cigarette power adapter for
a Motorola Ht-600 walkie talkie. I currently have one,
but I have been unable to find another, even at ham fests.
Does anyone have one for sale, or can tell me where
I could get one?

The unit looks just like one of the batteries, but with
a cigarette power cord coming out of it.

Thanks.

Mario

Anyone have any experance with the Ten Tec SP325?
I would appreciate your input as to how good they are.

For Sale: HTX 100 10meter ssb and cw.

Radio is practically new and no scratches, in mint condition. Includes microphone and mobile bracket and microphone hang up clip plus power cord. I do not have the original box and the manual was lost in a fire.

Asking $175.00 or best offer plus shipping.
If interested contact via email at n0eoq@6mt.com

Thank you George n0eoq

I am looking for a Radio Shack HX-100 10 Meter radio or
other 10 Meter mobile radio.
Will consider radio with bad finals/no output if the receiver is working
good.
I am setting up a mobile RS-12 station and need the radio for downlink.
Send info/price to email address below.
Thanks!

Well, near new... it was up literally about 1 hour before my backyard
neighbor demanded that I take it down as it didn't conform to our CC&Rs.
My loss, your gain.

Best offer, it's packed up and in it's original packaging material.
Write me directly at jerryb@cts.com as I seldom make it to these
newsgroups.

I thought that the U.S. was a free country! In Quebec, we don't have that
kind of problem. If your neighbour doesn't like your antenna, he only has to
look elsewhere. You could fix some bird houses to the antenna and say it is
a support of some kind. Good luck.

Hi Jerry OM,
  Sorry to hear your plight with the Conformist Nazis. I now regularly

see real estate flyers with "NO CC&R's" prominently posted on the sheet,
as an added plus for the buyer. Maybe, slowly, things are a-changin',
as more people become disgusted with signing over their property rights
to their neighbors for zero cost.   Never did like Communism...

73 and GL on the new QTH!

  Don, W6JL

I have a Yaesu VX-1R complete with original box, antenna, manual, and
charger. I also have 'The Clip', a Comet SMA-501 and a Comet SMA-503
antenna for this radio. This unit has the Freeband Mod and receives
everything. This radio is less than a year old and is in very good
condition. I haven't had any problems with it, but I live in an area where
I need more Watts to work the local repeaters.

I would like to swap/trade for a Kenwood TH-79A(D) in equal condition.
Please reply via EMAIL ONLY to randyz@telusplanet.net.

I am looking for a small, no frills 2 meter antenna tuner.
Need 25watt capability. Prefer set screw tuning control vs large knobs but
will consider either.

Howdy.

I have a Yaesu FT-50R for sale or trade for a handheld scanner. The Yaesu is about 1 year old, rarely used, and totally mint. It has the optional keypad and has continuous coverage (no gaps).

I'd like to trade for a Yupi, Icom R10, Sony IC1, or AR8000 handheld. We can trade + or - cash for inequalities on value. Mint scanners only please....

I'm in the San Francisco/San Jose area...please email if interested.

Cheers,

Tom

Check out the NWSS web site. I don't remember who it was, but one of the listings was for one of the MFJ-259's that cover 1.8 to 200MHz.

Hope it helps,

Ron, N7TAW

Hi Everyone,

I am starting a collection of ALL SONY World Band "Shortwave" Radios ever made, old & new.

I have about a dozen so far and I need everyone's help to find these original radios in "mint" condition with original accessories and box for collecting.

My question is: Is there anyone out there started such a thing? (...or maybe I am nuts??!!) Where to start looking for older model SONY Shortwave World Band

radios? Is there a Radio LIST of all the SONY "CRF","ICF SW" & "SW" models on the net somewhere?

If you have ANY SONY World Band Radio in mint shape, please email me with your model number and best price for a "CRAZY" collector!! :=)

Thanks in advance and any response will be appreciated!

E. Zaydan

Time to clear out some more space in the basement.

I have a large 60 drawer cabinet filled with IC.s A little over 800 chips in total. About 700 74xx series chips. Ranging from 7400 to 74521's Various subtypes, some L,LS, XLS. Most are new/unused chips. Some are socket pulls. NO soldered pulls. Also have about 150 27xxx Eproms. 2716 through 271000. Most are socket pulls with a few new, no soldered pulls.

Looks to sell outright or consider trades. I am looking for the following items. Make an offer to buy or to sell..

VHF Marine Handheld
GPS (handheld or mounted).
VHF/CB marine atenna.
FRS radios.
GMRS radios.
Commerical UHF radio's (front panel programmable). ICOM U-16 or similar
Commerical UHF radio's with software to program it...
Dual Band ham VHF/UHF with detachable faceplate
HF radio
Mobile HF radio
Mobile antenna tuner with meter.
QRP antenna tunrer with meter.
Yeasu ft77,707 or similar radio
Manpack HF radio's ft70, prc-xx
Other military radio's
Mobile HF antenna system
SWL radio (portable)
SWL radio
15" or larger SVGA color monitors
solar panels

interesting computer or radio items.
Camping equipment (good frame backpack, sleeping bags,etc)

HELP : I need an original Operation, Servicing and Tube Conditions manuals
for the following Hickok cardmatic tube testers.
123A and
AN/USM-118A or B (Military versions)

I also need Hickok Cardmatic factory punched cards for the following tubes
: 6CA7,
(6KX8 (ECC808)), 6BQ5, EMM801, 7199, 8417, ELL80, 12AT7 I could use two
each
if you have them.

Do you have any nuvistor adapters for the 123A and AN/USM-118A/B.

1947 wall-size (28 x 36 inches) map of United States, showing ham radio call areas, also has symbols indicating Primary Monitoring Stations and Secondary Monitoring Stations, bottom portion has photo of New Home of World Radio Laboratories, and photo of Leo I. Meyerson, W0GFQ, apparently proprietor of WRL. Map is titled "Radio Reference Map of The United States". Has been folded to 7 x 9 inches, but creases are not bad, not bordering on tearing, as sometimes happens. Has thumbtack holes in corners, but no rips or tears, overall in good condition. $20 postpaid in U.S.

Attention Fellow Computer Enthusiast:

***** C O M P U T E R S O F T W A R E F R A U D A L E R T *****

%%%%%%%%%% C O R E L S O F T W A R E E X P O S E D %%%%%%%%%%

HERE'S A TIP TO HELP YOU AVOID SOME FUTURE GRIEF (AND SAVE SOME OF YOUR HARD EARNED MONEY)

PC World Magazine, in their February issue made reference to a particular software title as

'THE SOFTWARE FROM HELL'.

I've never used the product they were referring to, so I can't comment about it.

Nevertheless, if PC World had been talking about software from

COREL CORPORATION (Word Perfect, etc), it would have been MOST APPROPRIATE.

COREL SOFTWARE PRODUCTS, IN ALL THEIR FORMS, TRULY DESERVE THE TITLE

****** S O F T W A R E F R O M H E L L ******

because they are buggy (and dysfunctional) beyond belief. Corel products make Microsoft look like the knight in shinning armor, even including Windoze 95.

YOU CAN'T READ INFO LIKE THIS IN THE COMPUTER MAGAZINES BECAUSE COREL SPENDS FAR TOO MUCH MONEY VIA ADVERTISING REVENUE WITH ALL THE COMPUTER PUBLICATIONS, AND THEY DON'T DARE EXPOSE ONE OF THEIR BIGGEST ADVERTISERS, FOR REASONS WHICH SHOULD BE OBVIOUS. THEREFORE, WE CAN ONLY HOPE TO PASS THE WORD VIA NEWS GROUPS AND SIMILAR OUTLETS.

Corel Corporation, a Canadian firm, based in Ottawa, Ontario, has zero regard and zero respect for their customers, and is probably the best example of why Ziff Davis (publishers of dozens of computer magazines, both on the PC and Mac platforms), are now calling for a mandatory (and legally binding) 30, 60 or 90 day software money back guarantee.

Using data from Corel's own website, the following is more than sufficient proof to demonstrate the dysfunctional character of Corel's Word Perfect product:

THE FOLLOWING BUG LIST IS TAKEN FROM COREL'S WORLD WIDE WEBSITE:
==========

ftp://ftp.corel.com/pub/WordPerfect/wpmac/-WPMac ftp Index.html

(scroll way down, almost to the bottom)

What follows is the list of bug fixes initiated by Corel in an attempt to repair their cockroach infested product known as Word Perfect, version 3.5, which can easily be construed as a clear admission of bugs which existed with version 3.5 as shipped to customers on CD ROM. What makes this issue all the more criminal is the fact that Corel refused to inform customers who sent in their warranty registration cards that bug fixes had been released for this product. Corel Corporation refused to send warranty/registered customers the patches on floppy disk, and if this was too expensive, Corel Corporation even refused to send registered customers a postcard informing their customers where they could find the patches on the Internet. Customers were simply left to struggle with a totally

dysfunctional product. And customers like myself who finally figured out Corel Word Perfect could NOT be made to function properly, and who first requested assistance, were ignored, and who later requested a refund, were also ignored.

TO THIS DAY, 17 MONTHS AFTER THE PURCHASE OF THE DYSFUNCTION AND COCKROACH INFESTED COREL WORD PERFECT PROGRAM, THIS COMPANY CONTINUES TO IGNORE ALL INTERNET E-MAIL MESSGES AND ALL UNITED STATES AND CANADIAN POSTAL SERVICES LETTERS.

==========

Corel Document ID: 10339

The information in this document applies to:
WordPerfect 3.5 for Macintosh

This Updater works with all versions of Corel WordPerfect 3.5. Including: Novell WordPerfect 3.5, Corel WordPerfect 3.5.1, Corel WordPerfect 3.5.2 and Corel WordPerfect in the CorelDraw Suite.

The Corel WordPerfect 3.5.3 patch replaces all previous patches for WordPerfect 3.5, including the Corel WordPerfect 3.5.2 patch shipped in October of 1996.

Fixes in 3.5.3 patch
==========

- Conversions should now function normally under System 7.6.
- A bug was fixed that repairs some display problems.
- Sporadic warnings that the common library could not be found will no longer occur.

Fixes in 3.5.2 patch
==========

- Text Selection now works properly.

- The Print Envelope feature will print addresses in the correct position on the LaserWriter 8.4 printer driver.

- Deleting to the right at the beginning of a line will no longer cause the cursor to reposition incorrectly in the text above.

- Deleting just before a Style no longer causes the cursor to reposition incorrectly and delete text within the Style.

- Editing a document in "Show Codes" no longer causes the cursor to reposition incorrectly.

- Headers/Footers with text attributes (bold, underline...) are no longer affected by text attributes that cross a page break.

- Deleting addresses in the Print Envelope delivery or return address window now functions properly.

- The German Dictionary no longer stops and marks incorrect every word that contains a ß (esset).

- The French Dictionary on a Power Macintosh no longer stops and marks incorrect words that contain a é (acute).

- Delivery Point of a bar code is no longer automatically calculated.

- Import of tables from various document types has been improved.

- The title of the "WP6.x Export" now reads "WP6.x,7.x Export" in both the patched and resale CD product from Corel.

- HTML export now saves Corel WordPerfect graphics or .wpg formatted images as JPEG's.

Fixes in 3.5.1 patch
==========

- Editing some long blocks of Japanese characters will not crash the computer.

- Screen display is faster after scrolling through large documents or tables, or making editing changes.

- Captions can now be positioned above a graphic or text box.

- Return and delivery addresses in Print Envelope will now allow 255 characters (including line breaks).

- Dictionaries are now listed under the Dictionary menu instead of the Check menu.

- Ruler Bar display problems with PCI Power Macintosh computers have been fixed.

- WP 6.x and WP 7.x conversions can now be canceled.

- While working in subdocuments such as headers or footnotes on black and white screens, Corel WordPerfect does not quit unexpectedly when clicking in the ruler area of the subdocument.

- Zip codes beginning with zero which did not have extended zip code digits now function properly in the Print Envelope feature.

- Font menus in Preferences and Print Envelopes now work properly on small monitors.

- Cleared tabs will no longer unexpectedly reappear on the ruler.

- Hyperlink copy and paste are now working.

- Cell Protection now disables the deletion of the contents of a cell.

- The bottom border of a table which crosses a page break is now visible.

- Patterns in a cell will no longer disappear when performing a Split or Join.

- Joining with the first cell of a table now functions properly.

- Row selection of tables in a text box is now available.

- Scroll bar does not stick when scrolling.

- Corel WordPerfect will use the Language Resource file designed for your system if present, or default to English (USA).

- Page Setup is now enabled in the Print Envelope feature (this allows the selection of paper sizes and envelope trays).

- Changing QuickCorrect preferences with no documents open will no longer crash the computer.

- Tables and Page Borders now work together.

- The PowerTalk Mailer can exceed 4096 characters.

- In the new Corel WordPerfect 3.5 CD-ROM, Norton Utilities will no longer report an error in the WordPerfect Installer Read Me. This fix is not available in the patch, but if you use Norton Utilities, we suggest you delete the WordPerfect Installer Read Me since it is not required for proper operation of the software.

- Corel WordPerfect Dictionaries and QuickCorrect word lists will no longer be replaced during installation.

==========

Postscript:

The above represents the bug list for Word Perfect 3.5, as I purchased this product, these revelations coming directly from Corel's website. Considering all these problems, it is little wonder that Ziff Davis Publishers are now suggesting we have a SOFTWARE LEMON LAW to protect

computer consumers from future issues of this sort of software larceny.

If the reader will examine the websites of PC Week, PC World, and a few other leading PC-platform computer magazines, he will discover that Corel's Word Perfect, Suite 8 (the latest offering from Corel) is likewise full of bugs. Don't take my word for it--- check it out for yourself.

MORAL OF STORY::::

SAVE YOUR MONEY--- DO NOT BUY ANYTHING WITH ���COREL��� ON THE LABEL, WHETHER IT BE FOR IBM COMPATIBLES OR THE MACINTOSH !!!

Hi Folks
I am selling my FT707. It covers 8 HF bands from 80m to 10m including WARC bands at 100 watts. Its in very good condition and in perfect working order. It has recently been serviced by a reputable radio workshop. It has a fused power lead but unfortunately has no microphone included. I'm looking for 250 GB pounds (approx 400 US dollars). No offers please, but I will consider a part exchange/swap if you have anything of interest.
All the best.
Jack

I have two broadband RF amps for sale. They have no name on the front
but are the same as the "shooting star 225" or "White Tornado" or
"Boomer" amps that I have seen in the past. (150 watts pep+, auto

sideband delay, preamp) They are brand new. Use a pair of SD1446
transistors $110 each

Thanks,
Charlie....

What a silly rant, buttressed by the PC (politically correct) Ziff-Davis marketing machine.

If you are going to use a Mac, why not make asute choices regarding what applications function well on it? Many do the WP job emminently on a Mac.

I've been using WPWIN 6.0 & 6.1 for a long time in pers & biz, done all manner of DTP with it, selling several millions in R/E with its ease of producing excellent flyers & brochures beyond the far more costly R/E software. It is a powerhouse product that has more OPERABLE features than anyone can learn in four years (or needs). Support has always been shitty - and it is everywhere unless it's at $24.99 per call - and Micro$loth is surely no better; even their website knowledge base is inferior to their old BBS.

The only beef I've had with WP it it's gargantuan size and resource-hogging - but look at MS Word, a big dog if there ever was one, woth far less to offer (I run it as well - as little as possible).

You'd think someone into the hands-on & tech know-how to mess with BA's would be away from the dumbed-down Mac & Windoze OS's, and into unix, with which you actually control your own box (and have to know something).

Boy, this submitter REALLY helped me fix boatanchors, yes?

I have a SW8 I purchased early this year, and would like to trade it for a used desktop.
NRD 515, NRD 525, R8 or a R71A I have seen most of these sell for 475 to 525 and that is about what I see the newer SW8's go for.
Prefer Local but Can Ship via UPS with no problem.

Got a 10 meter radio that needs a little boost? I have two broadband RF amps for sale. They have no name on the front but are the same as the "shooting star 225" or "White Tornado" or "Boomer" amps that I have seen in the past. (150 watts pep+, auto sideband delay, preamp) They are brand new. Use a pair of SD1446 transistors $110 each

Thanks,

Charlie.

.radio.amateur

this turn is mine,

i thank the gates of earth, for the fine and coherent work done by MICROSOFT Corporation, its employees, and subsidiaries.

i prefer to have one big monopolistic behemoth of a company dishing out the usual stuff, cause then we know who to complain to.

every time someone, some government, some other whining competitor, some greedy lawyer or anybody tries to screw up a well run company like MICROSOFT, just remember that in 90 percent of the cases, we the consumer have paid MORE after they did it and got LESS in return.

Corel, well, thats just another company that just "aint got it all together!"

they will eventually fail and disappear, hopefully, unless some whining buerocrat with stock or a PAC donation in his pocket tries to "save" the consumers interests !!! ha ah ha!

now i feel better. bye!

For one thing...we have no clue who the hell you are since you are
posting from a hotmail address. So please feel free to feel ignored!
I hope someone with more money and more time finds you and sues your
sorry existence. Or even better pays you a visit with Vinnie and Tony.

So in the meantime...take notice that most software companies web
sites list known bugs BECAUSE THEY RESPECT THEIR CUSTOMERS and they
want to keep the support lines open.
All alive humans breathe, and all software has bugs. Period.

You are out of order posting a mental barf like this.

Maybe you are frustrated. maybe you are mental. maybe you are a barf
and nothing else.

Go away and don't waste my time.

Say Hi to Vinnie. (if you see him coming)

D

Shoot, my 2 pill (1446's) Blackstone pumps about 250 watts. And it was only

$100. No pre-amp though, that costs and extra $50.

Geezz...

Looking for 3 or 4 clean Motorola speaker mics for a GP300 or SP10.
I can get new ones for about $50 ea., but would prefer to buy used if the
price is right. If you have something available, please let me know price
and condition.

    Thanks,

    Phil Barber

I have one extra now of the above unit. Last week I had none.
I advertised for one and I grabbed two of the most promising ones
offered. I have no use for two, sometimes I get carried away.
 Anyhow Here's the details on this one:
Model#19-1120. Shows some signs of use (not any of abuse). In good
physical and great operating condition.

From the mnual: True FM Modulation;16 Memories; Individual repeater
offset; CTCSS;Touchtone Page; 16 Didgit DTMF Output;Dual Power
Transmit;Programmable power saver;5 DTMF dequences; Multifunctioning
scanning; Programmable frequency steps; Can be powered by Nicad pack
(included); "AA" battery pack Included, but no batts);or for car
operation, they make an optional cigarette lighter plugin adaptor.
Comes with manual, nicad pack & charger; "AA" pack, rubber duckie
antenna; belt clip. I am asking $135 firm and I pay the freight UPS
ground anywhere in the continenbtal USA. Pyment in the form of a money
order or chck only please.

Trades.....If you have something in mind in the hobby of either
hanm or scanning or shortwave, a trade may be possible.

If interested, please write to me.

Randy, does that radio have an upward facing speaker and can you lock the front panel controls so no one (kids) can mess with it? If so,

please let me know. I'm looking for a base 2 meter mobile rig with
those features so I can leave the rig on but lock everything so my kids
cant mess with the rig when its on. Upward facing speaker is so the
sound doesnt go into the power supply instead of in the air.
   If now, would you know of a radio with these features?

                  Ralph

I'm looking for a VHF only rig with an upward facing speaker and a
front panel lock that can lock all controls while still leaving the
radio functional. I need one like this so I can use it as a base rig and
leave it turned on all the time so kids cant play with the knobs and
controls. If anyone knows of a new rig like this for sale, please let me
know of the model number and type. I have a Yaesu FT-2500 with a locking
front panel but it has a downward facing speaker. The upward facing
speaker is prefered for better audio while sitting on a power supply. I
am limited in space so I really dont have room for an external speaker.

Thanks,

Ralph / AA6WW

Randy, this radio is a handheld (aka HT). It sounds like you want a base station.

Hello,

Thanks for responding to our Press Release. We our excited to
announce the all new 1998 line of Ham Radio Repeater Directories. They
can be found at...

http://www.rotd.com/worldxn/

These exciting directories are great for Amateurs on the
move, or those who would like to take advantage of the many Repeaters in

their Area. We encourage you to visit our site and would appreciate any feedback you offer.

What a great story!

Did you get any $$ from anyone who owed for copies of R-1000 manuals??

If so,email me their $$. :) :)

10 Kw military surplus generator. 220/110 vac. 4-cyl gas engine.
Totally Self-contained. Engine runs like a clock! Gen set regulation
needs heavy load to flash the field coils but runs well otherwise. Could
probably use a cleaning of the relay contacts.

Set is on an 'un-sprung' two wheel trailer which is ok for short distance
towing... would recommend it for a long trip...

Price $750 obo. Will trade for small hf mobile.

Please e-mail responses

I have one of the early TH-79A's which has been modified for extended Tx/Rx, and which covers up to 512Mhz on UHF. These are fairly rare, as the Microprocessor was changed in subsequent production runs, to only allow UHF operation up to 470Mhz. This is a problem for those having public service activities above 470Mhz, where they are forced to listen to an image.
My TH-79A will cover this range , both Rx and Tx, directly.
It comes with all standard accessories, manual, boxes, and includes the KSC-14 dual compartment, drop-in charger. I am also including 3 battery packs. They are all 6V, 2.5W packs, with capacities of 600, 900, and 1200 mahr. The 900 mahr pack is a new NiMH pack, and the other 2 are NiCD with new inserts.
The radio and all accessories are in excellent condition, both cosmetically, and operationally. and I will ship all for $315, ConUS.
If interested, please reply by direct email.

Hi
Will this ht do digital pl? I think they are nifty radios, butni would need
it to do dpl so I could use it forthe fire department.
Thanks,
Bill

CD Quality Cable Stereo Receiver
- and -
50-150mHz RF Communications Electronics Bonanza

StudioLine COMPANDING FM RECEIVERS (See Photo) with
up to 90db audio s/n ratio for Cable
(and other RF Distributed) consumer and professional Audio.

Complete specs functional descriptions of electronic modules
and many images of handsome enclosure and circuit boards
is on display at:

http://www.lasermotion.com/DEALS.html

WHAT THEY ARE: Three RF receivers in one box with "F" connector input,
and RCA phono outputs for two channels of audio.
Two receivers are FM audio channels, can be tuned (VCO Circuit) 50-150mHz
and the third receiver (at 50.675MHz with 10.7MHz IF) is dedicated to
optional control and programming functions.
The audio section includes the 3:1 "expander" section of a companding system.

(Original (OEM) Large Quantity Manufacturing Cost in Japan = $321 /each)

THE STORY: StudioLine technology for economically distributing truly
studio-quality audio programming over existing Cable & Wireless broadcast
systems was originally developed by FM Systems, Inc.., Santa Ana, CA. with
funding provided by The Chronicle broadcasting company in San Francisco,
CA. We acquired the equipment and rights. Pricing is very affordable.
Head End transmitters are available inexpensively from
FM Systems, Inc., Santa Ana, CA.

The units are unused and in original manufacturer's packing.
Schematics and technical info is included.

Shipping weight: 7.5 lbs.
You pay UPS ground shipping. We pack it for you.
Thanks

em at lasermotion dotcom

Hi All
I'm selling my FT707. For those not familiar, its an HF rig, 80m throught to 10m including WARC bands. Digi freq readout and led sig meter. It precedes the FT77 and was a better radio in my opinion. Smaller too.
Its in good nick, recently been serviced at a reputable radio workshop. So its bang on tune.
Unfortunatly theres no mic with it though. But the origonal was not fancy, just a straight 600ohm, no up/dpwn buttons or anything. I'm looking for as near 275 pounds as possable. Might take a trade or swap if you've got something interesting.
cheers and 73s.
Jack MM0AXL ,located southern scotland.

I have the following Visar accesories available for sale:

Dual drop-in charger model 7510A. Very clean, works well.
$65.
Speaker mic. Hard to tell from new unit.
$60.
Several slim and high capacity NiMH batteries. Will test.
$50 ea.

All prices include ground shipping CONUS; either check in advance or COD at cost ($4.75) is fine.

I'm looking for one, maybe two VHF MT500s on 154.57 and/or 154.60. I'll consider either radios already on frequency, or ones near frequency, if I can also find the channel elements at a reasonable price. Let me know what you have available.

Regards,

Phil Barber

Newsgroups: rec.ham-radio.swap,rec.radio.swap

I've got a Yaesu FLDX2000 linear that I got with a bunch of other equipment in the late 1970's. I'm not a ham, so it's been sitting ever since. Physically it is complete and clean, but I have never even plugged it in. I was assured it was working when I got it, but I don't have an exciter(or a license!) to test it myself. I have opened it up, and all components are clean and undamaged. There are no signs of arcing, electrolytic leakage or other visible problems. $325 shipped, $300 picked up in southern NH, or will trade for UHF Maratrac equipment.

Thanks,

Phil Barber

This power supply is the 12V version of the AN/GRC-? which is a radio set from the 1950's which was used by the military. There was also a 24 version of this power supply. There were two versions of the transceiver using this supply, one covering from 27-38.9MHz and the other from about 38 to 54MHz.   My particular experience with is was in the mid 50's while an ET in the US Navy. We used this radio in the LCVP landing craft. I understand that the army also used in in tank and other vehicle applications.
I used to repair them. They did have an internal schematic which was printed on silk as I recall.

Today I opened a package that my father had wrapped when I was a child. The paper crumbled in my hands as I removed the twine around it. The power cord and plug looked like the rubber had melted away with age. I did not plug it in to see if it was working. The radio has three knobs in front, one is the on-off-volume , the second is the band control and the last is for tunning. The tunning dial is divided into two sections, Foreign and American. The wood case is in very good condition even with a water mark left by a glass on top. Is this model considered rare or collectable?

R.W.Schlachter.

SIX CLUB'S FIRST SPRINT
MAY 16th and 17th 1998
IN CONJUNCTION WITH ARRL 50MHZ SPRINT

The Six Club Sprint will be from 2300Z Saturday of the following week until 0300Z Sunday (May 16-17, 1998) .
THIS WILL BE THE FIRST AND ONLY SPRINT THAT WILL BE IN CONJUNCTION WITH ANY OTHER SPRINT.
SPRINT RULES
The Six Club rules are simple, score one point for all qso contacts and the grids are the multiplier. Explanation: If you have 10 qso's and 25 grids your score would be total grids times total qso's. Other words 25 times 10.
ROVERS ARE WELCOME TO JOIN IN ON THE FUN. ROVER RULES ARE THE SAME AS THE OLD STYLE ARRL.
HAVE FUN

For further information on forms and instructions to email your results please go to:

I am going to buy the new Yaesu rig so my Icom IC-820H is going up for
sale. I will have the rig at Dayton spaces 3364 and 3365 Friday and
Saturday only.

Asking only $800 for a quick sale.

Rig is in excellent condition. I do not have the box but have manual.

Hi.

I am in the market for an IFR 1500 service monitor, or suitable
substitute.
I'd like a sweeping/tracking generator integrated in a suitable
substitute,

(Non-sweeping units will be considered!)

and something AC switchable for 110/220V 50/60Hz

I have another pair of SP10 Motorola Hanheld units for sale. These are 1
watt Vhf single channel units dip switch programmable to any of the16
Vhf channels. They also have PL boards in them. They are in very good
condition with batteries and chargers. $135 for the pair. 828-466-0434
after 6pm (Newton, NC) Ask for Charlie. I prefer to ship US mail
C.O.D.

I also have several Spirit radios for sale, also some P10's.
please email me directly.

Thanks,

Charlie...

Well I bought a new Yaesu FT-847 at Dayton last weekend and now I've got to
raise some money in a hurry.

For sale: Icom IC-820H. Excellent condition, no mods have been made.
Have manual but not box.

Asking $800. Please make offers. I need to move fast!

Please reply to: lbarnett@claimsware.com

To Mr.John Andrews

Hello!
Thank you e-mail.

I am not interested in MAC PC. I'm sorry.
I have used PC-AT.

JRC-245 is very good condition.
So you have NRD-535D, I know it have$B!!(J good design,performer.
Noise level is better than NRD-535D.
Because it does not have display noise.

If you can get it, you will like it.
My JST-245 is mint condition.

Best regards,
73

Attention Fellow Computer Enthusiast:

***** C O M P U T E R S O F T W A R E F R A U D A L E R T *****

%%%%%%%%%% C O R E L S O F T W A R E E X P O S E D %%%%%%%%%%

HERE'S A TIP TO HELP YOU AVOID SOME FUTURE GRIEF (AND SAVE SOME OF YOUR
HARD EARNED MONEY)

PC World Magazine, in their February issue made reference to a particular
software title as

'THE SOFTWARE FROM HELL'.

I've never used the product they were referring to, so I can't comment about it.

Nevertheless, if PC World had been talking about software from

COREL CORPORATION (Word Perfect, etc), it would have been MOST APPROPRIATE.

COREL SOFTWARE PRODUCTS, IN ALL THEIR FORMS, TRULY DESERVE THE TITLE

****** S O F T W A R E F R O M H E L L ******

because they are buggy (and dysfunctional) beyond belief. Corel products
make Microsoft look like the knight in shinning armor, even including
Windoze 95.

YOU CAN'T READ INFO LIKE THIS IN THE COMPUTER MAGAZINES BECAUSE COREL
SPENDS FAR TOO MUCH MONEY VIA ADVERTISING REVENUE WITH ALL THE COMPUTER
PUBLICATIONS, AND THEY DON'T DARE EXPOSE ONE OF THEIR BIGGEST ADVERTISERS,
FOR REASONS WHICH SHOULD BE OBVIOUS. THEREFORE, WE CAN ONLY HOPE TO PASS
THE WORD VIA NEWS GROUPS AND SIMILAR OUTLETS.

Corel Corporation, a Canadian firm, based in Ottawa, Ontario, has zero
regard and zero respect for their customers, and is probably the best
example of why Ziff Davis (publishers of dozens of computer magazines,
both on the PC and Mac platforms), are now calling for a mandatory (and
legally binding) 30, 60 or 90 day software money back guarantee.

Using data from Corel's own website, the following is more than sufficient
proof to demonstrate the dysfunctional character of Corel's Word Perfect
product:

THE FOLLOWING BUG LIST IS TAKEN FROM COREL'S WORLD WIDE WEBSITE:
==========

ftp://ftp.corel.com/pub/WordPerfect/wpmac/-WPMac ftp Index.html

(scroll way down, almost to the bottom)

What follows is the list of bug fixes initiated by Corel in an attempt to repair their cockroach infested product known as Word Perfect, version 3.5, which can easily be construed as a clear admission of bugs which existed with version 3.5 as shipped to customers on CD ROM. What makes this issue all the more criminal is the fact that Corel refused to inform customers who sent in their warranty registration cards that bug fixes had been released for this product. Corel Corporation refused to send warranty/registered customers the patches on floppy disk, and if this was too expensive, Corel Corporation even refused to send registered customers a postcard informing their customers where they could find the patches on the Internet. Customers were simply left to struggle with a totally dysfunctional product. And customers like myself who finally figured out Corel Word Perfect could NOT be made to function properly, and who first requested assistance, were ignored, and who later requested a refund, were also ignored.

TO THIS DAY, 17 MONTHS AFTER THE PURCHASE OF THE DYSFUNCTION AND COCKROACH INFESTED COREL WORD PERFECT PROGRAM, THIS COMPANY CONTINUES TO IGNORE ALL INTERNET E-MAIL MESSGES AND ALL UNITED STATES AND CANADIAN POSTAL SERVICES LETTERS.

==========

Corel Document ID: 10339

The information in this document applies to:
WordPerfect 3.5 for Macintosh

This Updater works with all versions of Corel WordPerfect 3.5. Including: Novell WordPerfect 3.5, Corel WordPerfect 3.5.1, Corel WordPerfect 3.5.2 and Corel WordPerfect in the CorelDraw Suite.

The Corel WordPerfect 3.5.3 patch replaces all previous patches for WordPerfect 3.5, including the Corel WordPerfect 3.5.2 patch shipped in October of 1996.

Fixes in 3.5.3 patch
==========

- Conversions should now function normally under System 7.6.
- A bug was fixed that repairs some display problems.
- Sporadic warnings that the common library could not be found will no longer occur.

Fixes in 3.5.2 patch
====================

- Text Selection now works properly.

- The Print Envelope feature will print addresses in the correct position on the LaserWriter 8.4 printer driver.

- Deleting to the right at the beginning of a line will no longer cause the cursor to reposition incorrectly in the text above.

- Deleting just before a Style no longer causes the cursor to reposition incorrectly and delete text within the Style.

- Editing a document in "Show Codes" no longer causes the cursor to reposition incorrectly.

- Headers/Footers with text attributes (bold, underline...) are no longer affected by text attributes that cross a page break.

- Deleting addresses in the Print Envelope delivery or return address window now functions properly.

- The German Dictionary no longer stops and marks incorrect every word that contains a ß (esset).

- The French Dictionary on a Power Macintosh no longer stops and marks incorrect words that contain a é (acute).

- Delivery Point of a bar code is no longer automatically calculated.

- Import of tables from various document types has been improved.

- The title of the "WP6.x Export" now reads "WP6.x,7.x Export" in both the patched and resale CD product from Corel.

- HTML export now saves Corel WordPerfect graphics or .wpg formatted images as JPEG's.

Fixes in 3.5.1 patch
====================

- Editing some long blocks of Japanese characters will not crash the computer.

- Screen display is faster after scrolling through large documents or tables, or making editing changes.

- Captions can now be positioned above a graphic or text box.

- Return and delivery addresses in Print Envelope will now allow 255 characters (including line breaks).

- Dictionaries are now listed under the Dictionary menu instead of the Check menu.

- Ruler Bar display problems with PCI Power Macintosh computers have been fixed.

- WP 6.x and WP 7.x conversions can now be canceled.

- While working in subdocuments such as headers or footnotes on black and white screens, Corel WordPerfect does not quit unexpectedly when clicking in the ruler area of the subdocument.

- Zip codes beginning with zero which did not have extended zip code digits now function properly in the Print Envelope feature.

- Font menus in Preferences and Print Envelopes now work properly on small monitors.

- Cleared tabs will no longer unexpectedly reappear on the ruler.

- Hyperlink copy and paste are now working.

- Cell Protection now disables the deletion of the contents of a cell.

- The bottom border of a table which crosses a page break is now visible.

- Patterns in a cell will no longer disappear when performing a Split or Join.

- Joining with the first cell of a table now functions properly.

- Row selection of tables in a text box is now available.

- Scroll bar does not stick when scrolling.

- Corel WordPerfect will use the Language Resource file designed for your system if present, or default to English (USA).

- Page Setup is now enabled in the Print Envelope feature (this allows the selection of paper sizes and envelope trays).

- Changing QuickCorrect preferences with no documents open will no longer crash the computer.

- Tables and Page Borders now work together.

- The PowerTalk Mailer can exceed 4096 characters.

- In the new Corel WordPerfect 3.5 CD-ROM, Norton Utilities will no longer report an error in the WordPerfect Installer Read Me. This fix is not available in the patch, but if you use Norton Utilities, we suggest you delete the WordPerfect Installer Read Me since it is not required for proper operation of the software.

- Corel WordPerfect Dictionaries and QuickCorrect word lists will no longer be replaced during installation.

==========

Postscript:

The above represents the bug list for Word Perfect 3.5, as I purchased this product, these revelations coming directly from Corel's website. Considering all these problems, it is little wonder that Ziff Davis Publishers are now suggesting we have a SOFTWARE LEMON LAW to protect computer consumers from future issues of this sort of software larceny.

If the reader will examine the websites of PC Week, PC World, and a few other leading PC-platform computer magazines, he will discover that Corel's Word Perfect, Suite 8 (the latest offering from Corel) is likewise full of bugs. Don't take my word for it--- check it out for yourself.

MORAL OF STORY::::

SAVE YOUR MONEY--- DO NOT BUY ANYTHING WITH ���COREL��� ON THE LABEL, WHETHER IT BE FOR IBM COMPATIBLES OR THE MACINTOSH !!!

Not sure What this has to do with the subjects of any of the ng's that you posted it to but, as for me, I have been using Corel Word Perfect Suite 7 for 2 years now and am very satisfied.

Any Moron stupid enough to own a Mac , should get software that sucks , It your own stupidity to even go out and buy such a machine most software manufacturers are pulling away from Mac because they are a dying machine. get a life and buy a real computer !!!

Just a note about problems with IBM machines . Corel does work on them !!! there maybe bugs in it but I haven't found any yet and I use it every day ver 5 , 6, 7, and 8.0

Before you shout FRAUD THINK ABOUT SLANDER SUITS THAT CAN ARRISE AGAINST YOU !!!

radio.swap,rec.radio.amateur.equipment

Hi all,
   I have a 26' Wellcraft 260 AFTCABIN (sportcruiser, no antenna arch). I
just traded for a SEA 222 SSB radio and automatic antenna tuner. Now that I
have it and looked at it closely, I realize that I should have asked the
previous owner a bit more about an antenna setup. The radio has a SO239 50
ohm connector on it. The auto tuner has a SO239 input...now here comes the
part I want input on. The output is 2 insulated studs...one goes to ground
and the other goes to the ...longwire antenna or similar. My question is:
What if I want to connect a 50 ohm SSB vertical antenna with a SO239 on it.
do I just plug a PL 259 into the antenna and then split open the coax
running the center to one stud and the braid to the grounding stud (the
studs are about 12" apart on opposite ends of the box) or is there a better
way?
Thanks all
P.S. Hi Clint if you see this maybe you can help

STILL AVAILABLE!

Radio Shack HTX-202 2 Meter Amateur VHF*FM Transceiver
$150 obo

This is in the original box with everything that originally came with it:
antenna, charger, ni-cad batt. pack, alkaline batt. case, and manual

Bought brand new at the $199.99 price a few months ago. Only fiddled with
it a couple times to see how it operates. Have studied for most of the

test, but too busy with work to have much time to finish and get the
license.

This radio is extremely close to brand new. No physical blemishes
whatsoever. Please email if interested. May also consider trades for other
radios.

Is this some kind of joke? What do YOU think it means? (hint: this was
posted to an amateur radio newsgroup).

Not a joke!!!With a 1x1 call you would think he would know how to hook up
coax to a freakin' tuner....ever heard the word LID???

I have 8 GE MASTR Executive II Base Stations for sale. The combination
number is: F156LFS56A they are currently on 140.xxx Mhz The dial shows 8
channel positions. However, only 4 are accessable. I'm not sure what the
power output is but I was told it was 110 watts.
Units are in good condition. Photo E-Mailed on request. price is $ 50.00
each or best offer.
Thanks
Richard

Have 15 Motorola Mocom 70 VHF for sale. Model number is U43BBA1900A.
Units were on 140.xxx Mhz (sorry, channel elements have been removed)
and are 4 channel. Nice clean units, photo E-Mailed on request. Price is
$ 35.00 each with control head, cable, mike, and speaker. $ 25.00
without accessories. Buyer pays shipping costs.
Thanks
Richard

After upgrading, I find I have a number of Hewlett-Packard signal
generators available for sale:

1) HP-606B 50kHz - 65MHz range, manual included $60.00

This unit is in very good working order. Output attenuator
is fully functional, not burned out. Also included is

a second -606B (mostly complete, no tubes) for parts.

2) HP-608E 10MHz - 480MHz range, manual included $50.00

This unit is in good working order. The only real problem is in the modulation circuit. The modulation meter does not read correctly, and it tends to over modulate the signal.

3) HP-614A 800MHz - 2100MHz range, manual included $50.00

This unit is in very good working order, as far as I have been able to determine.

4) HP-651A 10 Hz - 10MHz range, manual included $50.00

This unit is in good working order. Although it does need to be calibrated.

The prices are all in US dollars, and shipping is extra (from 03052). (Figure something on the order of $40 - $50 each for shipping.) I am located in New Hampshire.

For Sale.....

Radio Shack HTX-212 2M FM Mobile.

Has a problem!!! No Transmit Power Output.

I can hear the "low level" transmit signal in my

scanner or my HT, so it is on frequency ok,

and modulation is ok, But no Power output on the

antenna jack at all. (selling as-is).

Receives fine, excellent sensitivity etc....I have the

DTMF microphone for it, original manual and box.

$75.00 plus $5. to ship it usa/48

Email-me   n8lmt@x2.alliance.net

        hi, i m looking for a motorola repeater for my repeater site.
i m only interested in late model gr300, gr500, or possibly a R100 uhf
repeater.  current frequency programmed for the repeater is 444.550R

Thanx

I have a ts-140S and for some reason the radio shuts down if the SWR reaches
a particular level. I have tested on various levels from 2.2 - 1.5 and it
seems to shut down somewhere around the 2.0 level. So here are my questions:

            o Does the radio have a Sweet spot of where it shuts down? I do

not have the issues
as much on voice unless you throw a real high pitch.
o Is there a way to increase the sweet spot so to speak?

Any ideas or information would be helpful. Just does not seem right that the radio would shut down with a SWR of 2.0, but I could be wrong.

THANKS 73's Tom - N1ZPC

What is a CRF-1? I have a CRF 5080 that I bought in 1975 and like very much. I have not been able to find any information about these older

radios on the web.

I've owned a IC-2000H for more than a year and have had no real intermod
problems. The only complaint is the internal speaker needs to be replaced. If you
turn the volume to a comfortabe listening level the speaker distorts and or
vibrates.

The radio , if aligned and operating properly, will shut down to 30 watts out at an SWR of 3-1 on 20m. That is the alignment criteria.

I have a Kenwood TS-140S that I recently acquired through trades with a friend. I am trying to sell it to buy a marine band MF/HF rig. The radio is in good shape. I have the original box and manual.

For those not familiar with the 140, it is a solid state radio 10M-160M amateur HF transceiver as well as general coverage receiver. Digital display, dual VFO. It operates on 12 Vdc.

The radio is currently set up 15 miles south of Boston, Ma with a parallel trap dipole. We could arrange a QSO to listen to the radio if you are interested.

c.radio.amateur.swap

You might note that COM2: and COM4: use the same IRQ -- that often
causes
problems with other communications software... I suggest removing the
MODEM
for a test, that is the only way to quickly tell if the rig, software
and
cable are OK.

I suspect the cable, rig and software are OK, just a bit touchy!

You will also want to upgrade the software, V1.03 has bugs download the
patch
from RT's site: http://www.rtsars.com

I just purchased the software and cable ... after some start up
problems, and
the bugs in the version 1.03, I finally have it up and running.

With original box and manual. For those unfamiliar with the radio, it is a solid state HF rig. It puts out 100 Watts. 10-160 Meters. Dimensions are aprox 11.5" W,   4" H, 12"D. It operates on 12Vdc. The radio is currently set up and running on a parallel dipole Just south of Boston, Ma. I am looking to get about $650 or best reasonable offer.

  I have a Alinco DJ-191TH with 5w battery (output is more like 6w), car lighter adapter, and MFJ dual band 2m/440MHz mag mount car antenna (this is the small one, looks like a large cell phone antenna, good gain over rubber duck).

  The car lighter adapter cable has a PC powersupply plug soldered into it so that it can be used to connect to a +12v powersupply.

  See http://alinco.com/Products/DJ-191T_TH.shtml for all the product information.

  make an offer via email to nexus@tatoosh.com or nexus@eskimo.com

  Brian

I have for sale a IC-706 and AT-180. Includes items below:

IC-706 MKI
AT-180 (auto tuner HF+6M)
FL-101 CW filter 250Hz
OPC-581 11.5' separation cable
Icom service manual (this is from icom)
All boxes and manuals

This radio was only mobile once for a road trip. Was used as a base by a non-smoker. I would like $1200.00 for everything. I will pay shipping lower 48 states. For another $150.00 I will include a Timewave DSP 59+ (latest software). Unless it is sold first. I can be reached by E-mail or my phone number is 216-741-4717.

LOOKING FOR THE LATEST HAM TEST

I'm looking for the latest HAM test for written Element 2
and written element 3A.

My friend wants to get his ham licence but the program I have
might be a little out dated. If someone could send a copy to me
I would appreciate it.

My email address is:

barretta@mci2000.com

Thanks

James

For sale:

Stancor ST-202A Transmitter (1947 era) Manuals FS
(repro) - $8.00 each

Hallicrafters Manuals

HT-46 (2) - $8.00 each
SX-146   - $8.00
Plus postage.

FYI - one each of the original HT-46 and SX-146 manuals have
been sold. I still have one more original HT-46 manual and a
couple of nice repros of each available.

Email me.

Well, I thought the GP68 was the european version of the ht1000.... maybe
that's the gp900. (So whoever I said that to- I'm wrong!) I don't know
anymore.... :) It's getting too darn hard to keep up with!! So, could
someone please fill me in on the GP68 and why they are selling at FRS
prices??
thanks!

Mike,

     I'm interested in your AT-180 tuner if you split up the radio.
Please advise as to price. Thanks and 73   Ed K2SNK

Euro-spook radio. Not for sale, legaly, in the USA. It is a keppad
programable radio like the JT-1000, but again not type accepted in the
USA. VHF is 136-172 MHz, UHF is 438-470. Uses GP-300 Mic. They are longer,
and narrower than a GP-300. Thats what I know.   BiLL

Hey Mezgie

That was quite a bar room brawl on 3950 tonight, no??? The Field Mice got their tails caught in the mouse trap.

Now it's 4.30 AM and guess who shows up on 3950????

None other than W5VVI, playing suck-butt with Side Car Sidney and Knothead Don Smith. Lying as he usually does, he's claiming he missed everything on the radio tonight. Says he just got up, and doesn't tape anything on 3950 anymore.

Hey, if you believe that, there's a replica of the Brooklyn Bridge right out here in Southwest Missouri you can buy real cheap.

Norm just finished blaming me for the current state of affairs on 3950, that I started it all. Everything was fine and dandy on 3950 until I showed up and caused all the trouble. Never mind I've bee off the air for nearly 2 years, I'M STILL RESPONSIBLE.

What a bunch of crap. Well, if hams are bored with what they're doing on their usual frequency, they can alwasy tune 3950kc's, 10PM Eastern time every Saturday night for hysterical entertainment, nonstop jamming, nonstop finger-pointing, and limitless foolishness from the Blowhard of New Mexico, K5BLB.

I didn't get around to my post for Kevin Alfred. No big deal. He's ok, but he's just got too fat a head is all. A little dash of humility would

go a long way. If he helps tie Sidney's tail in a knot, then that's good. Do you remember when Vic and the Girls used to play footsie with Dave and Norm?? They thought they could appease the Devil but, as MUR said, ""IT JUST DOESN'T WORK THAT WAY"".(got that on tape, by the way). Gee, who used to say that all the time """I GOT IT ON TAPE"". Right you are, none other than W5VVI (vivacious vindictive idiot), colleague of WA9KJI, King of the Jammers. Yessiree, W5VVI, now on 3950 as I write this, bitching about jammers, whereas for ten years, he has defended the worst jammer throughout the entire history of ham radio, WA9KJI. Sort of sounds like the pot calling the kettle black, no??? Yessiree, WA9KJI, who has jammed 3950, 7250 and who knows what other frequencies with his tape collection, probably a lot of it made by none other than W5VVI. And they want to bitch about jammers, that everyone that disagrees with them are Nazis. N5OUG says tonight that you're all Nazis. You're not supposed to criticize the government for running us into a 4 trillion dollar debt, causing numerous wars, etc. I guess the public should just be happy for all this crap and enjoy it. If you complain about anything, YOU'RE A NAZI.

If you recall, I tried to explain a few things to you back in 95 or 94 about W5VVI. If you think this guy is benign, think again. What's going on right now proves otherwise.

ah yes, isn't the world interesting?

Catch ya later mezgie dog.

Hello All:

Thankyou for reading this item. I am asking for $115.00 plus a few dollars for shipping and insurance depending upon shiping mode and location.

I am selling a new Radio Shack Power Amplifier. Perfect for mobile and stationary use. Catl. No. 19-1122. Some Features:

o 30 watts output
o Low Noise GaAs Field Effect Transister (FET) pre-amp
o Accepts 0.5-5 watts input
o Double Tuned Helical Band Pass Filter cuts intermodulation
    distortion - This is a must
o 13.8 Volts Direct Current

Originally, I purchased 2 amplifiers for 2 cars and only used one. This one is brand new, Never Used.

For Sale

MPAC-----UHF Repeater by Aerotron

This commercial repeater has been retuned to 444.350 transmit 449.350 receive with preamp. Transmitter is 40 watts out, this repeater has been in service in Hatfield, Arkansas for the past 5 years. The repeater has its own power supply 110volt also has CTCSS multiple tone boards. Repeater can be used in PL mode or non PL mode. Also has a complete set of manuals. Repeater does not include duplexers.

I am asking $800.00 for the repeater and I have a 90 watt amplifier that I will sell for $100.00 with the repeater.

I also have a DB 440 8 bay repeater antenna which I am asking $150.00 for with or without the repeater.

Will sell the total package for $975.00.

I will be at the Little Rock, Ar hamfest on 4-24 and 4-25 and will deliver there or you pick up in Hatfield, Ar.
Or call me at 870-389-6516
Thank you George N0EOQ

I have a like-new Motorola MaxTrac mobile trunked radio, model HUF1069A
and am interested in trading for a wide coverage scanner or good SW
radio. Would also consider a talkabout unit, such as the Motorola VISAR.

Regards,
Dominic Dambro

I would be more than happy to trade you a Talkabout, but a VISAR
is not a talkabout. Talkabouts are Family Radio Service radios,
a Visar is a portable radio for Public Safety and Commercial use.

Well, la-de-da. A talkabout is whatever you want to make it. What a
nitpicker, whew! I'll bet you're a real joy to be around all day. "Hey,
hand me the HT."   " I beg your pardon, that is a portable radio for
Public Safety and Commercial use."

Thanks for your reply.

The post was a copy of an email sent to various WIARC club members, as such the general location needed not be specified, however this will be corrected in future postings

As for the date, there were no hamfests scheduled during that weekend when WIARC picked its date. It was only later that we were informed that the Hosstraders were having their hamfest in NH that same weekend. Nevertheless it is fairly distant from the Montreal area and takes place during 2 days so we hope this will not greatly affect the number of hams coming to our hamfest.

We're glad you are enjoying the return of the auction to the WIARC fleamarket, and hope that if this auction is successful and gains enough support that it will remain a part of fleamarkets for years to come.

I have a Ranger 2950 and a 250watt 10/11 meter amplifier.
Ranger has wideband mod done. Includes radio,mic,power cord, moble bracket
and amp. No docs or box. Radio is in good working condition,
Asking $325 plus shipping. Consider trader or offers.

Just a note, maybe this will help you to post to me, without
showing ignorance of the facts. .

The Talkabout, is a Motorola Radio, called the "talkabout". It
is manufactured in two versions, in a variety of colors.

Now, if he had said a portable radio, a HT, a Handi-talkie, a
Brick, handheld, or any of the other variety, I would have
approached it differently.

But, no, he said a specific product name, a "talkabout".

Now, I explained that, is a very polite manner, and you saw
fit to start flaming. Why was that? Did you have a
bad day today?

A little further education for you, might be obtained at

WWW.mot.com

The home page has a "Talkabout" radio prominently
shown, and includes a link to learn more about it.

Have a nice day, and if I can help you in understanding Motorola
radio products better, please don't hesitate to ask!

I have for sale one Honeywell T631A 1030 . It is adjustable from 0 to 70
degrees F. The output is a SPDT switch , 120 VAC, 7.4 A. U.L. listed, CSA
certified. JPG picture is available on request without obligation. The unit
is new, unused. List price is $137, Grainger price $70, my price $35. Even
if you would just like to see the picture, drop me a line.

R.W.Schlachter.

Well I wonder if our American friends think we are dumb. Well I was
surprised that when I decided to send out a followup usenet message, I

was asked if I want to send it to all 9, yes all 9 usenet groups that
the original message was sent to..

You'd think that these people would work out that USENET has groups to
place relative information and you don't have to SPAM 18,000 groups to
get a message across.

If I wanted a flaming RADIO FROM THE US, I would check out the REC
radio newsgroups. YANKS, don't treat the world like idiots because we
can search usenet ourselves and we do appreciate that you just don't
want us to miss such an incredible offer !

Pete..vk2yx

I am looking for a version of the MT1000 software that is a pirate version
that The tech at Motorola use:
I got another radio software from them that allows out of badsplit reception
and Transmission, and
allows actual full VHF Transmision. I need this bad, and if anyone knows how
to dump and or reset
the CPU in one that would be helpful also. I tried to program one and the
radio locked up while
loading to the prom, I can still use my other MT1000, read/write, so it is
no the rib. anyways
it is locked up and says 88 on the lcd. ANY IDEAS?

Thanks

M. Storm

I have an Operating Instruction Manual for the MT 1000. It's new. I haven't even opened it. Interested?

Louis

From: "VE6RJZ - R. Zaleschuk" <**randyz@telusplanet.com>
Subject: Icom IC-2000H
Date: 1998/04/17
Message-ID: <01bd69d6$28c726e0$ab5522cf@randyz>#1/1
X-Deja-AN: 344946730
Organization: Ham Shack
Newsgroups: rec.ham-radio.swap,rec.radio.amateur.equipment,rec.radio.amateur.swap,rec.radio.swap

I have seen alot of Internet chatter about the Icom IC-2000H not living up to Icom's advertising with respect to intermod. Icon claims this unit to be the "Intermod Fighter!". If the IC-2000H is such a failure and hams are disappointed with the unit, why don't we see more of these units for sale in the newsgroups? Are the people that are buying the units genuinely disappointed? If so, are they throwing their rigs in the garbage and not reselling them? Perhaps all the bad "Internet Press" is only personal opinion from sadistic amateur operators who like to torture themselves buy buying the wrong radio and then feel sorry for themselves in a public kind of way, or, perhaps the units are not that bad after all and the people posting these messages just like to watch themselves type.

I read all of the performance reports for this rig posted by many Hams on the Internet and have read all of Icom's advertising, I imagine this radio to be in the class of the Kenwood TM-261A or the Alinco DR-140T but, without a test rig, I can't form an opinion to post to fellow hams. I did swap a scanner (cell capable, no less) for a IC-2000H that wasn't working (Hmmmm, don't know what happened, just quit workin one day, duh...) and thought I might repair the thing and try it out for myself. Unfortunately, the guy didn't tell me that the unit had been struck by lightning and that all the components 'crumbled to the touch'.

I've tested the Kenwood TM-261A and think that the scan-speed it "too slow", the display is "too glossy" (tough 'read' on a bright day... sunny day?... forget it!). I haven't been able to FIND let alone touch an Alinco DR-140T to form an opinion on this rig yet, but, based on my success with my Icom IC-229H, I will probably buy the IC-2000H as my next rig. So, all you disappointed IC-2000H owners, sell me your unit cheap if you are embarrassed to admit you own one. I will even give you a few bucks for your 2000 if it is not working (this should get those opinionated people typing.... eh?).

Greetings Banff, the heart of the Rocky Mountains!

Randy Zaleschuk - VE6RJZ

>

Your looking for the Lab version.
I'm not shure if it would help you.
Your not supposed to power down / interrupt the radio when loading
 a codeplug. You might need to copy the PROM from the other radio.

>I am looking for a version of the MT1000 software that is a pirate version

I have an IC 200H myself and have been very happy with it. While I have to
admit that it is not quite totaly intermod free, it is in fact better than
any other radio I have owned.
73, KQ6RT

VE6RJZ - R. Zaleschuk <**randyz@telusplanet.com> wrote in article
<01bd69d6$28c726e0$ab5522cf@randyz>...
I have seen alot of Internet chatter about the Icom IC-2000H not living up
to Icom's advertising with respect to intermod. Icon claims this unit to
be the "Intermod Fighter!". If the IC-2000H is such a failure and hams are
disappointed with the unit, why don't we see more of these units for sale
in the newsgroups? Are the people that are buying the units genuinely
disappointed? If so, are they throwing their rigs in the garbage and not
reselling them? Perhaps all the bad "Internet Press" is only personal
opinion from sadistic amateur operators who like to torture themselves buy

buying the wrong radio and then feel sorry for themselves in a public kind of way, or, perhaps the units are not that bad after all and the people posting these messages just like to watch themselves type.

I read all of the performance reports for this rig posted by many Hams on the Internet and have read all of Icom's advertising, I imagine this radio to be in the class of the Kenwood TM-261A or the Alinco DR-140T but, without a test rig, I can't form an opinion to post to fellow hams. I did swap a scanner (cell capable, no less) for a IC-2000H that wasn't working (Hmmmm, don't know what happened, just quit workin one day, duh...) and thought I might repair the thing and try it out for myself. Unfortunately, the guy didn't tell me that the unit had been struck by lightning and that all the components 'crumbled to the touch'.

I've tested the Kenwood TM-261A and think that the scan-speed it "too slow", the display is "too glossy" (tough 'read' on a bright day... sunny day?... forget it!). I haven't been able to FIND let alone touch an Alinco DR-140T to form an opinion on this rig yet, but, based on my success with my Icom IC-229H, I will probably buy the IC-2000H as my next rig. So, all you disappointed IC-2000H owners, sell me your unit cheap if you are embarrassed to admit you own one. I will even give you a few bucks for your 2000 if it is not working (this should get those opinionated people typing.... eh?).

Greetings Banff, the heart of the Rocky Mountains!

***   REDUCED! ***

THESE ARE STILL AVAILABLE, at a new lower price.

[[For sale: several 866 mercury vapour rectifiers. (4 total)

[[Of course it is not unusual for 866 tubes to get grubby looking with that
[[mercury in them! Big S bulbs - 4 pin bases.
[[
[[These are in nice G.E. boxes, but they are ancient RCA Radiotron
[[tubes, not GEs.
[[Will sell the pair for $10

NOW: Reduced to only $4.00 each!!

[[ALSO:
[[One GE 866A Junior - slightly used and tested. Looks very good. $7
[[One RCA 866A full-sized. Also marked VT-46A used andtested. $7

NOW: Reduced to only $3.00 each!

Reply via e-mail - Bry, AF4K

(Thinks - sheesh, if I sold them on e-Bay I would probably get more!!)

Does anyone still have one of these old units for a good price? A friend of mine is trying to scrimp and save for his kids and feels like he can't afford a base radio in the house for hitting nearby repeaters, etc. I want to give him one so he can at least talk on the air without having to go out to his car . . . But, I'm not made of money either.

Anybody have a cheap radio he could use? Doesn't need to have a digital display, or memories or out of band rx, or anything fancy. We're talking less than $50 or $60.

Thanks in advance,

Scott

Hi Again Raymond,
I found that catalog, The Sportsman's Guide. They are selling 2600ft of
New Military Phone Wire for $49.67. It is listed as 2-strand, 16gauge wire.
This wire is for interconnecting two phones, hence the large spool size.
Were you looking for the cord which connects the handset to the phone? If
so, the cord from an old (i.e. 1940ish) black desk telephone handset
might be a reasonable facsimile, and it will probably have spade lugs
attached. Colors might not be exactly what you were looking for, however.

Sportsman's Guide has a website: http://www.sportsmansguide.com

Good Luck,
Brian, N6IIY

Hello! My name is Doug Quayle, and I've got a good buddy of mine on the U.S.S. John C. Stennis, our USN Aircraft Carrier presently floating in the Gulf, wishing he were wearing a GREEN uniform (hehehe).

Anyway, playing the waiting game over there can't be all that fun, so all of the friends and family of the Stennis Battle Group that are on the net have decided to boost the morale of the boys & girls next month. We'd appreciate your support as well.

We ask that you "snail" mail (i.e. via the disgruntled postal worker's union) a letter or a postcard to:

    Any Sailor
    U.S.S. John C. Stennis (CVN-74)
    FPO AE 09542-2874

And mail this note ON APRIL 1st. The idea is to innundate the ship with mail over a 2-3 day period. Mail call to a sailor is usually a little more important than to those of us on dry land, so we figure it'll really make their day to hear some words of encouragement, support, or the latest Monica Lewinsky joke, from someone American.

Our goal is to get a letter to EVERY sailor, and the Stennis is a BIG ship, so we need help.

Thanks a bunch;

d.q.

I am looking for the computer control interface kit (IC-10) for the Kenwood
R-5000 receiver.

Also looking for the command set description in case I can't locate the
interface kit and have to brew my own.

Hi all,

I have for a friend the following radios:

You may email me or call him at (304) 855-4678.

Ten-Tec Omni A HF rig with matching external VFO, Vintage hand mic :) and operators manual for each item. Radio is solid state with analog dial (NO TUBES!!) Sent to Factory in 1990 for a checkup and tune-up (have documentation on that) Radio was purchased new in 1979 and has worked like a champ. 160-10 meters, 3 cw filters, ssb filter, full break-in QSK. VFO allows rx of 2 freqs. simultaneously, tx/rx from radio or vfo or vice/versa. Also in vfo are 4 crystal slots for fixed channels. runs 100 watts on 12vdc using 16amps for full output! Radio is a 9 out of 10..
PRICE IS $400 SHIPPING INCLUDED.
Will trade for the following:
Prefer solid state radio!!
Yaesu 757GX
Kenwood TS820/TS830/TS530, or similar. (looking for something with DIGITAL DISPLAY, IF SHIFT and NOISE BLANKER) with vfo or speaker or whatever... let me know what u have (excellent condition, please!!)
thanks,
Randy

Hi again,
Have for sale for a friend the following radio:

IC-W21AT handheld dualbander. Includes speaker/mic, veh. power cord, hi and low cap. batteries. HAS INTERMITTENT TX AUDIO PROBLEM.. it transmits fine, but no audio sometimes. Audio cuts out with no rhyme or reason, but we suspect the speaker/mic jack as the culprit. this is the radio with the 'telephone' whisper mode so u can hold radio like handheld cellular phone. it has a mic in the radio and another mic in the battery pack for this purpose. the radio works great with dual in-band rx, cross band retransmit and rx, lots-o-features for Mr. Fix-it. PRICE IS $125 INCLUDING SHIPPING

Will also use this as 'boot' for the other radio trade (see ten tec ad) will also trade for a 1kw (rated at more than 600 watts) antenna tuner, prefer roller inductor tuner like a MFJ tuner or a Dentron Supertuner. Wish list: prefer Drake Model MN-2700 tuner.
please email me or call Slade Sowers at (304) 855-4678
thanks,
Randy

I just recently came across a used AEA DSP-2232 and am very pleased with the unit. Now my buddy wants one. No new equipment dealers seem to have them in stock.

Anybody got a DSP-2232 for sale? Please reply with price, condition and location. Reply to me and I'll pass on the info.

WANTED:

9600 baud Hayes EXTERNAL modem for a repeater project.

Needs to be external. I prefer only 9600 baud modems, but will consider
higher baud rates if cheap enough.

Hayes or true Hayes-compatible only.

<P>   Any Sailor

        U.S.S. John C. Stennis (CVN-74)

        FPO AE 09542-2874

<P>And mail this note ON APRIL 1st. The idea is to innundate the
ship with

mail over a 2-3 day period. Mail call to a sailor is usually
a little

more important than to those of us on dry land, so we figure it'll

really make their day to hear some words of encouragement, support,

or

the latest Monica Lewinsky joke, from someone American.

<P>Our goal is to get a letter to EVERY sailor, and the Stennis is a BIG

ship, so we need help.

<P>Thanks a bunch;

<P>d.q.</BLOCKQUOTE>

I have a TS520 hf rig I would like to sell or trade for a good HT... would
like an older dual-band, but will take newer 2m. An MT1000 would be perfect
as well (VHF, complete).
  the 520 works great, face in good cond., case fair (cosmetic, no dents)
Will sell outright for $200.
email for details or phone number!
thanks,
Randy

Randy OM,

  That is an EXCELLENT price on your TS520. Those rigs are well built and can last a lifetime. Perfect rig for anyone to get started on HF.

  73,
        Don, W6JL

I have a heavily modified (enhanced) MFJ 1274 TNC for sale. It has the
NB-96 G3RUH 9600bd modem installed, and has a dual image eprom allowing
switch selection of either the standard TNC-2 firmware, with KISS and
APRS, or the WA8DED Host Mode firmware which many packet programs are
written to use.

I have added a couple of front panel switches.One allows selection of
300, 1200, or 9600 bd operation, and the other selects from one of two
inputs.

The 1274 has a tuning indicator and works great on HF packet at 300 and
1200 bd.
The 1200 and 9600 bd capability is used on VHF/UHF packet. With the dual
input capability, they can both be connected at the same time , and
switch selected.

I also have installed the TAPR XR2211 DCD upgrade kit for optimum
performance on busy frequencies.
The unit comes with complete documentation and radio interface cables.

I am no longer active on packet and will ship this unique TNC to an
aspiring packeteer for the modest sum of $160.
If interested contact Don, W9SL, at 303/814-1503, anytime, or via direct
email.

Not sure if I posted this already, but... I have 2 MC-50 desk mics for sale
at $50/both. One mic is in great condition, works great, other mic looks
rough, base is great, works ok but has hum... inside base is evidence of
many rewirings, and I believe the audio leads being reversed is the only
problem. Please email if interested! Buyer ships COD/CONUS or prepay.
thanks,
Randy

Posted this in a prev. msg... but it was kinda lost in the questions..
Have Motorola headset/mic, behind the head for use with cap, etc, like the 'Nascar' guys use except black. Dynamic mic element. Could use earpads, these are a bit too mushy.. has top velcro adj. strap and coiled cord. Boom adjusts in/out, hinged halfway and mic pivots. works great! it's a 4pin plug now, but have the factory barrel plug (4contact) desoldered, not cut. It's model NMN6064A SP04 if u wud like to look it up at Motorola's website or elsewhere. List new: $500 Priced at $90/firm/uship Please email if interested!
thanks!
Randy

FOR IMMEDIATE SALE

ALL PRICES OBO - MAKE ANY OFFER

The following books are from the inventory of a closed mail-order bookdealer. None are used; all in perfect condition unless otherwise specified. Satisfaction guaranteed or full refund.

List revised 10:30AM, Thursday, April 2, 1998

Rider's Radio, misc. volumes #6 to #15. Condition varies from fair to like new with most being in excellent condition. $25 each, shipping paid. Inquire as to availability of particular volumes.

The Radio Amateurs DX GUIDE, 14th ed., 1981, by Radio Amateur Callbook, Inc., 46 pages. $3.

Radio Amateurs Complete Map Library, circa 1981, by Radio Amateur Callbook, Inc. List $4.50. $2.

The Hexadecimal Chronicles, Don Lancaster, Sams 21802, spiral bound, list $17.95. $2.

Microcomputer Primer, Waite & Pardee, Sams 21653, 2nd ed., 4th ptg, 1982, 384 pgs, list $14.50. $2.

Battlestar BASIC for the TRS-80, Dasenbrock, Sams 22006, 1983, 102 pgs, list $12.95. $1.

Timex Sinclair BASIC Primer with Graphics, Waite & Chapnick, Sams 22077, 246 pgs, 1984, list $9.95. $1.

The ARRL Extra Class License Manual, 1986-1987, 258 pgs, list $5. $2.

Broadcast News Handbook, Donald W. Miles, Sams 21183, 1975, 390 pgs, list $10.95. $2.

The Beginners' Handbook of Amateur Radio, Clay Laster, Sams 21569, 1979, 384 pgs, list $10.95, $3.

Radio Astronomy for the Amateur, Dave Heiserman, TAB 714, HARD COVER, 1st ed., 2nd ptg, Jan. 77, list $8.95. $5.

So You Want to be a Ham, Robert Hertzberg, Sams 21600, 8th ed., 1st ptg, 1979, 192 pgs, list $7.95, $2. (I read an early edition of this book in the public library around 40 years ago)

Fifty Years of ARRL, pub'd by ARRL, 1st ed., 3rd ptg, 1981, 152 pgs, list $4. $2.

From Tin Foil to Stereo, Read & Welch, Sams 21205, 2nd ed., 2nd ptg, 1977, 544 pgs, list $9.95. $8. Damaged front cover, $7.

Communications Monitoring, Robert B. Grove, Hayden 0894-5, 1979, 116 pgs, list $5.95. $3.

Communications World, 1981 Edition, Davis Publications, 118 pgs, list $1.95. $1. Contains White's Radio Log.

Financial Planning for Super Calc and the IBM PC, with 5.25" disk, Sams 22061, list $49.95, $2.

100 1980's 5.25 inch floppies with IBM compatible DEMO software, $5 plus actual shipping cost; over 1000 floppies available. Value limited to historical significance.

Vintage Radio, 1887-1929, Morgan E. McMahon, 2nd ed., 1973, 250 pgs, HARD COVER edition $13.

Easi-Guide to Snowmobiling, Sams 21221, 1975, 144 pgs, list $3.50. 25 cents.

OSCAR, Stratis Caramanolis, translated from German by Colin Newberry, 190 pgs, 25 cents.

Broadcast News, Donald W. Miles, Sams 21183, 1975, 385 pgs, $2.

Electronic Circuitbook 1, Project Constructions, Forrest Mims III, Sams 21241, 1976, 95 pgs, list $4.95. $2.

Second Class Radiotelephone License Handbook, Edward M. Noll, Sams 21722, 6th ed., 2nd ptg, 1981. (FOR HISTORICAL REF ONLY) $1.

BYTE Magazine, Any full year, 1978-1981, $25.

Photofacts, Howard W. Sams, #1-150, 600-1400, with some exceptions, USED, good condition, any number (e.g., #23, #1004, #1350), $8. Any folder (a particular radio, TV, etc.), $4.
Any 100 consecutive numbers, $400.

Telephone Accessories You Can Build, Gilder, Hayden 5748-2, 9th ptg, 1981, list $7.25. $5.

More Telephone Accessories You Can Build, Gilder, Hayden 0893-7, 2nd ptg, 1981, 128 pgs, list $5.95. $4.

North American Radio & TV Station Guide, Vane A. Jones, 14th ed., Sams 21725, 1st ptg, 1981, list $7.95. $3.
Same title as above, 15th ed., 225 pgs, 1984, list $9.95. $4.

Novice Class Amateur Radio License Manual, Anderson, Sams 21529, 1st ed., 2nd ptg, 1979, list $3.95. $2.

World Radio TV Handbook, Billboard Publications, 1983 edition, 540 pgs, $3 or 2/$5. Some other years are available when they surface; ask for specifics on 1979, 1981-1990. Other editions $5 each; addtl copies $4.

The IRCA Almanac, 2nd ed., 1980, list $9.95, $1.

Perfect Guide to Perfect Writer, Meilach, Sams 22186, 1st printing, 1984, list $16.95. 25 cents.

Programs for Beginners on the TRS-80, Blechman, Hayden 5182-4, 2nd ptg, 1981, list $8.95. $1.

TI BASIC, Introduction to; Inman, Zamora, Albrect; Hayden 5185-9, 2nd ptg, 1981, list $11.95. $1.

Dr. Dobb's Journal of Computer Calisthenics & Orthodontia, Volume 5, Hayden 5492-0, list $22.95, $7.

Radio Angels, Stack WA6IPF, Ham Radio, 1st ptg, 1978, Only $3.

FM Atlas and Station Directory. 4th ed., Dr. Bruce Elving, $5. 5th ed., $3. 7th ed, list $6.95, $1. 8th ed., 1983, 128 pgs, list $6.95, $2.

Optoelectronics Guidebook---with tested projects, Fox, 190 pages, HARD COVER, lst ptg, Jan. 1977, TAB 836, list $8.95. $6.

Introduction to Medical Electronics---for Electronics & Medical Personnel, 2nd ed., Klein, HARD COVER, lst ptg, Jan. 1976, 310 pages, TAB 830, list $9.95, $5.

Basic TV Course, Kravitz, 222 pages, TAB 105, 9th ptg, April, 1980. List $7.95. $4.

The Fascinating World of Radio Communications, Wayne Green, HARD COVER, 176 pages, TAB 586, 1st printing, Oct. 1971, list $6.95. $5.

The Handbook of Radio Publicity and Promotion, Macdonald, TAB 213A, 3-ring binder, 370 pages, 4th ptg, May, 1981, list $34.95, $8 OBO.

Hear All the Action, Waterford, Sams 21535, 128 pages, 1st printing, 1978, list $6.50. $4.

Guidebook to Small Computers, Barden, Sams 21698, 126 pages, 2nd ptg, 1981, list $4.95. $2.

A DXer's Technical Guide, IRCA, 2nd ptg, 1981, 98 pages, list $10. $1. Same title, 2nd EDITION, 1983, $4

Electronics Quizbook, Graf & Whalen, Sams 21204, 1975, 64 pgs, list $4.50. 25 cents.

IRCA Almanac, 2nd ed., 1980, 168 pgs, $1. Same title, 3rd ed., 1983, 164 pgs, $2.

IRCA Foreign Log, Volume 6, 7, or 9, est. 160 pages, 1978 to 1981, $2 each; specify volume number.

Radio Communications Receivers, Cornell Drentea, TAB 1393, 1982, 280 pgs, list $13.95. $6.

Beginners RTTY Handbook, RTTY Journal, Jan. 1982, 86 pgs, $4.

Basic Business Software, E. G. Brooner, Sams 21751, 1st ed., 2nd ptg, 1981, 140 pgs, list $11.95. $2

Looking for old HP calculators to add to my collection. I prefer LED
models but will consider any HP in any condition...working or not. If
you have one or any accessory (manual, case, documentation box..etc) you
want to sell.. just send an E-Mail to: John at jrg419@prodigy.net

For sale: several 866 mercury vapour rectifiers. (4 total)

Two of these have to be probably the UGLIEST tubes I ever saw!

Of course it is not unusual for 866 tubes to get grubby looking with that
mercury in them! Big S bulbs - 4 pin bases.

These are in GE boxes, but they are ancient RCA Radiotron tubes, not GEs.
Will sell the pair for $10

ALSO:

One GE 866A Junior - slightly used and tested. Looks very good. $7
One RCA 866A full-sized. Also marked VT-46A used andtested. $7

HI O$B! I have a SONY 330-CFR 1. It is the same as the
320-CFR1 except it has a tape recorder on the bottom of the
radio. I have the covers and all of the manuals for it. I bought
it about 20 years ago. Where are you?

c.radio.swap

I have for sale two Kenwood all-mode mobile transceivers. A TM-255 2 meter rig and a matching TM-455A 440 rig. Both rigs come with separation kits, mikes, mounting brackets, power cables, manuals, and original boxes. The TM-255 is a 55 watt rig, the TM-455A is a 45 watt rig. Both are in excellent physical and electrical condition, a 9+.

I am asking $500.00 for the TM-255 and $400.00 for the TM-455A. If you buy them both you can have them for $850.00 and I'll throw in the factory service manuals too.

Prices are US Dollars, and do not include shipping costs.

Thanks and 73,

Dino Kitsios, KF6ECO

I have for sale six (6) new C.P.Clare HG-1043 relays. The relay winding is
1000 ohms . It operates at 15 ma and releases at 6.6 ma. The contacts are
rated at 5 amps. It is a plug-in relay with an octal base. $30 takes the
lot.

R.W.Schlachter.

I have the following items for sale. I plan to take them to the Charlotte, NC hamfest if not sold before.

Mirage A-1015G 6 meter amp. Christmas gift this year. Upgrading to 100 watt 6 meter rig so I don't need the amp. New condition in box. Asking $325.

Kenwood TR-751A 2 meter all mode radio. 25 watts out. Comes with mobile mounting bracket, mic, manual and origional box. I am origional owner and

I am a non-smoker. Asking $400.

Kenpro KR-5400 az/el rotor system. Similar to Yaesu KR-5400B but no computer interface. The elevation works fine but the azimath rotor is frozen up. Both rotors and dual control box. Asking $175.

AEA AT-300 antenna tuner. As new condition but I can't find the origional box. Asking $125.

Please reply to: lbarnett@claimsware.com

73,

Lee, KJ4BF

Icom 761---------- General coverage HF transceiver. All the bells and whistles. If you know the model you can appreciate what it is even more. A jewel of a transceiver. Works and looks like new. I am upgrading otherwise this would be mine til? A few features - VOX, electronic keyer, auto antenna tuner, AM-FM-RTTY-CW,SSB, compressor and more and more. Manual and schematics. -------- Winner pays shipping and insurance. ---
This radio is a one owner and non-smoker.

This Clegg 99're is a two owner radio which I bought used in 1968. It transmitts and receives but needs a little tuning. In a scale of 1-10 it is a 8. I do not have original manual or original box, but I have a copy of the manual

|||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||||
|||||||||||||||||||||||||||||||||||||||||

AOR 8000 with cell mod's and Opto Scout Model 40. AOR 8000 also has the

mod's for the scout so it can "reaction tune" the frequency that the Scout catches. also novex mod's done also.
Also included is the Optoelectronics DC 440 Tone decoder and the Optoelectronics "CI-V~ CX12" and AOR RS232 computer interface for the Scout, DC440 and the AOR 8000. And two opto DB32 mini antenna's
Everything was bought and kept just as the day it arrived all boxes, chargers, cable's, paperwork, invoice and accessories and all equipment have Nicad batteries.
All Equipment was bought from EEB and mod's were done there as well.

The total price I paid for all equipment with everything was $1451.00 and the first $1095.00 takes it all. Anyone interested or need any more info can email me at gene@surfsouth.com

I have a scanned .bmp of the invoice if anyone would like to see it.

I have a HTX-100 that is excess to my needs. This radio is in excellent

electrical condition. I would class it about an 8 physically it shows
it is used. It has the Book, Mike and Power Cord. I am sorry I do
not have a mobile mounting bracketfor it. I will take $100.00 plus
$5.00 for shipping in the lower 48 States. If interested email to
the following address:
w4ue@pobox.com
Thanks for reading.

Raymond,

I may be interested in your Barber colman Micropositioners, but I can't identify them. Do you have URL where I could find photos or other descriptive information? Where were these used, and what is the range of positioning?

Thank you, Larry Carr

  Thanks for reading this message. I'm looking for a MFJ-418 tutor. Someone who's already upgraded to General or Extra, perhaps, and doesn't need one anymore? I do! :-)

  Please reply directly at r_brown@getonthe.net . Thanks!

Who is Jose Muldoon and why is he such an asshole??
The problem with the internet is you can't just bash a guy in the face when
you want to.
This jack ass has taken to leaving remarks about someone he doesn't even
know-me
The only thing I can attribute this to was my remark about homosexuals oh
well can't please em all.

Oh dearie me, I presume our Mr. Muldoon made the mistake of thinking you a homophobic bigot. Quite right you're annoyed about it - you were just generally being bigoted, the derogatory reference to people as "fags" seemed to pass you by entirely.

Let's get one thing straight (no pun intended), this is a newsgroup for articles on VALVES. Remember those? Little glowing glass things? Try one of the macho groups if you want to be the all-American dumb bigoted jock, not in this one, matey! If you want to try any more anti-gay remarks, go to a gay newsgroup and try it there. Being torn to shreds by leslie-beans isn't one of the worst ways to go.

With fond regards,

Russ Sadd

PS: Please brush up on your grammar - a little punctuation goes a long way. So does humility - I can't say getting to know you better sounds like a fun thing to me. Was that subtle enough?

What "support"? As far as I've seen, you've done nothing but inspire a
bunch of posts from different individuals condemning your foul mouth,
apparently bigoted attitude, and exorbitant prices. Nice try...

Hi MK,

I understood the question, and would give you an answer if I knew what
it was. Clearly, 2.3 million visitors passed through rec.audio.tubes
and are not familiar with Jose Muldoon.

Sounds like a wierd cross between Spanish and Irish if that is any
help.

Stick it out dude, someone must know....

Cordials,
Duncan

Talked to this guy 2 weeks ago on the phone about an add on
304TL's-referred me to a friend in Salt Lake who sells em for $65 each
used. Now he sees my post, doesn't know its me, and emails me that he gets
them all the time for $25 NOS from "his ham buddies", then puts up his
posts. wow some people will do anything to cut down the competition!

I have an Icom IC-730 HF rig for sale. This is a solid state older unit and
is in good condition. It has 80-10 meters with the
WARC bands. There is some minor scratching on the sides but the front is
cosmetically beautiful. Functionally it works flawlessly
and comes with the origional microphone and manuals. This unit has the
quad-conversion reciever so you KNOW that it will be
SENSITIVE!! I will also include with the radio a Radio Shack dsp filter! I
am asking $375 for the set.. Please send e-mail to the
address listed below if you have any questions.

First off, your concern/gripe seems poorly founded. The
impropriety you seem to be whining about is at worst an
indescretion hardly worthy of note, and could've been quite
simply a mistake or miscommunication.

Secondly, judging by the ISP, path, newsreader, use of language,
subject content of post, and grouping of usenet groups posted
to (this is not as obscure as you might think- have a look),
"watcher" <wakanisay@owell.com>)
is in fact
"MK" <MKAUDIO@prodigy.net>.

"wow some people will do anything to cut down the competition!"

How true! How much lower will this guy sink? For another example of
how low he's gotten, see his "Why I hate whiny fags" post and ensuing
thread in rec.audio.tubes 1998/03/10. What might the future hold?

Ethan

Hello,

Thanks for reading our "Press Release". We are excited to announce the Release of "The Original Southern California Repeater Location Guide". This exciting and most up to date guide available is now on the Net. With the most complete listings of all Open and Closed repeaters for 2-meters, 220 MHz, 440 MHz, 1.2 GHz, 6 & 10 Meters in Southern California, you will see why this guide is one of the most sought after directory available. Find out more at...

I am restoring a set of Army Field Telephones and require two rubber covered
, three wire cords. It would be nice to get the original replacement with
black, white and red leads and lugs attached. Is there anyone out there that
has a stock of these or knows where I can find them.

R.W.Schlachter.

I just received a sportsman's catalog (I don't recall the firm's actual name), but I remember they were selling surplus army field telephones AND spools of wire to interconnect them. As I recall, the spools were about 2000' long. I'm not sure if I still have the catalog, but if I do, I'll repost tomorrow with the info.

Cheers,
Brian, N6IIY

Here's a long shot for you to try
Surplus Sales of Nebraska
402-346-4750 is the phone number I've got ... but it's from an older
catalog. I heard that they are "on" the internet, so try a search
engine?? Might get lucky!

Bandpass Cavity Filter. Tuneable 136-174 Mhz.
Presently tuned in 2m band. Cavity is 7" diameter by
2 feet tall, (overall height is 30"). N type
connecters. Manufactured by Sinclair Radio Labs.

It has 1db insertion loss and signals 2Mhz
away from the tuned frequency are down 18db,
signals 5Mhz away are down 26db.

I can also tune it to your freq.

   $ 75. + shipping (about $10.)

For Sale:
Ten-Tec model #238 Tuner.
This tuner is in absolutly like new condition, I sold
this tuner back in 1991 when I was a TenTec dealer to an
older fellow, and he never did get around to using it. He's
asked me to sell it for him.

With original Box, Manual. $275 + $7. shipping.

I can Email you some specs and a photo if your
not familier with the #238. This is also still a
currently availible model and you might be
able to find out more it at.....
http://www.tentec.com/

The following is posted for a friend without internet access. PLEASE CONTACT NIGEL DIRECTLY...thanks!
==========
==========

The following Racal communications equipment for sale:

MA 168 Diversity Unit (no manual) $100

TA99 1 KW Linear (no power supply), 1.5 to 25 MHz, with Distortion Unit and VSWR unit, with all technical manuals. $700

TA349C 1 KW Linear, 1.5 to 30 MHz, servo tuned, with power unit, all interconnecting cables, set of technical manuals. $1600

The following three Racal transmitters are extremely rare. As regards prices, I am open to cash offers:

(1) Racal TA127 Transmitter (Royal Navy Type 632S). 1 KW, 1.5 to 25 MHz. All in very good to mint condition, in working order, original cabinet and wiring, with set of technical manuals and many spares.

(2) Racal TA83 H.F. Transmitter, 500W, in UN-USED condition with all Racal supplied tools, technical manual.

(3) Racal TTA371C Transmitting Terminal (Ex-RAF). 1 KW, 1.5 to 30 MHz. All in very good to mint condition, in working order, original cabinet and wiring, with set of technical manuals and many spares.

All items can be packed and shipped at cost from Georgia.

Please contact Nigel Boyd, K4UGD

I have just acquired a used DR-610T and would like to obtain the
following:

The Operators Manual,....a must for this complex rig

An EJ-24U CTCSS Tone Decoder module

An EDS-2 Remote Cable

If you have any of these you would like to part with, please contact me
via direct email.

TIA, Don

If you intend to use it with OS/2 as a WIN-OS2 operation, while you are
digging for things be sure you get a copy of the OSTSR time slice
release utility. This one is free ware. At least install it with your
setup, otherwise PPWIN will clobber your CPU load.

The best utility for bringing it under control in OS/2, to my
experience, is the TAME320 utility, but that one will cost you a few
bucks to register. It is more versatile than OSTSR and has let me do
some things I needed that OSTSR wouldn't do...

Hi,

I have the mod for the TH-G71A. The specs are:

AFTER MOD RX Capability:

136.000 - 173.995 400.000 - 469.995
320.000 - 399.99375 800.000 - 823.9875
849.000 - 868.9875 894.000 - 949.9875

If you want a copy of the mod sheet you can do 1 of 2 things:

Send an SASE to: Graham Crosby
2506 Devon Drive
Albany, GA 31707

OR 2:

Log back on tonight about 9:00 PM. I will scan and post it in BMP format .

73,
Graham

Can anyone help out with a Service Manual or Schematic for a Midland,
Model 70-530D, UHF Transceiver?

Before anyone answers "try Andrews Communications", they want $130 +
p/h!

Has anyone got one that I can get a copy of? Thanks

73's de

Martin, VK2TJO

You can now find the mods for the Kenwood TH-G71A HT, On my site,
http://www.angelfire.com/ca/ke6gwf/
Note; Currently I only have the wide band Receive mods. If any of you have, or know were I can find, the full Transmit mods, please let me know.
I will post them, as well pictures that I took with the radio apart, as soon as I get them.
Thank you, Ben (KE6GWF)

P.S. I did the receive mods on mine last night, and everything seems to be working all right.
After mod Rx capability.

2kw 80-10m desktop amp runs on 110/220vac with a pair of 8122. Spare tubes, spare band switch and original manual. $700 plus shipping or will trade for quality 6m ssb/cw transceiver.

Worked fine last time used (1993). It's been on the shelf ever since. If you're in the Chicago area, we can test at your location, otherwise, sold as-is.

radio.swap,rec.radio.amateur.swap,rec.radio.amateur.equipment

I have a like-new Kenwood TH-78A with all original equipment (box, manual, antenna, wrist strap, charger, and battery in excellent condition), and the following accessories:

ME-1	200-memory expansion chip (total of 250 memories)
SMC-34	Remote-control programmable speaker/mic with volume control.
SC-35	Soft case for standard batteries
SC-36	Soft case for large batteries
KLF-3	Filtered cigarette lighter power cord.

The radio is opened up for full tx/rx capabilities and crossband repeat. It has seen only minor use, and works superbly. It is the most full-featured dualband ht available, and will give you good service. I have all of the original packaging and documentation for the accessories
as well.

Price is $350. Reply here or email me at one of these addresses, after removing NOSPAM-:

NOSPAM-wd4sgu@juno.com
NOSPAM-wd4sgu@prodigy.net

Thanks.

Mike - WD4SGU

FOR SALE: Yaesu FT-50R Dual Band Handheld (Fully modified)

$225 obo (see what's included free below)

This radio has had the Ultraband mod performed allowing for amazing Rx and Tx ranges, the best of any Yaesu modification.
Visit http://www.yaesu.com/ft50.gif for a picture of this radio.

Features:
-Fully modified!!!
-Great condition, rarely used
-Wide Multi-band Receive for the scanning enthusiasts 76-520, 540-999 MHz (including Cellular)
-3-Selectable Rx modes (AM, FM-Narrow, FM-Standard)
 -Rugged MIL-STD 810 Rated for Shock and Vibration
 -Auto Range Transpond SystemTM (ARTS) uses DCS to automatically poll other stations, indicating if they are within simplex range
 -Digital Coded Squelch (DCS) is used in the commercial industry, DCS provides 113 unique codes in addition to the standard CTCSS tones
 -112 Memory Channels each stores offset, CTCSS/DCS & power level
 -Alpha-Numeric Display up to 4 characters may be used to name each memory channel
 -Digital DC Voltage Display monitors current battery voltage
 -Full 5 Watts of Power Output with 4 selectable power levels
 -Automatic Tone Search (ATS) scans for DCS and CTCSS tones
 -Receive and Transmit Battery Savers built-in
 -ADMS-1C Windows PC Programmable (see below)
 -Keyboard and Menu Programming allows for simple FT-50R operation

Included FREE:
-AC Adaptor
-Screen and keypad protector case

-All original documentation, labels, and box (including warrenty)

Also for Sale for use with radio:
-ADMS Software Package (includes cable and software) ($100 obo)
I would suggest this addition to your radio. It allows for the greatest
flexibility.

I am selling my TS-950SDX. It includes narrow CW and SSB filters, voice

synthesizer, SM 230 Monitor/Bandscope, Speaker, Mike, etc.
In excellent condition: 3,000.00.
I also have a Yaesu FT-736R with 144, 220, 440, 1.2 Ghz modules with
speaker, in excellent condition: $2800.00
I am the original owner of this equipment and have taken very good
care of it. I am selling because I am moving and I want smaller,
lighter
units. I am located in Los Angeles.

If you've got an Icom 6 meter module for the 901 A, (or maybe a 220 module?) please respond via email to: n1pqg@mediaone.net

Thanks,
Mike Mentuck

Looking for a set. E-mail with details. Will consider singles too.
Looking for usual tube socket/fuse/pilot light sizes. Is anyone making an IEC plug socket punch?

Thanks,
Rick

Unfortunately Mark, these will never stop, as never will the force-feeding here of the porno ads. They are all part of mass-mailings, they never see your/our comments of dislike, etc, and am sure they could care less! You do have the ultimate power of control though, throw the power switch! ;-)

Hello, I have the following parts forsale. They have been sitting in my basement for a long time now, so I do not know if they work -- so I am selling everything ASIS. Buyer pays the ups shipping COD from ny. Prices are not negotiable. Call me at 607-777-7453 or email at asitzer@pb.net

1) Pentium Motherboard w/ 256K cache. 3 PCI and 4ISA slots. 4 72pin
     simm sockets. Jumper settings printed right on it. $35
2) 486 dx2/66 Motherboard & cpu. has 8 32pin simm sockets & 2 72pin
     sockets. 8 ISA slots (with 3 VLB extensions). 256K cache.
     Also incl cpu cooling fan and 8 1mb simms. Works well. $70

2) Digital thinwire singleport repeater 150. AUI/BNC.
     excellent condition -- tested and works. $150.
3) HP Laserjet I. selftests fine, but didnt try hooking it up. has
     one toner that appears about half-full. heavy. $150
4) IBM Proprinter. dotmatrix. parralel. $40
5) IBM X24 printer. dotmatrix. parralel. $40
6) IBM Graphics printer. dotmatrix. parralel. tested. Works. $40
7) IBM X24E printer. dotmatrix. dotmatrix. parralel. $40
8) HP Ruggedwriter. selftests fine, but didnt hook it up. serial. $100
9) Epson FX1050 printers. dotmatrix. I have 3 of em. These have been
     tested and work. $50ea all for $130.
10) Epson LQ2500 printer. dotmatrix. $45
11) Epson LQ1070 printer. dotmatrix. $45
12) HP Deskwriter inkjet printer for macs. $100
13) Brother dynax dx-15 daisy wheel printer. takes standard casette
     ribbons. $15
14) VT131 Terminal. $35
15) Hitachi 19" BNC cga monitor. Has seperate R,G,B and external sync
     connections. $150 but its heavy so shipping will be alot (>$35)
16) Kenmore Air-conditioner. Model 2539750551. 5500 BTU. Good cond. $145
17) Interdyne external 6025 Tape backup unit. db37 connector. $12
18) Commodore 64 Computer w/ diskdrive & powersupply & software. $50
19) Commodore 1525 Dotmatrix printer. $30
20) Hero-I Robot #1. Fully built. Has worked in the past, but the
     charger is currently broken and the batteries are drained, so I
     dont know how much of it works or doesnt work. All the boards
     are installed and it looks okay. Includes original schematics
     and user manual. $1200
21) Hero-I Robot #2. Alot like the one above, but this one does not
     have a couple of the circuit boards (about 3 missing) and is
     missing the arm. No charger. Batteries are probably dead.
     But this one does have a remote control, which is neat.
     Great for parts. $625.

Still looking for a db 224 or db228 in the 2 meter band, for a repeater antenna.

Please e-mail responses.....oh, and if you want to sell one, but don't want to help arrange shipping, don't respond! I had several responses before like "its at the location, don't know how you would get it to a shipper"!!

REPEATER MODIFICATIONS FOR POPULAR MOBILE RADIOS!

Information Sources has compiled an impressive collection of well written instructions for converting many popular commercial mobile radios into full repeaters. Some of the files, such as the MASTER2.TXT file (included below) which describes how to wire a Mastr II mobile radio for use without a control head, are original works and are copyrighted by Information Sources. The information may not be reproduced or republished via Internet, CD-ROM, or any other media without the express written consent of Information Sources.

The repeater modifications are available for sale on 3.5" HD floppy disk, IBM PC format only. All information files are ASCII text. The following files are currently offered on the Information Sources Repeater Modifications disk:

```
---------------------------------------------------------------------------
MICORDUP.MOD  Converting UHF MICOR mobile radio into a repeater
MICORUHF.MOD      Converting UHF MICOR mobile radio into a repeater
MICORVHF.MOD      Converting VHF MICOR mobile radio into a repeater
GE_EXEC2.MOD      Converting GE Exec II radio for repeater & 9600 pkt
GE_MVP.MOD        Converting GE Custom MVP radio into a repeater
GE_PACKET.TXT     9600 and 1200 Baud packet on GE EXEC II and MVP
GE_MVP.TXT        Basic MVP information and 1200 baud packet use
GE_MVPEX.MOD      Another 9600 mod for GE_MVP (Complicated!)
MAXTRAC.MOD       Converting the MAXTRAC for operaion on 900 ham band
MITREK.MOD        Converting MITREK mobile for 9600 duplex packet
MITREK2.MOD       Converting MITREK mobile radio into a repeater
MITREK.9K6        Converting MITREK mobile radio for 9600 packet
MASTRPRO.MOD      Using GE Master Pro receiver strips for repeaters
MASTER2.TXT       Wiring the Master II for use without Control Head
MASTER2.MOD       Converting GE MASTER 2 mobile radio into a repeater
MOTOSPKR.TXT      Adapting and wiring Motorola Amplified Speakers
WILSON.TXT        Programming Wilson/Regency synthesized mobile rigs
BR.COM                A simple DOS file viewing program for handy use
BABYRPTR.TXT      Convert a Fisher-Price baby monitor into a repeater
LIST.COM              Another easy to use file viewing utility program
PKUNZIP.EXE       Dearchiving utility program to use with *.ZIP files
PD-203.ZIP            Shareware program for POCSAG (pagers) monitoring
PE-205.ZIP            Shareware program for POCSAG encoding(transmitting)
\DECODE\*.*           PD-203.ZIP file de-archived - POCSAG decoding
\ENCODE\*.*           PE-205.ZIP file de-archived - POCSAG encoding
---------------------------------------------------------------------------
```

The following is a reproduction of the MASTER2.TXT file which is included on the Repeater Modifications disk described below offered by Information Sources. The MASTER2.TXT file describes how to wire the GE Mastr II mobile radio for operation without the control head and control cable.

Wiring the GE Mastr II without Control Head

I'm sure many of you out there already use Mastr IIs without control heads but there are probably many who are not too familiar with this radio. There was a recent article about using the Mastr II mobile as an emergency intermittent duty repeater by Terry W. Ellis in the September 1993 issue of Mobile Radio Technology Magazine. The article did not elaborate on wiring the Mastr II without a control head. It can be done. I will not go into the modifications needed for repeater operation. Rather, I will just explain how to wire the Mastr II radio for operation on a single frequency without the control head.

1. Ground (called A- by GE) comes out to pin 30 or pin 21 on J901 the Main control plug on the front panel of the radio.

2. 13.5 volt DC must be connected to pin 29 (called A+ by GE) and pin 24 (Ignition Switch) of J901.

3. The Tx PA supply is separately wired to the big red and black wires at pin 39 (TX+) and pin 40 (TX-) of J901.

   (NOTE: Be sure to use fuses for both the PA and the low current Rx and Tx exciter even when testing and wiring on your bench. I was lucky and only smoked a few small traces on the Mastr II front panel board which I was able to bridge with new wire. The damage could have been much worse. Reverse polarity diode protection (like the PA has) would also be a good safety practice for the rest of the radio unless you like the smell of burning radio parts!) (I'd suggest 15 or 20 amp (for lower power testing) on the PA and 2 or 3 amp maximum (for testing) on the Rx and Tx exciter.)

4. The volume and squelch controls can be made with internally mounted 10k trimpots. High side on both vol and sq connect to pin 11 of J904 RX/IF/AUDIO/SQ board. (GE conveniently labels all the pins connecting the major sub-assemblies to the front panel and system board of the Mastr II.) Low side vol and sq connect to pin 12 of J904. Sq center control arm is connected to pin 10 of pin J904. Volume center control arm is connected to pin 13 of J904.

5. The frequency or channel is selected by taking the F# pin to ground. Grounding either the Tx or the Rx F# pin also grounds the corresponding F# channel on the other Tx or Rx. (I guess you could rig the radio for multi-channel use by making a multi-select switch for each channel to ground.)

6. Audio (Speaker) output is taken from J904 pin 19. Pin 18 of J904 (labeled Speaker Low) is connected to ground. Connect an appropriate loading resistor (8 to 20 ohm 1 or 2 watt minimum) to prevent audio amp oscillation if you do not have a monitor speaker connected as with packet, etc. Speaker audio could also be taken from the red test jack as explained in the next step.

7. PTT and mike connections can be taken from the red test set jack, J905. Here is the pinout:

Pin 1: Speaker high (Audio out)	Pin 6: A- (Ground)
Pin 2: Speaker low (ground)	Pin 7: Microphone high
Pin 3: Regulated 10 volt	Pin 8: Microphone low
Pin 4: A+ (13.5v)	Pin 9: A- (Ground)
Pin 5: PTT Pin	

Note: The radio keys by taking pin 8 on U901 (10 volt regulator) to ground. If you operate the Mastr II WITHOUT the CHANNEL GUARD strip installed you will need to jumper pins 6 and 8 on J908, the Channel Guard plug in card. If you try to key the radio at the meter jack without the Channel Guard board installed you won't get anything except frustration. I was dumb-fuzzled for almost a week before I noticed this one

little bridge on the schematic diagram of the front panel board. Lesson: If you intend to use Channel Guard keep the card installed when you test the radio. If you do not use Channel guard, jumper these two pins so the PTT will work properly from the red metering jack, J905.

To kill Channel Guard (e.g. for tuning or testing the receiver) take either Pin 6 of J901 (front panel plug) or Pin 3 of P908 (Channel Guard plug) to ground.

Having a schematic diagram for the Front Panel & System board for the Mastr II is certainly a great aid. It is very difficult to trace out the connections without a schematic since the board has circuit traces on both sides and uses a number of holes to pass circuits on both sides of the board.

I have found an easy place to drill holes for wiring access is on the black plastic front panel main wiring connector. There is an area on outer side of the two big pins to the Tx PA which can be drilled out to pass control wires. I tried to solder directly to the pins on the main connector without much success. I like the internal wiring better. (Note: Molex pins slide very nicely over the pins on the Mastr II front plug. Use heat shrink over the connectors to avoid shorts and add a neat appearance. Also, you can solder directly to the large pins for TX PA by scrapping off the plating and soldering directly to the bare brass pin.)

All the information on the disk is believed to be accurate, however some errors may inadvertently appear and the user assumes full responsibility for the use and application of all the information contained on this disk. No warranties of any sort are expressed or implied. Referral to the appropriate service manuals for the various radios discussed is certainly recommended in every case. The information on the disk presumes the user already has familiarity with the radios discussed, and hopefully, a copy of the service manuals for the radios.

In case service manuals for the radios of interest are not available to the user this distributor has prepared concise written and illustrated operating guides for the General Electric Executive II radios, Master II radios, and Custom MVP radios. Each guide runs about 20 to 25 pages in length and contains necessary schematic diagrams, exploded parts diagrams, tune-up instructions for VHF and UHF radios, and repeater modification instructions with diagrams, as needed. The guides are available for $15.00 postage paid when purchased separately, or for $12.50 when purchased with the repeater modifications disk. (See special pricing offers following the order form, below.) Much of the information on the disk is included in the GE operating guides, but the guides additionally include tune-up instructions, schematic diagrams, and additional helpful hints which are not

included on the disk.

The Repeater Modifications disk is available by mail by using the order form below:

I am looking for a good single band 222 Mhz xcvr in the
$200-$300 range for our RACES group. No crystal rigs or
HT's please.

If you have one for sale message me at the BBS given.
Note how much you want for it a complete description of
the gear,your phone number, call and what state you are in.

Thanks. Jerry

I have just acquired an Alinco DR-610T dualband mobile, and need the
operators manual and an EJ-24U Tone Decode module.
If anyone has either of these for sale, please reply via direct email.
TIA, Don

Is there any way to get Packratt for Windows now?
Program for AEA PK232 MBX
I just bought one and was told it had this software but it only had Pakratt
II
the Windows version has a Signal Analysis Module and a few other nice
things for my use which is Rx only

Kenwood TR-7850 2 Meter Mobile rig for sale:
    - 15 memory channels
    - Priority channel (one button access)
    - Priority channel alert scan
    - Memory scan
    - DTMF pad
    - 7" W x 2.5" H x 9" D
    - 45 watt high power (about 5 on low)
    - original manual, hand-mic, mount and box.
This rig also has the "standard" type of functions,
one VFO (separate from memories), reverse button,
bargraph S and power meter...
would also make a good packet radio base station.
It is in excellent shape, very clean. $160
plus $5 shipping.

Wanted: Kenwood Liquid Crystal Display Window for my Kenwood
TH25AT. Mine is only functional on the top 1/4 and Kenwood
Canada wants $225.00 CDN to replace it and I feel that is
 far more than the unit is worth.
So If anone out there has a "dead" unit that they feel has a
functional LCD or is aware of another compatable fit
 please email.

-----For Sale-----
Kenwood TS-830S 160-10m HF Transceiver,
later series with gold nameplate,
s/n 4090058. This radio is very clean,
only a few light paint scratches
on the top and sides keep this radio
from being "mint"...the front panel,
knobs, digital display, meter, etc, are
all flawless. I do not have the optional
CW filter in it, it has of course a
built-in AC power Supply, all WARC bands,
100+ watts output, etc...i have the manual,
and the original box.. **** $ 440. ****
I'll go 50/50 on the shipping to 48 states.
I'm willing to give you an on-the-air demo
too, on 160-40m.. or 10m if your local...
I am located in Croswell, Michigan.

FOR SALE: Wilson Mark IV VHF Handheld Transceiver ($30 + shipping)

This is an older VHF (2 meter) ham radio (see attached picture below). Would make an excellent portable backup, emergency or packet radio. The radio is in working condition, however, I do not have the antenna, charger or owner's manual. It features:

   + 6 channels (crystal controlled -- see frequencies below)
   + Tone squelch decode
   + DTMF keypad (touch tone dialer)
   + HI/LO power switch
   + External Mic/Speaker
   + 11v, 500ma NICAD battery (last replaced 9/14/91)

Crytals included: 146.520, 146.670, 147.285, 147.165, 146.625 and 147.060 MHz

$30 plus shipping

If you're interested, please send e-mail to kc4vnu@nospamjuno.com (just remove the "nospam" from the reply address to send e-mail to me).

Not a lot of listings yet, but looks promising (I even seeded it with a few
of my own)!

http://www.uboss.com/ham/swap/

I am not associated with this site, except to have bought something from
the owner once and thus because aware of his plan to open up the site.

Have NIB (New in Box) Siltronix model 90-5 VFO. It is intended for use

with the Cheetah, Simba, Courier Gladiator, Cobra 138 and 139, Midland

13-893, and any CB radio having an 11.1 Mhz crystal for tuning. It is designed to tune from 26.925 to 27.830 Mhz and can be powered with 110 Volts AC or 12 Volts DC (use it base or mobile). This unit is still in the original box with the original instructions and was never used. Asking $200 or best offer plus shipping from Burnsville, MN 55337. Contact Frank at ki0gd@spacestar.net (that's a zero following the "i" in the email address).

radio.swap

Would anyone advise me on the pin out of a GE master 2 control cable
plug<at the radio>. I don't have a cable and need to know where i need
to put positive and negative connections to the front of the radio as i
am using an internal repeater controller <nhrc-3 mii-90> and have
deleted the control head.

I realize the two large pins are + and -, but the smaller pins must have
a pos and neg. pin in there somewhere.

Thanks for any help!!
please e-mail responses....

I have a mint Yaesu FL-2100b Linear Amplifier designed to match the
Yaesu Ft-101 series transceivers. Plate input: 1200 Watts PEP, 1000
Watts CW, and 600 Watts AM, Grounded Grid Class B.
Requires 110 or 220 AC currently wired for 110AC, Forced air cooling,
wt. 41 Lbs.
  Has orginal protective plastic covering the face! Tubes are 2 X 572b
triodes and are solid.
This amp is top of the line in every respect, Price is only $450.00, but
might consider a trade. I have just to much equipment and need to down
size, I have 3 amps and I can't use all of them.
Price includes orginal manual, but not shipping! Shipping is Extra!
73 & best wishes
Al

Where are you located at?? Get with me in email and I'll have the info
you need by then...yes there is a +DC input for the exciter and
the rcvr (the 7amp fused feed to the control head) that uses the
smaller pins...the large pins are for the PA only

Does anyone know someone who has a broadband receiver tube or otherwise
for between $50 -$75 that works. Doesn't have to look pretty just work.
THX.

Hi, probably looking for a needle in a haystack here, but I recently
aquired a set of 599D twins and need some help. Seems the transmitter
doesn't want to work.... funny thing is, I have located two more sets of
radios locally, and those transmitters don't work, either... the relays
kick and IP and HV voltage are there, the tubes are glowing, but no
dice. Same exact thing with others I found! Some bug in the radio??
seems to be a popular bug. the previous owner has had the radio 20 yrs
(in the closet) with the transmitter broken, so it apparantly broke very
early on.. what could be the problem?? Any help appreciated.

Would also be nice to have the 2m and 6m boards for the receiver,
too, if anyone has them around!
thanks,
Randy

Hi, I have a UHF Motorola Visar with a dead front cover. (Hit by lawn mower. Case and board broke.) The RF section is fine as well as the battery. I need a visar with a dead RF section and a working front cover. Or if you upgraded to a TT front I would like your non TT front. TT or non TT is fine...

Just want my radio back.

Please let me know if you can help.

73,
Scott

>with.

I recommend that you mail your list to Deane:

Deane Kidd
27270 S. W. Ladd Hill Rd.
Sherwood, OR 97140
503-625-7363

Deane is a great old guy who worked for Tek for more than 40 years.
He has almost any Tek part or manual that you might ever need and is
happy to take your call as long as you're paying for it. Give him
your serial number and he will make sure that the manual you get
covers your instrument properly.

He has an incredible array of Tek parts and may be able to find many
of the things you need. You just need to give him time to find them.

A phone call will be entertaining, but for a list this long you need
to send him a hard copy and give him time to think about it.

Jim

I've got a Yaesu FLDX2000 linear that I got with a bunch of other equipment in the late 1970's. I'm not a ham, so it's been sitting ever since. Physically it is complete and clean, but I have never even plugged it in. I was assured it was working when I got it, but I don't have an exciter(or a license!) to test it myself. $325 shipped, $300 picked up in southern NH, or trade towards a UHF Visar or Maratrac.

Thanks,

Phil Barber

I have a Yeasu 727 dual band. Still New in box.
I need a reset code that will do two things at once, change the
radio to wide transmit/treceice (450-470mhz) and change the
channel spacing to 12.5 khz.

The normal wide band code - 110000 will give me wide band but
leaves the channel spacing as 10 and 20 khz.
code 660100 will give me 12.5 splits but leaves me stuck in 70cm.
Any help?

DF

Hello there folks, I have the following printers forsale. Almost
all of them have been tested and are in working condition <and
have a DOA warranty(less shipping).> However, a few do not have
cartridges, so i cannot test them. Those are denoted by ASIS and
do not have a warranty. Prices are not negotiable, and buyer pays
shipping (ups cod.) -Andrew Sitzer

1) Hp Laserjet I. Very rugged, heavyduty printer. serial. $150.
2) Star NX-10. Dotmatrix. Tractor or sheet-feed. parralel $40
3) IBM X24E Proprinter. Dotmatrix. Tractor only. has no handle.
   24pin. parralel. ASIS. $30
4) Epson FX-1050. Dotmatrix. Wide carriage. tractor or sheetfeed.
   parralel. I have three of these epsons. Two are working, one does
   not advance the paper $65 each for the working ones. $40, ASIS
   for the other one.
5) Epson LQ-1070. Dotmatrix. Wide carriage. tractor or sheetfeed.
   parralel. $65
6) Apple imagewriter II. dotmatrix. color! I have two of these.
   $45each or both for $80.
7) IBM Personal graphics printer. tractor feed only. parralel. $40
8) Epson LQ-2500. Dotmatrix. Wide carriage. has neat LCD readout.
   parralel. No ribbon, so it is untested. Asis. $65.

Hi guys, as u know, I'm looking for an HT1000 or GP300 VHF 16ch. radio!
Have been watching the posts, and am ready to buy. I've noticed a lot of
GP300's going in pairs, this would be nice as well. Will offer $300 for
good HT1000/batt/rpd. chrgr. and roughly same for pair of GP300's in
good shape. will also offer partial trade of items previously posted by
me! Prefer newer models 'c' or so (ht)... Please email and let me know
what u have and we'll talk. remember to remove the spam filter as listed
below when replying!
thanks!
Randy

Want to buy 220 band unit model UX 39 for Icom 900-901 Series. Please
respond via email if you have a unit you wish to sell or trade. Prefer
to purchase outright, but would trade if possible. Please give price
with response.

Want to trade?: Mint Motorola SM-50, 2-channel VHF (150MHz) mini-mobile
tranceiver for Uniden/Bearcat BC-890XLT or BC-895XLT scanner.

Motorola radio is near new/excellent condition, never mobile, will
program to your desired frequencies. Very small compact chassis! 35-45W
output power.

Please e-mail me if interested: sleong@world.northgrum.com

Thanks!

c.radio.shortwave,rec.radio.swap

Hello all... I am looking for an automated repeater controller. I want
something that still has tech support and parts available to anyone and
everyone. If you have something please let me know asap!!!!!!!
Here is the things i'd be willing to trade:

ic-727 hf + 6meters Hardly been used!!!!

ald 24t vhf and uhf mobile (actually a commercial radio) Works great on
amateur bands!!

ic-02at vhf ht

as well as some other misc parts.

if you have something of this nature, let me know and even if your not
interested in trading maybe we could work something out. If what you have
is not of equal value, i either need $ compensation, or other equip
compensation.

Thanks de Rod Ekholm Jr. kc7aad@kc7aad.#ewa.wa.usa.noam

I have a James Millen # 92200, 3KW+ antenna tuner. It uses coax in and coax out, 80meters through 10 meters, with relative power meter, measures forward or reflected power.

The case of the tuner has been repainted light gray, the face is original, and in good condition. The tuner works exelent.

I will ship this tuner, UPS ground, to lower 48 states, for $225.

Search the eBay auction site, join and get your Z.T.O. for
what you want to pay for it...it's fun, it's easy.
friend,
Lute

have a very clean Kenwood TS-711A two meter all mode rig with manuals
for Sale. Looks like
it just came from the factory. Hasn't been used for at least a year
since I lost interest in Satellite. $475 shipped UPS ground in the USA.

I'm looking for a top notch Kenwood repair tech or facility for my
extensively modified tm-742a with distorted 70 cm audio output. Does
anyone have any great advice?
tnx & Happy Holidays

Hi
The extensively modified comment would really bother a pro.
Hoever, suggest you get in touch with AAVID they advertise in
QST Auth KW repair center.
You can e mail to avvid@onramp.net

Hello All...

For sale Kenwood TS-180. This is the all solid state tranciever.
160-10 meters with provisions for any 2 of the WARC bands.
Runs 100 watts and has been a great radio for me the last 4
years. Has the 250~ cw filter installed.

Also included is the: PS-180 matching power supply
                       SP-180 matching speaker
                       AT-180 matching tuner
                       MC-50   mic.

All in good condx.   Will ship anywhere in lower 48 for $500.
 Interested, send mail
 n6ng@sj.bigger.net

Just heard from Kenny at KAC Website Design and he has restored the Ham Swap Page from an older backup and all is well again! (Just in case you thought he might have just shut it down, not so.)

http://www.kacweb.com/swaps/radio/index.html

I have no connection to Kenny or the site other than to read and post there from time to time. In fact I just posted there to test the site, working fine!

Long before oscilloscopes had built in voltage calibration and dual traces, there was the basic scope. In order to quantify the input signal, a voltage reference was required. To generate two traces,an electronic switch was used. It was basically a square wave generator that used the top and the bottom of the square wave as traces #1 and #2.

For collectors of Heathkits or just early electronic equipment, the following items should be of value:

1 Heathkit Voltage Calibrator Model VC-2, with manual,used in mint condition.

1 Heathkit Electronic Switch Model S-2, with manual, used in mint condition.

If you have any interest in the above, let me know. JPG pictures are available for your viewing.

R.W.Schlachter.

Hello, I am selling my Standard C5900DA Triband Mobile.(6m/2m/440mhz) The radio is in excellent condition as it has been used 95% here at the base. Radio comes with all original materials including box, manual and mounting hardware. Radio has NEVER been abused of driven hard. No marks or scratches. I have lost interest in ham radio so I'm selling my station minus one ht. Asking $600.00 OBO. Lets make a deal and put it in your shack. If interested e-mail me at joshuap@home.com

Other items going are:
Standard 568a Ht 2m/440/1.2 $400.00
Diamond SX-1000 swr power meter 1.8mhz-160mhz/430mhz-1300mhz $180.00
Astron SS-30 power supply $130.00
Comet SB15 6m/2m/440 base antenna $100.00
Comet ??? 6m/2m/440 (so 239)mobile antenna $50.00
Maha dual band amp 2m 50w/440 35w out. 100.00
Diamond Sa770 2m/440 mobile antenna $30.00

For Sale Kenwood TH21-AT mini handheld for 2-meters.
~1.5Watts out
Thumbwheel programmed.
Comes with Rubber Duck, soft case, manual copy, standard battery, high-capacity battery, charger modified to charge both size batteries and 12V auto power adapter.

For Sale Kenwood TH41-AT mini handheld for 440
With TU-6 tone encoder.
~1.3Watts out

Thumbwheel programmed.
Comes with Rubber Duck, soft case, manual copy, standard battery,
high-capacity battery, charger for each size battery.

Very similar to Icom 2AT/4AT, but they=92re lots smaller. Actually fit
nicely
in your shirt pocket. Use standard plugs for speakermike/ packet
interface etc.
Work great. Way better than average condition; no busted plastic.

Asking $135 for each package. Or you can make an offer.
Located in Portland, Oregon.

Two UHF (438-470MHz.) GP300s for sale, one 8 channel, one 16. Both are complete with good battery, antenna and belt clip. No chargers. Good condition, no damage, but a couple of minor scratches. $300 for the 8 channel, $325 for the 16, or trade towards a UHF Visar, Maratrac, or can type UHF duplexer.

Thanks,

Phil Barber

I have moved enough times over the years and my junk box has gradually
shrunk as result of these many moves, to a point where I have no good
junk anymore. I am building a tuner and in need of a 3 pole double throw
switch of the ceramic type (this is a 2 KW tuner). If you have one
please let me know the price. Even junk has a value!

I have for sale an Icom IC-281H 2M mobile radio. This radio has been mobile about 2 times. The rest of the time it has been my packet radio. I operate packet about 3-5 times a year whether I need to or not.

This radio has the extended receive modification (done by me) only. This opens up the RX capability to 118-135.995 MHz AM RX and 320-479MHz FM RX. Out of the box the radio covers 144-148MHz TX/RX and 440-450 MHz RX.

The radio is in mint, like-new condition and comes with the original box, manual, power cord, hand mike (HM-77) and mobile mounting bracket.

AES is currently closing out these radios for $379, I'd like to get $280 for it.

Please email me if you are interested.

73,
Tim

This list was updated 10/11/97.

I have a few transformers I need to get out of my house.

1 Harman Kardon Citation V power transformer, made to operate with two of the Citation V output transformers, $ 85.00 USED

1 Harman Kardon Citation V output transformer, made for push pull 6L6GC output tube use, $ 75.00 USED

1 Triad S-31A output transformer, 8000 ohm p.p. plates to 4/8/16 ohm v.c., 15 watts, vertical encased mounting $ 30.00 NIB

1 Stancor A-3877 output transformer, single 5000 ohm plate to 4 ohms, 5 watts, maximum primary d.c. : 40 ma. $ 15.00 NIB

1 Thordarson 21M55 modulation autoformer, transceiver for use in citizens band, 6750 ohms tapped at 5000 ohms with separate vc winding 4ohm voice coil $ 10.00 NIB

1 Triad F-40X filament transformer, primary = 115 volts 60 cps, filament = 26.8 center tapped @ 1 amp, horizontal channel mounting $ 10.00 NIB

1 Triad V-31 vibrator transformer, 115 cps primary 12 - 16 volts secondary 575 volts center tapped 79 ma. d.c., uncased $ 25.00 NIB

1 Fisher X-100B T951-115A power transformer $ 50.00 USED

2 Fisher X-100B T849-116-5B / 6B output transformers, made for push pull 7868 output tube use, $ 40.00 each, USED

2 Fisher X-100 T781-116-1 / 2 output transformers, made for push pull EL84 / 6BQ5 / 7189 output tube use, $ 40.00 each, USED

Shipping is extra.

Just a note to scratch builders: this transformer is used in a V
doubler circuit so only gives 200VAC w/ no CT

I haven't used this stuff in years and I'm cleaning out my garage. The entire box of stuff is free to the first person who comes by to pick it up. Sorry, but I don't want to separate the pieces, so it's all or nothing.

Included in the box are:

ICOM IC-720 HF transceiver
Kenwood TW-400A dual-band car-mount transceiver
Yaesu FT-208R handheld
ICOM IC-04AT handheld
Various microphones, chargers, etc.

Everything worked when I packed it away.

I am in the Almaden area of San Jose, CA. You can call me at (408) 997-8000.

National NC173 for sale. Complete, operating condition. Inside extremely clean, appear to be all original tubes. Exterior a few scratches on the top and a little fading on the knobs. Tuning feels good, scales a little yellowed but complete. No speaker. $125

Hallicrafters S38 complete except for bandswitch knob. Clean. $50

Take both and I'll pay the shipping. Units are in southern NH - I would be glad to show them if you're in the area.

Looking for Drake R4B/T4XB or R4C/T4XC combo with MS4 - must be in pristine condition with excellent exterior and no user mods.

Would be interested in any spare tubes plus keyer unit.

Pls quote including SH&H to Orlando, Florida.

Hi,

After some 10 years in packet radio, I've decided to go to a "lower profile" and sell off most of my packet ports. All radios are in great shape, as they'veonly been used on packet (very low duty cycle). Some have never had a mic pluggedinto them. All prices are firm, and do not include shipping. I stand behind allthis gear 100%. I'm an Extra class licensee, and a professional Electronics technician. I'm also an ARRL/FCC V.E. Examiner; radio amateur for 20yrs. I tell you this, so that you will have an idea as to how these items were cared for during their time with me. (non smoker) Here's the list:

Alinco DR-110T 2mtr transc. (cellular receive capable ...not modified) $150 Yaesu FT-212RH 2mtr transc. (tone encode/decode .. very user friendly) $175 Icom IC-281H 2mtr transc. (440 rcv. .. 9600 baud capable) $175 Icom IC-38A 220 mhz Xcvr. (used exclusively on packet) $225
Kenwd TM-733A 2mt/440 dual band (9600 baud, used on packet only) $300

Kantronics RFC 3-312 220 amp/pre-amp (30in - 120 out ... up to 150w) $225 Cushcraft 220 (1 1/4mtr) BOOMER (15ele - 15.5db gain) $ 75

Kantronics KPC-3 512K! (I personally did the 512K mod!) $120 Kantronics KPC-9612 (dual port 9600/1200 tnc ... 128K) $200

I have the manuals and in most cases, the original boxes, etc.

Bank certified check or Postal M.O. acceptable tender. Estimate shipping costs at $4 to $7 for continental U.S. via UPS Ground.

If you are interested in any of the above, contact me at:
mailto:cooncat@ncweb.com

Fax: 440-428-2399
Work Phone: 440-255-1080 x883 (8am-4:30pm EST)

73 de Bill, KB8EB (packet addr. is kb8eb@wa8bxn.neoh.oh.usa.na .. but
don't know how long I'll have a presence there)

teur.swap,rec.radio.swap

I am reminiscing after receiving the latest Swan Net newsletter and would
like to acquire a Swan rig again.

I am looking for a rig that doesn't have to be museum quality (I intend to
use it!), needs to be at least marginally functional (I'll tinker with it
over the winter), must not have been "hacked" (modified, rewired, drilled,
etc. - don't care if 3-sided case cover has been poorly painted or is
scratched, I can repaint that, the face needs to be reasonably intact)

I want only one of the following, and in this order of preference (from
most to least wanted):
750
500CX
500C
350D
Others considered.

Price IS an object! This is to be my toy rig and I have very limited
financial resources. Value will be assessed to include the condition of
the finals, physical condition, operating condition, shipping cost (I'm in
So. NH), etc.

I Also Need A Power Supply (Preference in this order):
Swan 117XC
Swan 117C
Galaxy PSA-300
Galaxy AC-400
Hallicrafters PS-500
Galaxy AC-384

Other Accessories Sought:
WM3000 Wattmeter
FP-1 Phone Patch

Thanks for any offers, or suggestions of sources!

Wrong! The Yaesu FT-50RD and the VX-1R support DPL. Even the Yaesu FRS radio supports DPL. Yaesu calls it DCS, but it's the same thing.

Just so you know......DPL is only a "Digital Private Line" squelch control.
 It uses a continuous digital pulse instead of a sub-audible tone to
control the audio squelch. It is NOT a audio encryption system. If you
have the capability (i.e. a Motorola repeater with DPL) you can use it on
the amateur band. You probably won't get any others using the machine
unless they have a commercial type radio and have the proper digital code
programmed for the repeater.

Lowband/6 meter equipment for sale:

RCA Series 1000 mobile radio, model CMFM7MMRNC. 100 watts, presently on 39.xxMHz. Complete system with 4 frequency scanning control head & bracket, speaker, mic, mounting tray, and control/power cable. Noise blanker option. Also includes complete, original RCA 700/1000 series lowband service manual set in three ring binder. Clean, complete, working when pulled a couple years ago. $100.

RCA Supercarfone mobile, model CMFA50N2TT. 50 watts, 45-54MHz split, presently on 47.98. Complete system with 4 frequency 'integrated' control head with mtg bracket, speaker with mtg bracket, mic, mic hangup box, mounting tray, control and power cables. Also includes complete, original RCA Supercarfone/Superfleetfone lowband service manual set. Radio is very clean, head and cables complete, but a little dirty and worn. Working when pulled a couple years ago. $70.

Two 5 element 6 meter beams for sale. Both are complete and in good condition. One is a Cushcraft, the other I'm not sure of. Open to reasonable offers. Prefer a pickup since it would take a while to disassemble and package for shipment.

All equipment located in southern NH; I would be glad to show it if you're in the area. Prices plus shipping.

Yaesu has finally started to offer DPL tone on amateur equipment. I
think the only one so far though is the FT50 dual band radio.
Hopefully others will soon follow suit.

If you want a truely private repeater, DPL is, for now, the way to go.

Hi Cole and Kathy,
     Yes there is a difference. If you are considering using ctcss on your machine, and it is for general amateur consumption, then the only item to use would be a conventional "PL" board. The use of a ''DPL" board would all but eliminate the use of your repeater by most individuals. There are 1000 positive and 1000 negative going "DPL" codes to choose from. Some of the newer ham rigs now are equiped with "DPL." If you don't have a real "lid" problem then your best bet is going to be the use of the former.

I have heard of a problem with the IC-706 MK II where in the scaleing down in size of the voltage regulator/supply circuit causes an overheating problem. An importer I know who brings them into Vancouver from Japan told me he has sent back 13 for a refund because as he put it he believes that ICOM should make a factory mod to take care of this problem.

Furthermore I have heard that there is a dealer-mod to take care of this problem but will only be done on a complaint basis and not as a matter of course by the selling dealers.

Thanks in advance to anyone who has experience with this problem please for shareing it with me and the rest of the Newsgroup.

(please reply via email as well as the newsgroup to assure that I receive your message. tnx)

Hello! Does anyone know how or who might have the capability to program an older Motorola MCX 100, 16/32 channel VHF mobile radio? The model number is MBD43CUA7A00AK2, Options MBB434AB and MBB311AB. Any help on this would be greatly appreciated! The radio has a 16-pin(?) PROM in a socket next to a 40-pin microprocessor(?). The socket is labeled "PROM" or "CODEPLUG". Thanks in advance and 73, Steve KC6IJM.

Hi,

I am trying to recondition some older Tektronix equipment for my personal use. I have made an extensive list of obsolete Tektronix parts that I am looking for. Perhaps, you have some of what I am looking for in your collection? I would like the parts to be in "as new" condition, if possible. I would appreciate it if you would look through the list to see if there is anything that you can help me out with.

1. K213/Model 3 instrument cart with shelf

2. 7A13 DMM plug-in

3. Tektronix blue paint in spray

4. TM-503A mainframe in mint condition w/option 7 if available

5. TR-502 Tracking Generator plug in parts:
   a. SMA interconnect cables to spectrum analyzer (012-0649-00)
   b. logic interconnect cable to spectrum analyzer (012-0648-00)
   c. SMA male to BNC female (015-1018-00)
   d. retainer, plug-in (343-0604-00)
   e. washer, shoulder (210-1248-00)
   f. screw, machine 4-40 (211-0025-00)
   g. nut, plain 4-40 (210-0586-00)
   h. subpanel, front: left (386-3403-01)
   i. subpanel, front: right (386-3405-01)
   j. front panel, left (333-2080-01)

k. front panel, right (333-2081-01)
l. latch, retaining (105-0719-00)
m. knob, latch (366-1690-00)
n. pin, knob securing (214-1840-00)
o. C250/C260 10uF@50V (290-0340-00) <2>
p. C384 510uF@25V (290-0513-00)

6. DC508A 1.3 GHz frequency counter plug in parts:
a. subpanel, front (333-3825-00)
b. panel, front (333-2365-00)
c. knob, latch (366-1690-00)
d. bar, latch release (105-0718-01)
e. latch, retaining (105-0719-00)
f. LED display U3130 (150-1025-00)
g. A1C1132 330uF@50V (290-0667-00)
h. A1C1150/A1C1160 22uF@10V (290-0776-00) <2>
i. A1C1585 22uF@35V (290-0718-00)
j. A1C1590 10uF25V (290-0804-00)
k. A1C1593/A1C1790 68uF@15V (290-0720-00) <2>
l. A1C1792 100uF@50V (290-0779-00)
m. A2C4320 22uF@50V (290-0255-00)

7. 7L13 1 kHz to 2.5 GHz Spectrum Analyzer plug in parts:
a. C2524/C2526 1000uF@10V (290-0650-00) <2>
b. C1573/C1900/C1902 510uF@25V (290-0513-00) <3>
c. C1604 50uF@25V
d. screw, machine flt head 4-40 (211-0008-00) <2>
e. DC block (015-0221-00)
f. spectrum analyzer graticule / 7603 (015-0221-00)
g. network impedance match 50-75 ohm (011-0112-00)
h. N female to BNC male (103-0058-00)
i. cable, BNC male to BNC male (012-0113-00)

Have Heathkit hw101 for sale, also hp 23 pwr. supply in other posting...
101 is in rather good cosmetic shape. Face is decent, case good, having
a few blemishes, no dents, large scratches, etc. Rig seems to be
complete, but sadly, it needs het. osc. boards..(well, not really the
boards, but the tuning slugs/cavities all seem to be cracked, split,
missing, etc). The drive control has come loose and will slide right out
(sorry, I pulled on it, was working ok!) missing one rubber foot, needs
new dial disc, powers up ok, can hear some stations barely on 80, so it
does kinda work, has finals, etc. What's it worth? $40.00?
Reply via email,
Thanks!
Randy, KC8CPK

Hi,

 I have a Heathkit HP 23 power supply for sale. Works great, has
switches for pwr off/on, dual voltage and pwr on lamp. In very good
cosmetic condition as well. Only a few blemishes but has some
'labelmaker tape' identifying the voltages switch. Mostly just glue
marks from tape, etc. Have 'homebrew' pwr. cord for HW 101... pretty
rough and not well made, but has proper connectors. will go with first
piece of equip out the door. See HW101 posting! Want both maybe??
Reasonable offers considered and uship! reply via email.
thanks,
Randy, KC8CPK

Hello all,

I am looking for an _affordable_ 2M all-mode (SSB-CW-FM). I used to
have an Icom IC290H that I would like to find again. Please, no dual
band satellite radios, I can't afford one, yet!

Please email me at: k3tz@nauticom.net

Also, would you consider a trade for a mint condition Icom IC281H?

Thanks for reading & 73,
Tim
K3TZ

Need following parts for Heath HW101:

-heterodyne osc. boards (all)
-plastic freq. readout dial (this one is cracked)
-plastic insulator for plate tuning cap. (goes between tuning rod and
cap.)
will consider junker radio with all above parts working, willing to pay
$30 for junker.
-
Also looking for parts for Kenwood TS-820s:
-need PLL boards (both) in working order

Need parts cheap, please email with parts list and prices.
This is not for me, but for a friend, so questions may take an extra bit
of time to get answered!
Thanks,
Randy, KC8CPK

That won't work, the law falls under the FTC and they claim it doesn't
apply to email, just FAX machines and that type of business equipment.
There are a lot of places that have tried that law, but none that have
worked as far as I know.

There is a bill in the House right now called Rep. Christopher Smith's
(NJ) "Netizens Protection Act of 1997" (H.R. 1748) that is aimed at
amending the junk fax law to include email. You can find the text of the
proposed law at http://www2.cauce.org/Smith.bill.intro.html

>Can anyone say that this is legal? If it is, I will do it.

It's perfectly legal. However, mail without any postage will be returned
to you. But if you put insufficient postage on it (a one cent stamp,
for instance), it will be delivered to the addressee postage due. However,
the addressee does not have to accept it, and I'm not sure how they would
have to admit to committing a felony to refuse it.

And unfortunately, what usually happens with postage due mail is that it
gets delivered anyway and the mail carrier pays the few cents required
out of his or her own pocket, just to avoid the hassle. Obviously if
an addressee started receiving lots of postage due mail, the carrier
would do something about it, but you'd have to have a concerted effort
to do it.

The best thing to do with this, if you're going to the hassle of actually
using paper mail, is to print out and forward the chain letter to the
postmasters of the people whose addresses appear in the letter. Just
address it:

Postmaster
City, State, Zip

and it will get to the postmaster. The Postal Service likes going after
these guys because the violation is a pretty open and shut case and it
bags them a nice fine.

Just curious, how many people have had cop trouble with that radio, since
it loks so much like a traditional scanner, that can pick up police
frequencies. It can not, which can be verified on the back of the radio,
the frequencies covered are listed there, but a cop could easily give one
a hard time anyway.

I purchased this radio from Tom back at the first of the month, and returned it to him. Here's a copy of the email I sent him when I received the radio:

Tom,

I received the Pro 80, but Its not working properly. I have canceled payment on my check to you for $200, and will return the radio to you. When I opened the battery compartment to install batteries, a case scew fell out. At that point I noticed the two case screws on the back were missing completely. Upon powering up the radio, I found the display to be off frequency by 5 khz in the am narrow mode. I receive wwv at 4995, 9995, etc. It appears someone has been inside the radio, and has gotten the alignment off. Send me the address where you would like thew radio shipped, and I'll send it back to you.

Doug

Tom was _very_ reluctant to take the radio back, but I really didn't give him a choice since I did stop payment on my check. I would recommend to anyone considering this radio to check with him and confirm that the radio has been repaired and the case screws found.

I have a hardly used RF Concepts Model RFC 4-110, 430 to 450 MHz amp. with
12 dB GaAs-FET pre-amp. Input is 10 W for 100 W output, FM or SSB. Type N
connectors. $250 plus shipping.

I had an ICF PRO-80 for years and the AM/SSB AGC chip gave out; the radio starts squealing on any moderately strong signal.

I replaced it with a Sony 7600G, which, at ~$170, is a much better radio for SW AM and SSB reception. Much more sensitive, and about as selective when the selectable AM sideband feature is accounted for. Wont pick up VHF, but the converter thingy on the PRO-80 was a kludge anyway.

I saved the parts from the PRO-80 and plan to turn it into an RF signal generator someday.

Building your own is very cheap and effective among amateur radio
telescopists!! See my web-ftp site's subdir and file: PHYSX/parabola.tut
and in your case mount it's axis on an equatorial mounting!!

55 Foot, 3 Section Heavy Duty Galvanized Crank-Up Antenna Tower.
Cable fairly new but pulleys probably need replacing. Minor surface rust only at base. Purchased used last year but never put up. Tower is located in Cape Coral Florida which is on the SW Coast. This tower is approx 24' long in it's down position and weighs about 250-300 pounds. First $150.00 CASHtakes it away. Don't miss this one.
Please e-mail me with any questions you might have about this tower.

mrymer@peganet.com

Thanks,
Mike

Now that the new Drake R8B super receiver is out and it has a five
star rating from Passbook to Worldband Radio, you will see a lot of
older Drake R8's for sale.   Price will only go Down.

I have a six-footer that I no longer use that I'd be willing to part
with for $25.00, and I could even probably take it to you (I have a
pickup). I believe I still even have all of the mounting hardware
for a roof-mounted pipe mount, but I'm not absolutely sure. It was
originally used as an SCPC audio receiver, and I believe it's made
by Prodelin. I also have a 4 GHz feed and LNA I'll throw in. Let me
know if you're interested. It's presently in my backyard in Newark.

Looking for fully functional model with stand. Would prefer one with a 20ma current loop or RS-232, but I'll consider another interface. Unless you're real close to Spring, TX, I would probably need you to ship it as well. I know that's real pain for something this big, but I'm willing to pay shipping costs as well. It might be easiest to ship it in two pieces if that's possible. :)

Thanks,
Rich Armstrong

Well, I have an ASR-35 in Very Good condition. It's available for free
(partial doc's, too), but I want no part of having to ship it.

I also have, if memory serves me, a few large (24") reels of 1" paper
tape.

Come on out for a ski trip (Crested Butte) and I'll help load it into
your truck. <g>

I have a 732-A for sale for parts, everything is there except the
control head which got stolen! If you have a control head or one of
these radios for sale for parts let me know!

Hi, everyone,

I have a Yaesu FT-290R II 2-meter all mode portable/mobile (25 watts with
amp attached, 2.5 watts with battery pack attached) with tone encoder
installed, optional C-cell battery pack, carrying case, and charger, with
box, manual, and mounting bracket. It's in really nice condition.

To see what this radio looks like, click on:

http://www.yaesu.com/ft26790.html

Current new price for the package, with the coupon discount is around $675.

I'll sell it, shipped within the US, for $425. Please, money order or
cashier's check only.

Thanks.

Terms are as follows:

All items are for sale AS-IS, all sales FINAL. Please feel free to make an alternative offer. I reserve the right to decline any offer.
Payment is prepay (personal cheque OK) or COD by certified funds.

For more information, contact: Christopher Edmonds - edmondsc@fiu.edu
==========
Motorola Radios & Accessories (see below for more info)

$400 shipped for the lot

qty 1 HT50 154.6 MHz
qty 4 HT90 154.6 MHz
qty 3 HT90 154.57 MHz
qty 1 HT50 154.6 MHz (spkr & mic missing from faceplate)
qty 1 HT50 154.6 MHz (top is cracked up, spkr but no mic)
qty 1 HT90 154.6 MHz (spkr & mic missing from faceplate)
qty 2 HT90 shells (body only, no faceplate) one new in plastic, one used

qty 1 NTN4864B charger
qty 6 NLN7646A charger
qty 6 NTN4864A charger

qty 14 NLN7434A & similar batteries
qty 1 NTN5453A battery

qty 13 BNC whip antennas various lengths
qty 1 HT50 screw in antenna

I would like to sell all this together if possible. The chargers are in decent cosmetic shape, some have marker writing on the front. The radios are somewhat more beat up. All of the radios were used for data transmission, all have had the accessory jack removed. Some have a short coiled cord with a strange connector in place of the jack, some have nothing at all here. I have tried most of them, however, and they all seem to function anyway. The condition of most of the batteries is unknown; I charged up a few to test the radios, that's it. Because of the condition of this equipment, I offer no guarantees on it.
==========
HP 1222A Oscilloscope $100 OBO + shippping

Not working, possible problem with sweep generator. When you press the beam find button, you can see the beam sitting there in the middle.

Salvaged the following diodes with associated markings, but can't find
specs:

HI Q CK72AX 102M

FRIE CK80AW 102M 1000

M MR2901S 7426

IN3209 SI 7412

IR X5M4

Can anyone identify or give me specs i.e. Hi current, UHF.

Have old 1956 ARRL but they are not listed there either.

Thanks
Greg KB6WKW

Hi Greg:

I think the first two might be capacitors. The values being 102X10^-6.
The second unit having a 1KV rating. The manufacturer is likely ERIE
(not frie).

MR usually indicates Motorola Rectifier. "M" is the Motorola symbol.
The 7426 and 7412 are date codes interpreted as 26th week in 1974 and
12th week in 1974.

IR was International Rectifier. The X5M4 is likely a proprietary
designation.

I hope I'm not a source of too much confusion for you, Greg.

73,

Gary, K9HDU

I have an HP 8754A Network Analyzer for sale. Specs are 4-1300MHz.
It is in excellent condition. It comes with 3 HP cables used to
attach it to a test set, complete operating and service manuals,
and I'll throw in a Mini Circuits directional coupler and power
splitter I've been using in lieu of the HP test set as well.
The price is $2500 + shipping. If you're local to the SF Bay
Area, you're welcome to come by and check it out.

Email me for more information.

Erie also made semiconductors back in the 60's-70's, but I couldn't
find this one on their pages in some old catalogs of that vintage.
(So did a lot of companies that don't seem to exist any more like
Hoffman, and Sakes-Tarzian).

I have several items for sale for the widow of a friend. Please contact me if you are interested in any item or the entire package. I prefer to sell as a package. All items have manuals but no original boxes. All items are clean and in good condition. I will refund your money on anything you buy and are not happy with. The shipping will be yours. All prices are plus shipping. If you think the price is too high, make me and offer, but don't wait too long or bid too low. This is all good gear and someone will pick up a bargain. I am going to do something this next week or so.

Kenwood TS-430S HF rig $500
MJF 989B 3 KW tuner $175
Trip Lite 40 Amp Power Supply $100
Kenwood 241A 2 meter rig $190

There are also filters, straight key, headset, speakers, short coax cables with ends, and some junk box materials. I want to sell all of it.

To everybody who has been pissed off by those 'get rich quick'
chain letters that keep appearing in all of the newsgroups.

Do you want to stop it once and for all?

Well here's how. Every time you see one, don't bin it, take
the time to read it, extract the names of the idiots who expect
you to send them money, and send them their letters:

    vvvvvvvvvvvvvvv
    WITHOUT A STAMP
    ^^^^^^^^^^^^^^^

The real beauty of this is, they have to pay cough up the dough,
or admit to commiting A FELONY.

The cost to us is so little, a few cents for an envolope and sheet
of paper, (We do after all want to tell them exactly what we think
of them.) and a little time. For them the cost is penalty postage
rates, which will quickly eat up any profit that they might have
made.

You will never stop people from trying for a quick buck - witness
the papparazzi - by telling them what they are doing is illegal.
But a hole in their pockets, not to mention what their wives will
do to them, should quickly slow the flood to a trickle.

Those of us from outside the USA are especially invited to
participate.

If you really want to rub it in, send them monopoly money,
confederate dollars or some basically worthless cash from your
corner of the world.

This sounds like a fantastic idea. Is there anything illegal
about putting out mail without a stamp? Of course, you must
not have a return address, or it'll come back to you.

Can anyone say that this is legal? If it is, I will do it.

Bull! If you put your return address the letter gets sent back to you.

If you don't put a return address or put someone else's or a phony it'll hit the first trashcan it comes to.

Get real!

Try another trick - the FCC supposedly has a regulation which makes it a crime to send unsolicited advertisements by ANY means other than mail an or megaphone. The attorney general of some oddball state tried to use it to shut down a man who was sending unsolicited political opinions to the governor. Who says attorneys general have even half a brain?

I downloaded the message containing the FCC regulation number but failed to watch where I sent it on my HD. Have to ferret it out the hard way.

Okay, what if we omit the return address AND put
on a three-cent stamp? Will that work? This
sounds like too good an idea to just put down,
let's find some way to make it work. I would
gladly spend three cents to make a spammer pay
twenty nine.

Why not do as with advertiziers who fill up your post box? Send maximum
allowed weight letters filled with teir crap, without a stamp?? That
cracks them quite soon. Send a very expensive letter without any stamp
at all and they have to pay it double :-)

Do you realize that a large part of the reason you only pay 32 cents to
mail a letter from Banghor, Maine to Honolulu, Hawaii is that the Postal
Service is supported to a LARGE extent by postage on "junk" mail? I
welcome it. It takes me precious little effor to toss it in the recycle
bin and then think about how nice it is to have someone else foot much of
the postal bill.

It is your tax money which pays most of the bill.

Nobody is talking about junk snail mail. We were discussing
electronic spams. Do you welcome 15 e-mails in your in-box about
chain letter get-rich-quick schemes and nude sites, etc.?

Junk mail, sure. Illegal chain letters posted to several hundred
newsgroups, no. The USPS themselves, as well as the postal services in
Canada and most European countries, have regulations forbidding the use of
the mail service for chain letters. The reason we're getting upset about
them is that we can't just toss them in the recycle bin--they're flooding
the newsgroups and e-mail; as soon as you delete or killfile one, another
one takes its place.

With junk (surface) mail, the volume is limited by the cost--they have to
pay for the postage, the paper, the printing, etc. With internet scams,
they can post a thousand for the same cost as posting one, so why not? And
then a few other people see how many are being posted and assume that it
must be working, because the darn things are turning up everywhere...so
they fall for the scam, too. Unless a few other people step forward and
visibly object to this sort of behavior, newcomers and lurkers will have
the impression that the scams are working, legal, and everyone's doing it.
Hence our objections (or at least mine).

BTW, if you're feeling a bit sadistic towards the chain-letter scammers,
have a look at http://www.clark.net/pub/rolf/mmf/ .

It must be possible to detect by some methods that auser start flushing
the net with a spam? And if so, let him post the first 50 for free, and
send a huge bill for the rest.

The billing mechanism must filter out mail coming from a listserver
though. A list with 10000 subscribers are not a spam mailer, normally.

Wrong, the U.S. Postal Service is NOT publicly funded. My tax money goes
to pay for Medicare and nuclear warheads.

What you mean "we" white man? The post I replied to was referring
specifically to sending postage-due snail-mail to junk mailers. Perhaps
it's my fault for snipping the post I was answering...just trying to
conserve bandwidth ;-)

Newsgroups: rec.audio.marketplace,rec.audio.tubes,rec.ham-radio.swap

All:

I have the following FS or trade:

Heath W4AM amp. It has 2 Tung-Sol 5881, 2 CBS 6SN7GT and 1 Sylvania SV4GA. The transformers #s are: 54-29, 46-12, 51-17. The chassis has a date of Oct. 11 1956. It is in decent shape and appears to be in working order, however I am going to have it checked. If it checks OK the price is $135 + shipping.

Leak Point One Stereo amp with pre-amp. Cosmetically they are in excellent condition except the pre-amp has one knob missing and one other with an improper red insert. The big caps on the amp are bad. I have cleaned out the cans and was going to put new caps inside the old cans. The pre-amp has all Mullard tubes the power amp has all Mullards except for one U.S. 6BQ5 and one 12AX7 (GE). It appears to have the original umbilical cord to connect amp & pre. The really cool thing is that the preamp still had the inspection tag tied to the back. It is marked with the serial #, tester & inspector inits. and the date: 31/8/1960. Don't know if they work or not, however considering the great shape that they amps are in I think they should work great, as soon as they get new caps.

Make me an offer + shipping.

I will also consider trading.

I am looking for a Heath W5M with KT 66 tubes, Magnetic Windings power tranny & the Peerless 16309 output tranny.

Thanks,

Greg

Jim. I don't want to appear a pain but, there is still no URL either in blue or any other colour.

(NOT wanting to teach you to suck eggs, but...) You must remember that most of the users only have a 'normal' ASCCI text type of a news reader programme. They can't read hypertext messages (Like what you are posting in)
Many people use some form of 'Off Line Reader' (Like I do) not using Netscrape or Microsloth Explorer and have to download every message all in one go (mail or news)

I would like to have a look around your site, but unfortunatly it still eludes me. (I've got an Amiga Ham site link from my site, give us a link if you want?)

Feel free to post it here or send it to me direct. Thanks Jim.
(Post it in normal ASCCI text please!)

I didn't want to mention it, but it's worth noting that a lot
of us OFs use a plain ol' Unix reader, not one of these newfangled
GUI gadgets. ;-) Heck, when I was a boy, I had to walk through
deep snow, 5 miles to school--and it was uphill BOTH WAYS!

:-)

It's not a big hairy deal, but the truth is, a LOT of folks
still use the primitive text-based readers we grew up with before
all the AOLers started showing up with.

BTW, that snow I had to walk through, to school? It was in
South Louisiana--and since it practically never freezes there,
it was one UGLY snow to have to walk through! ;-) 73!

John: Sorry for the trouble. I was informed of this last night and
re-submitted my addresses and a note this afternoon. if you will look
for the new post, I included only the URLs for both pages, eliminating
the links.

I apologize again, and since I am new to this environment, I assumed (I
know) that everyone saw what I saw.

Thanks again and I appreciate your help....BTW, the egg lesson was
great, but the snow job is gettin deep....hi hi

I'm looking for manuals on the HP-1630/1631 logic analyzer. I have a 1630D which I want to control from a PC over HPIB, but without the manuals I don't know how.

I'm also interested in any preprocessors, inverse assemblers, or other accessories.

Thanks!
Eric Smith

==========
Terms are as follows:

All items are for sale AS-IS, all sales FINAL. Please feel free to make an alternative offer. I reserve the right to decline any offer.
Payment is prepay (personal cheque OK) or COD by certified funds.

For more information, contact: Christopher Edmonds - edmondsc@fiu.edu
==========
Motorola Radios & Accessories (see below for more info)

$400 shipped for the lot

qty 1 HT50 154.6 MHz
qty 4 HT90 154.6 MHz
qty 3 HT90 154.57 MHz
qty 1 HT50 154.6 MHz (spkr & mic missing from faceplate)
qty 1 HT50 154.6 MHz (top is cracked up, spkr but no mic)
qty 1 HT90 154.6 MHz (spkr & mic missing from faceplate)
qty 2 HT90 shells (body only, no faceplate) one new in plastic, one used

qty 1 NTN4864B charger
qty 6 NLN7646A charger
qty 6 NTN4864A charger

qty 14 NLN7434A & similar batteries
qty 1 NTN5453A battery

qty 13 BNC whip antennas various lengths
qty 1 HT50 screw in antenna

I would like to sell all this together if possible. The chargers are in decent cosmetic shape, some have marker writing on the front. The radios are somewhat more beat up. All of the radios were used for data transmission, all have had the accessory jack removed. Some have a short coiled cord with a strange connector in place of the jack, some have nothing at all here. I have tried most of them, however, and they all seem to function anyway. The condition of most of the batteries is unknown; I charged up a few to test the radios, that's it. Because of the condition of this equipment, I offer no guarantees on it.
==========
HP 1222A Oscilloscope $100 OBO + shippping

Not working, possible problem with sweep generator. When you press the beam find button, you can see the beam sitting there in the

middle.

I am looking at options for my 1st HF rig. Cost is a high concern at this point. I am not opposed to used equipment.

I've heard that Ten-Tec makes good stuff.

I would welcome any feedback on this transceiver:

Ten-Tec Model no. 555 SCOUT TRANSCEIVER

Thanks

FOR SALE:

Nearly complete Hustler Antenna Set for mobile or base use and Belden 9913 coax.

Hustler Package Includes:

RM model resonators for 80, 75, 40, 30, 20, 17, 15, 12 & 10 meters (the 400 watt models) The resonators are in excellent condition - most don't show any wear at all. No thread wear on any of the resonators.

Hustler MO-2 foldover 54" mast for bumper mounting. Shows slight cosmetic wear, but threads are not worn at all.

Hustler MO-3 fiberglass coated 54" mobile mast. Shows no wear - threads are in mint condition. Only used at apartment for a few days.

Hustler SSM-3 Spring for mobile use. Spring never used.

I also have a mast mount for base operations as well.

Current retail: well over $250. Selling entire package for $175 + shipping cost. That's 30+% off new!!

ALSO selling 75' of Belden 9913 never used (has no connectors) for $35 + ship. (current cost: $50!)

For more info please e-mail me.

55 Foot, 3 Section Heavy Duty Galvanized Crank-Up Antenna Tower.
Cable fairly new but pulleys probably need replacing. Minor surface
rust only at base. Purchased used last year but never put up. Tower
is located in Cape Coral Florida which is on the SW Coast. This tower
is approx 24' long in it's down position and weighs about 250-300
pounds. First $175.00 CASH (FIRM) takes it away. Don't miss this
one.   Please e-mail me with any questions you might have about this
tower.

mrymer@peganet.com

Thanks,
Mike

If your have ever thought about getting into Amateur Television or just wonder
what it is all about then you need to check out my ATV web site at:

http://www.qsl.net/wb6izg

ATV is the least understood of all Ham activities and all it requires is a
no-code Ham license. It is also not as expensive as you might think. Check it
out.

73,

Bruce Forsberg WB6IZG

LET'S SWAP boatanchors and/or parts!!

I am a ham hobbyist, NOT a dealer. I do this for fun,
not an investment!

I have a few things to sell/trade these days:

(Add shipping costs to all prices)

Vibroplex Presentation Bug - mint - $135.00

Eldico TR-75 transmitter. Classic 75m CW novice rig
with 6AG7-1625 line-up. Plug-in coils for 75m as supplied.
Originally used link coupling. Modified to pi-network, but
easily restored if you prefer. WIth manual, and in near-mint
condition, with covers. $95.00 plus shipping

B & K Model 701 Balun for 15 meters. 75 ohms to 100 ohms balanced.
Coaxial I/O to balanced I/O. Excellent $20.00

QTY 2 - mobile Approx 1945-era Motorola "Police Cruiser"
radio receivers; antiques, with 12K7 tubes and such.
No speakers. No manual or information. Great piece of radio
history! $20.00 each

James Millen Co. Model 90810 Transmitter - a CLASSIC!
This is a SERIOUS collectors' MUSEUM PIECE!!
11m, 10m, 6m, 2m bands with 3E29 final. EXCELLENT condition.
What a beauty. Copper plated chassis, Many refinements.
Inquire!

Hy-Gain mobile antenna / resonator for 80 meters. $10.00

Two BAKELITE clock radios as follows:

G.E. Model 535 (Uses the 12BA6, 35W4 tubes etc.)
Appearance good - untested - $15.00

G.E. Musaphonic, model 590 - with phono input etc.
Superheterodyne, uses 12AU6, 12AV6 tubes etc.
Appearance good - untested - $15.00

Tubes:
6GF7A - NIB
12AT7 Westinghouse NIB
12AY7 G.E. NIB
12AU7A by IEC NIB (I have two)
6GH8A Magnavox NIB
12AX7 RCA used (in box)
12AU7A Dumont - used (in box)
12AT7 Sylvania NIB
12AX7A RCA NIB (I have a few of these)
12AT7 RCA NIB (I have a few of these)
7025 RCA exc. used (in box) (I have 2)
12AT7WC ruggedized for JAN by Philips/ECG NIB
42KN6 Sweep tube, RCA used (in box)

Cornell Dubilier 2uF 3000V DC Oil-filled capacitor.
Other oil-filled HV capacitors available, inquire.

Lenox AM/FM radio digital clock radio (new)

A very LARGE 120V isolation transformer - about 1.5 kva
with taps, fuse panel etc. You figure out connections!
47 lbs shipping $50.00

MEMORY! Add 4 MB RAM to your IBM PS/2 computer!
4 MB 72-pin SIMM for IBM Proprietary MB - $15.00

Toshiba 4X CD-ROM drive XM5302B, untested - looks fine
With cable - $25.00

TEAC 4X CD-ROM drive CD-55A, untested - looks fine
With cable - $25.00

U.S Robotics WINMODEM 14.4 kB Internal modem with all docs,
diskette AND CD-ROM! For Windows 3.1 or WIN 95 only.
New, VERY nice - $20.00

Printer A-B Switch - New, with standard 37-pin Centronics Connectors.
Nice beige metal mini-cabinet. $7.00 each (have two)

16-bit sound card for ISA buss (PC compatible) computer

systems. Has IDE CD-ROM ports & cables. Mike input and
speaker outputs. Tested: Excellent. $15.00

Integrated Circuits:
339   14-pin QUAD Comparator
D8202A 40-pin
D8212 24-pin (I have 2)
P8155 24-pin
P8085AH (two)
MM53214GQK/N (20-A4592-026) 40 pin
30293E-026 (20-A4592-026) 40 pin
SY6545-1 40-pin
R6551P
D-2732A-2 EPROM (I have 1)
D-2732A-3 EPROM (I have 4)
27C64-G-15 EPROM (I have 3)
27C64-30   EPROM (I have 3)
D2764A-3
SRM2064C15 Dynamic RAM (I have 7)

I also have several linear and TTL/CMOS smaller
14 and 16-pin DIP chips. Inquire.

Bass Guitar - by Washburn - copy of Fender Jazz Bass. VERY nice.
Sunburst color, two pick-ups. MINT condition. Worth about $220.00

Acoustic guitar, Spanish - superior quality. Emperador
Model TC-80 made in Korea. With carrying case Truly a beautiful
instrument, and has to be worth at least $100-120

WHAT DO YOU HAVE??
MAKE ME AN OFFER!!

E-mail me please at:
bry@mnsinc.com
==
I need:

Radiotron Handbook, 3rd of 4th Edition OK.

DRake TR6 or other 6 meter gear.
R390, R390-A receiver or similar.
R-1155 receiver.
T-1154 transmitter.
AR-88 receiver or similar.
R-109 receiver from Britain post-WW2 era.
AN-GRC-109 transmitter.

949 Tube socket Adapter kit for I-177B tube tester

ANY BOOKS from 1930-1970 about ham radio construction.

Tube manuals, etc.

* EARLY "Radio" magazines from California 1930s.

* OLD 73 magazines from the first few years.

* OLD Lafayette Catalogs

(These three above (*) are for a friend G3UUR)

QTY of TWO or FOUR: 6-pin sockets for 1625 tubes
QTY of TWO or FOUR: 5-pin sockets for 807 tubes
QTY of TWO or FOUR: 4-pin Bayonet sockets
807 tubes
811A tubes
828 tubes
572B or similar tubes

1 watt and 2 watt resistors

FT-243 (or other holders) crystals for 1800-2000, 3500 - 3750 kHz,
3880, 3885 & 7000 - 7150 kHz, 7290, 7295 & 8400 kHz

PL-259 / SO-239 connectors

Capacitors: MICA, MYLAR, Electrolytic etc.

Variable caps & trimmers

Any useful AF/RF tubes...

Audio transformers.
Driver/Interstage transformers, Single-ended
and P-P Output transformers

6BR5 (same as EM80)
1614
7984
6GK6
6973
6146A
6146B (need several)
5R4GY
6DE7
6CL6
811A

Any old sweep tube linear amp. - dead or alive.

FT243 crystals for 8400 kHz

SO-239 and PL-259 connectors

Viking Valiant

Ranger II

Any good straight key.

I would like to swap for any of the above items.

WHAT DO YOU HAVE??

FOR SALE:

Almost complete Hustler Antenna Set for mobile or base use and Belden 9913
coax.

Hustler Package Includes:

RM model resonators for 80, 75, 40, 30, 20, 17, 15, 12 & 10 meters (the
400 watt models) The resonators are in excellent condition - most don't

show any wear at all. No thread wear on any of the resonators.

Hustler MO-2 foldover 54" mast for bumper mounting. Shows slight cosmetic wear, but threads are not worn at all.

Hustler MO-3 fiberglass coated 54" mobile mast. Shows no wear - threads are in mint condition. Only used at apartment for a few days.

Hustler SSM-3 Spring for mobile use. Spring never used.

I also have a mast mount for base operations as well.

Current retail: over $250. Selling entire package for $175 + shipping cost. That's 30+% off new!!

ALSO selling 75' of Belden 9913 never used (has no connectors) for $35 + ship. (current cost: $50!) If you purchase the Hustler set, I'll sell the coax to you for only $25!!

For more info please e-mail me. I have sold other components from my base & mobile set-up and this remains for purchase.

A friend, VE5CMK Claude, is looking for a service manual or atleast a
schematic for his Philips PM3230 oscilloscope. I imagine he'd probably
be interested in a operators manual too....As he's not on the 'net,
please email me with your comments/info.

Scott,

I found a good deal on one a couple of years ago and bought it as a
"backup". I shortly sold my 735, and have never looked back. I do not
miss the features that the 725 is short, and find it to be the most
useable and hardy rig I've ever owned.

A few "tuneups" are in order if you get an unmodified one, specifically
the diodes used in the IF conversion should be replaced with slightly
more expensive ones than Icom put in to start with (the information on
these mods are available several places). I also bought one for my dad,
and he seems to like it too now.

Hope it helps,

Ron, N7TAW

FOR SALE:

Almost complete Hustler Antenna Set for mobile or base use.

Hustler Package Includes:

RM model resonators for 80, 75, 40, 30, 20, 17, 15, 12 & 10 meters (the 400 watt models) The resonators are in excellent condition - most don't show any wear at all. No thread wear on any of the resonators.

Hustler MO-2 foldover 54" mast for bumper mounting. Shows slight cosmetic wear, but threads are not worn at all.

Hustler MO-3 fiberglass coated 54" mobile mast. Shows no wear - threads are in mint condition. Only used at apartment for a few days.

Hustler SSM-3 Spring for mobile use. Spring never used.

I also have a mast mount for base operations as well.

Current retail: over $250. Selling entire package for $175 + shipping cost. That's 30+% off new!!

For more info please e-mail me. I have sold other components from my base & mobile set-up and this remains for purchase.

forsale,tx.forsale

Kenwood TH-78A with regular charger, 5 watt battery, long life battery, and
regular battery. Also included is a 12 volt DC cord, a speaker and mic
which make the talkie into a base station. This is a later version of the
TH-78A. Book and box included. The radio is in good working order and
very clean condition. Frequency expansion has been done for MARS, CAP and
beyond. Asking $250 plus shipping included. Contact Anthony
at wb5tty@vvm.com . 73 de WB5TTY

It is a pretty good rig for the money (usually less than $600 used) I have used mine for about 4 years both at home and as a mobile. You can expect to get more power output than specified (mine runs in the 125 - 140 watt class on most bands) I chose the 250 cycle CW filter for mine and it works great, but in retrospect I wish I had the 500 cycle filter and sometimes the 250 is too narrow. I have had zero problems with mine. Like Ron, I got this a few years after haveing the 735. Unlike Ron, I wish I had the passband tuning and and notch filter (hi). I think that the receiver on the 725 is a bit better than the 735 overall though and seems to be more sensitive in the 10 meter area. I do not know if you can still buy the AM/FM board for it.
All in all a nice little (literally) radio.

Hello all,

I am looking to purchase a Uniden HR2510 or HR2600. Must be in VERY good condition and have a manual.

I am also searching for a manual for a Realistic HTX100 transceiver, or at the very least the pinouts for the microphone plug.

Thanks for reading & 73,
Tim

Mr. President -
     I confess that I do not entirely approve of this Constitution at present, but

Sir, I am not sure that I will never approve it: for having lived long, I have experienced many instances of being obliged by better information or fuller consideration, to change opinions even on important subjects, which I once thought right, but found to be otherwise....
....In these sentiments, Sir, I agree to this Constitution,with all its faults, if they are such; because I think a general government necessary for us, and there is no form of goverment but what may be a blessing to the people if well administered; and I believe further that this is likely to be well administered for a course of years, and can only end in depotism as other forms of have done before it, when the people shall become so corrupted as to need despotic government....

Benjamin Franklin

FOR SALE:

Almost complete Hustler Antenna Set for mobile or base use.

Hustler Package Includes:

RM model resonators for 80, 75, 40, 30, 20, 17, 15, 12 & 10 meters (the 400 watt models) The resonators are in excellent condition - most don't show any wear at all. No thread wear on any of the resonators.

Hustler MO-2 foldover 54" mast for bumper mounting. Shows slight cosmetic wear, but threads are not worn at all.

Hustler MO-3 fiberglass coated 54" mobile mast. Shows no wear - threads are in mint condition. Only used at apartment for a few days.

Hustler SSM-3 Spring for mobile use. Spring never used.

I also have a mast mount for base operations as well.

Current retail: over $250. Selling entire package for $175 + shipping cost. That's 30+% off new!!

For more info please e-mail me. I have sold other components from my base & mobile set-up and this remains for purchase.

I'm guessing the $175 is a typo for this old unit. The last 2 units seen like this went for $65 and $75 respectively at hamfests and had the rapid chargers with them too. Since $175 would buy you a recent model used HT with 100 memories or more, Please tell me this is a typo.

POSTED FOR*** DAVE- KA1DPW*** SEND E-MAIL TO: ka1dpw@erols.com

Ham Radio/Test Equipment:
Palomar Engineers PFS-1 Field Strength Meter. Covers 1.8 to 150 MHz. Tuned input circuit removed out-of-band signals.Has a 20 dB gain amp to further improve sensitivity. Gain measured with a panel meter to better than .2 dB. Has a 30 dB attenuator with 5 dB steps. With instructions. Never used. $130

Ham Radio: A&A Engineering 30 meter QRP CW rig. 5 Watt, single conversion receiver, AGC, VFO tuning, CW sidetone with built-in speaker and S-meter. Built, calibrated, and tested by owner of A&A for QST review. W/manual. Never used. $100

Test Equipment: Beckman CAPT-6: Wide range capacitor and component tester. Measures capacitance from the pico farad range to 20,000 microfarads. Measures resistance to 20 megohms, transistor hFE and leakage, plus tests batteries under load conditions, diodes, LEDs. Has leads and manual, never used. $50

Scanner/Test Equipment: Optoelectronics Scout. Measures and record up to 400 unique frequencies to memory along with up to 255 hits per frequency. Recorded frequencies can be viewed on LCD display or downloaded to a computer(has the needed software on a 3.5" disk). Display is backlit and has a bargraph S-meter. Beeps when aquiring a new frequency or hits. Also has silent pager-like vibrate mode. Can directly reaction-tune various scanners to its captured frequency. With belt-clip, ni-cad pack, charger, VHF & UHF antennas, and manual. Used a few times. $300 SEND E-MAIL - ka1dpw@erols.com

Hi, I've got for sale on Ebay's Auction Web a:
Antique Majestic AM/Police Tube Radio, Model 666, 6 Tube: 2/ G-58-S,
G-2A7-S, G-80, G-55-S, G-2A5. Frequency coverage is the AM Band,
with a Police band at the top end of the AM band. Dimensions 38"
Tall, 10 1/2" Deep, 19 1/2" Wide, 12" speaker. The case is in sound
restorable condition, although, I think there is a piece missing that
would sit on top, and is decorative. The fabric covering the speaker
area is thinning on one side, one knob on the side is missing.
40 lbs S&H, please e-mail me your zip code for accurate shipping
costs. Thanks for your time. It's URL is:
http:www2.ebay.com/aw/itemfast.cgi?item=agk87201
e-mail: in717@cleveland.freenet.edu

Really, WOW, I was looking for one to work satellites, with a reversing
transponder that would really put a crink in my operations!

I have some ham equipment that I don't use anymore, and I need to get
some quick cash. All of the listed equipment is in very good condition.

1 Heathkit hw 101 10 - 80 meter tranceiver. 100 watts. With matching
power supply. This is an excellent radio that has always performed well.
 It is in excellent cosmetic and operating shape. Best Offer.
    Great
beginners radio (it was my first).

1 Palomar 10,15,20,40 meter .5 kilowatt amplifier. Works great. With
matching power supply. Best offer.

1 wartime antenna tuner(?). New condition. Don't know the vintage of
this thing... I have tried to find out several times. I don't have the
model numbers in front of me, but if anyone is interested let me know,
and I will send them to you. Also I have some meters (swr, power etc)
that I will throw in if you buy something.

I really need to sell these things as soon as possible. I will take any *reasonable offer.

thanks

nate

Zenith 7000 C/Ku Satellite Receiver For Sale

This is a great unit, and includes UHF remote and MODULE!!!

Just moved to development where BUDs are not allowed, so I still have
the receiver (didn't take the dish with me from the old place).

Will sell right now for $350 (that's nearly the cost of the module
alone!)

When replying to this message, please send e-mail directly, BUT, you must first remove the *NOSPAN* from my e-mail address above. I'm tired of learning how to earn $50,000 in a month! :)

I need information on an Alliance HD-73. I bought one a couple weeks ago, but the previous owner was unablt to locate the paperwork. If you have a manual, I'd be glad to pay for a copy. But I really need to know a few things:

What is it worth? (Did I get ripped off?)

What are the specifications of the rotor?
Maximum weight, wind load, torque, etc.

I MAY be putting this thing under my HF antenna this weekend and would certainly appreciate it if I can avoid making a mistake.

Greg N8JMS

--
Replying to this message WILL NOT WORK. Remove "*NOSPAM*" from the address above if you wish to send e-mail.

Greg

From the HD-73 Owner's Manual:

The HD-73-1 has the heaviest pitch gear teeth (steel hardened) of any rotator in its size and price range.

The HD-73-1 control unit features TWO-SPEED rotation with one five-position switch. This presents a one revolution per minute speed for rotating over an extended are and a slower speed for adjustment of, say, several degrees one way or the other for fine adjustments for the best signal on receiving and transmitting.

The rotator not only has a readily accessible externally located fuse for total unit protection, it also has an internally mounted automatic reset thermal protector for the motor and transformer against shorts or possible connection error or prolonged operation.

A large, back-illuminated 3 1/2" Jewell D'Arsonval, Taut Band, linear, full scale 100[illegible] swing, meter is calibrated in bold S-W-N-E-S as well as a degree-graduated scale.

The meter direction indicating voltage supply is solid state voltage regulated for meter indication accuracy regardless of wide line voltage or load variation; the regulating range is 105 to 129 volts.

The HD-73-1 rotor was designed to operate antennas with a maximum of 10.7 square feet of wind load area when properly installed.

Diameter of rotator unit -- 8".
Mast mounting size range -- 1-3/8" O.D. to 2-1/2" O.D.
Mounting option -- in tower (preferred), or on tower or mast.
Cable -- 6 conductor.
Voltage input -- 117 volts A.C., 60 hertz, + 12 volts.
Rotator weight (bare) -- 6-3/4 lbs.
Rotator with 1 pair antenna brackets -- 9-1/8 lbs.
Rotator with 2 pair brackets -- 11-1/2 lbs.
Shipping weight -- 17 lbs.
Rotator speed -- Dual -- 1 R.P.M. and a pinpoint slower speed.

Motor -- capacitor split phase, reversible. Motor voltage -- 20 volts A.C. No voltage on motor or leads exceeds U.L. safety limits.
Transformer, power -- Double protected -- fuse and thermal protectors.
Meter -- D.C. D'Arsonval, taut band. Meter scale -- S.W.N.E.S. and degree scale.

WIND LOAD INFORMATION

Severe installation and duty requirements are placed upon antenna rotors and supports by communication antenna arrays. The factors involved in such installations have been under investigation for many years to determine the effect of such requirements on antenna rotators, and how to design and manufacture rotators that will support and operate antennas under the very adverse conditions that exist in some localities. These locations are not only those of high wind velocity but also those of additional ice loading and severe conditions that exist during periods of blizzard and peak gusts of wind that occur in many areas.

The Unites States Weather Bureau furnished fastest mile per hour velocity figures from many recording stations around the United States. Measurements have been made of the relationship of gusts for fastest miles per hour data by the Bureau showing that gusts exceed fastest wind velocity data generally by 30%.

As a result of the above, the Electronic Industry Association (EIA) has recommended a wind loading standard of 30#/sq. ft. of projected surface for the purpose of design by United States manufacturers. This corresponds to a wind velocity of 110 mph. The use of this standard in design procedures will consistently yield products better able to withstand successfully most prevailing wind conditions in the U.S.A.

This brings us to the subject of Bending Moment, also called Side Thrust Overturning. Wind loading or wind pressure acting on an antenna, rotator and tower are essentially the same as those acting on buildings, water towers and other structures. Wind loading is by far the most critical and severe item to be considered for antennas, rotators and tower life. A typical 3 element vertical C.B. antenna creates a bending moment of 1700 lb. ft. and necessitates in-tower mounting. Other C.B. antennas are vertically polarized and can exceed these values.

The radio is only 4 Months old and in GREAT condition. Still have box,
cables and mounting bracket. This radio has been moded for out of band TX
and will recieve the 900 Mhz cordless/ ham band which is now blocked on
newer ft8000 and ft8100. Cellular is still blocked and I know of no mod for
this. Will recieve 110Mhz (AM) ~ 550Mhz /
                                                    750Mhz~1330Mhz.

there is a difference between "pirate" radio and low power legal
transmitting.

i'm sure that others will post the correct fcc guidlines for legal
transmitting in the broadcast bands so i won't go into it.

you can get either an fm or am broadcast band transmitter kit from
Ramsey Electronics.

inexpensive and within the legal limits.

Subject: F.S. NEW UHF DUPLEXERS
Date: 1997/07/20
Message-ID: <33d27be7.808990@news.dxnet.com>#1/1
X-Deja-AN: 257792556

Distribution: world
Organization: yes
Reply-To: 5doc@dxnet.com
Newsgroups: rec.ham-radio.swap,rec.radio.swap,rec.radio.amature.equipment

These Duplexers are manufactured by Cellwave. Each Duplexer is new and is the "Six-Pack" type. Each tunes from 440MHz thru 470MHz with no problem. The Duplexers are designed for UHF-Repeater, Duplexed UHF Base or Duplexed Mobile Radios.

The Duplexers have three precision cavities for the receiver and three precision cavities for the transmitter on the same frame. Some have a Round while label with a red leaf and the word "CANADA" on them, indicating export to Canada is approved.

The Duplexers are rated at 50 watts continuous duty and 75 watts intermittent. Each connector is identified, but there is no mfg. label on the Duplexer(s) themselves.

Duplexers are flat black, 9" Long, 6" Wide, 1 1/2" Tall and weight 2 lbs.

CONNECTORS: TX Port= Type "N", Rx Port = BNC, ANT. Port = SO239 (SO239 is the mate to the standard PL259 connector). All connectors are the preferred *Teflon type, silver.

These Duplexers are "perfect" for repeater use. These are OEM Duplexers and are used in Telemobile, EF Johnson, Pace and many other Repeaters and UHF duplexed operations.

Telemobile Repeater specs are as follows (sorry, these are the only technical specs. I can offer):

Transmitter spurs >70bd below carrier and 5MHz split, duplexed.
Receiver selectivity 70db @ 30 khz
Image Rejection 75db
Spurious Rejection & Harmonic Rejection 80db typical

Now I DO realize that these ARE the Repeater specs, but the Repeater could never attain these specs without a good Duplexer! I've used this same Duplexer for almost seven years now in a Repeater on a "high profile" mountain top here in Los Angeles with no problems at all.

The $150 price includes U.S. Priority Mail Shipping and Insurance. If it's possible, I ship the same day. USPO Money Order, Money Order or Certified Bank Check are prefered but business/personal checks are accepted. I will ship as soon as your check clears the bank.

Again, please respond by EMAIL rather than via the Newsgroups!

Thanks!
Tony

Hello all:

We'd like to invite you to visit a couple new Web Sites, dedicated to
Amateur Radio.

The first, The KB8TNQ Ultimate Amateur Radio Page! is a great source
for items of Ham interest. With links to a variety of other Ham Pages,
as well as a weekly update with a "Site O' the Week" and Weather-Related
Sites, you'll enjoy this one.

And the second, The Central Michigan Amateur Radio Club Web Site is
mostly about the club itself. However, a new page, the "Trader's Page",
is something we are starting to get some interest in. If you have ham
gear to sell and want a FREE place to list it, this is the place!

7-3 and we look forward to seeing you soon,
Jim (KB8TNQ)

If you have either of these radios for parts please let me know. I am
particularly interested in the control head as mine got stolen.

I have a ham friend who purchased the following in March 1996 and now
wants to sell as a package. IE, no piece meal.

Tri-Band Yagi (10-15-20M) 3 el., 12'	Hygain TH3JRS	$289.95
Balun 80-10m	Hygain BN-86	$ 36.95
Mast 9' Steel	Glen Martin M-1049	$ 58.95

Thrust Bearing	Glen Martin TB-25	$ 89.95
Tower 8' Roof (good for 8 Sq. Ft of ant)	Glen Martin RT-832	$229.95
Rotator (10SF)	Yaesu G-450XL	$239.95
Coax 100' RG-8 foam	Belden 8214	$ 54.95
Rotator Cable 8 cond.	Belden 8448	$ 24.95

Cost when bought new = $1,025.60

Wants $700 for the lot. Will give $100 discount if the buyer will help take it down.

Jerry

Yeah, but why don't you save the time and just post the site? Maybe I
just want to save the URL and look at it later.

Common tubes for about 1/3 of new. My list has some 50K tubes on it,
while some additional 100K are not cataloged yet. Tubes are sold as
USED, Tested, with 30 day warranty and shipment on approval. Email me
for large list (300 K-Bytes). Occasional sweep, audio and transmitting
tubes. E-Mail me for wants as well.

Sales over the last 5 years has proven quality, I stand behind each and
every sale.

I have a pair of 8252/4PR60B made by United Electronics Co. Glass color
shows they are used, but they look good. Filament good.

$90/pair+shipping. Will ship on approval. Domestic address only.

Sorry but I can't see any "WEB SITE" names, just "EMail" addresses,,,

Again,,, "Where are they"??

Bob.

Terms are as follows:

All items are for sale AS-IS, all sales FINAL. Please feel free to make an alternative offer. I reserve the right to decline any offer. You can pay me in advance; when I receive your payment (personal cheque is OK), I ship to you. COD is fine also.

For more information, contact: Christopher Edmonds - edmondsc@fiu.edu
==========
Motorola Radios & Accessories (see below for more info)

$400 shipped for the lot

qty 1 HT50 154.6 MHz
qty 4 HT90 154.6 MHz
qty 3 HT90 154.57 MHz
several partially assembled HT90s and HT50s

qty 1 NTN4864B charger
qty 6 NLN7646A charger
qty 6 NTN4864A charger

qty 14 NLN7434A & similar batteries
qty 1 NTN5453A battery

qty 13 BNC whip antennas various lengths
qty 1 HT50 screw in antenna

I would like to sell all this together if possible. The chargers are in decent cosmetic shape, some have marker writing on the front. The radios are somewhat more beat up. All of the radios were used for data transmission, all have had the accessory jack removed. Some have a short coiled cord with a strange connector in place of the jack, some have nothing at all here. I have tried most of them, however, and they all seem to function anyway. The condition of most of the batteries is unknown; I charged up a few to test the radios, that's it. Because of the condition of this equipment, I offer no guarantees on it.
==========
HP 1222A Oscilloscope $100 OBO + shippping

    Not working, possible problem with sweep generator. When you press the beam find button, you can see the beam sitting there in the middle.

WANTED:

My father is filing a 610-V to get his original callsign back. The FCC has
been dragging thier feet with this one. They tell me if it gets denied
that he can re-file with some sort of proof that he once held that call. I
need to get a copy of a page from a 1957 or 1958 callbook that lists:

K8BDB as Edward L. Kopp in New Philadelphia, OH. I already have a copy of
him as KN8BDB, but K8BDB is the call he wants.

If it's something you can scan and send to me, that would be great. Or yo
can send it via US Postal Service to:

Greg Kopp KG8O
12508 Bangor Avenue
Garfield Heights, Ohio 44125

I would be glad to pay the cost of copying and postage.

Greg KG8O

Wasn't the first unit listed an Exec I (not the Exec II) that used tubes for the driver and final (rest of the radio is solid state)? I used to have RG56TAS66 models on high band that were Exec I units (from the mid to late 60s I think).

John,

These things definately have tube finals, but the club has lots of
spares and they aren't interested in replacing the rigs at this time.

The stamps on one of the boards shows a "built" date of Dec, '72, so
you're in the right ballpark.

If you happen to have any of that old literature laying around, it would
be greatly appreciated.

Thanks again,

Ron, N7TAW

Hello
   Do you have soom equipment for sale.Well when you post a Forsale
message on this newsgroup you can now send a picture too the person
that would like to buy your equipment.This will allow him to see what
you have for sale and what kind of shape it is in before you send it
to him.
   How can you do this.Simple.Just take a picture of the equipment you
have forsale and send it to me by snail mail.Inclued your e-mail
address and 50 cents.When I get your picture I will scan it and send
it back to you by e-mail.
   Heres the address

I have a little used Kenwood TH-28 144 MHz handheld for sale. It has one standard battery, two extended time high capacity batteries, an alkaline "AA" cell holder, all other original parts and the original manual. This radio also has the expanded memory module for increased storage. I will also include a Master Charger I with the cup for this radio. Excellent condition, very little transmitting, mostly receiving. This radio is currently for sale at most amateur stores and the total price for the included parts would be over $500. Asking only $300 includes insured shipping in the lower 48 states. Buyer prepays with money order or we can use trade-direct (5% fee to buyer, see http://www.trade-direct.com for more information) Resonable offers considered.

I have a Ten-Tec Argonaut 509 with both the matching power supply and the electronic keyer they sold for it for sale. Includes all manuals and original parts. This was my first radio that my father purchased for me new from a local electronics store when I got my ticket around 1976. Excellent condition, it is a very nice radio but I don't use it much anymore. The electronic keyer, while sold as a unit for the Argonaut, is all black unlike the radio and power supply which are off white with wood grain trim. Asking $375 which includes insured shipping in the lower 48 states. Buyer prepays with money order or we can use trade-direct (5% fee to buyer, see http://www.trade-direct.com for more information) Resonable offers considered.

(ObHack - okay, a weak one since I just wanted to post this for sale notice - When making custom interface connections such as those used by an HP48 or a Fluke97, I used to use Epoxy poured onto a form mold. Not any more. Look into Crayola "Magic modeling clay"! The stuff dries firm, yet flexible, and seals bunches of little connecting wires in place with no goop on the host piece of electronics.)

An electronic parts bonanza. Only nine bucks or less!

Computerized, digital, multi-line units to use as-is, or strip for parts! They're Eagle Telephones, each with the following, plus more.

- DC-to-DC power supply convertor on an Astec daughter card, 2.5"x 1.5".
- Epoxy encapsulated magnetic reed-switch (and the magnet -- in the handset).
- 12-button high-quality feel phone pad, about 2"x 3", with 8-wire flat ribbon cable/connectors.
- 2" diameter, 8-ohm speaker
- Bunch of ICs: CD4081, HCF4069, 2x HCF4066, LS404CB, 2x ULN2003A, 2x ULN2032, SN75176, AMI 8948 (programmed 8048?), LM386
- 3.579575 MHz crystal
- 1.5" x 7" 20 push-button selector panel. Each button has two colored LEDs and room to insert a small paper label. 34-wire ribbon cable/connectors.
- 4-digit LED display, with ":" and decimals built onto the display
- One 4-pin, and two 6-pin J-connectors (telephone connectors, often used on computer network cables, too).
- 8 position DIP switch
- Two 10k-ohm dial pots
- Beige enclosure, handset, and connecting cord.

I'll sell these for $9 + shipping, prepaid. Check exact shipping
costs with the UPS web site cost calculator (my ZIP is 80840):
http://www.ups.com/using/services/rave/rate.html.

 I have a number of used police radar guns available for sale. Both hand
 held and two piece, X and K Band, moving and stationary. These can be
                                  used
  for baseballs and other sports, snowmobiles, cars, watercraft and law
                              enforcement.
 For a list of the models I currently have available, send me a E Mail

for
a prompt reply.
Thanks,
Mark Hartman

I am looking for a dual-port UHF Isolator (or Circulator).

As an alternative, I could pull the isolator out of 2 Motorola
Micor mobiles, so if you have a few that may be basket-cases,
or maybe incomplete/non-working, please email me at:
     mark.mcclain@mci.com

Tks,

Mark:

How much power does this isolator have to absorb, say if the antenna shorted or opened. Let me know and maybe I can help.

Jon

Hello everyone,

I've need of capital for my business, so am selling above listed unit, comes with two high power battery packs, fast charger, rubber duck, belt clip.
Quite a nice unit, actually. Less than a year old.
Great dual band ht, 20 memories per band, ctcss and dtmf encode plus ctcss decode. Out of band rx and tx if you do the mod. Not modified presently for out of band tx.

Asking $300 obo. Shipping not included. Email me here or call (319) 758-0427 evenings central
time.

73.

I have a Ten-Tec Argonaut 509 with both the matching power supply and the electronic keyer they sold for it for sale. Includes all manuals and original parts. This was my first radio that my father purchased for me new from a local electronics store when I got my ticket around 1976. Excellent condition, it is a very nice radio but I don't use it much anymore. The electronic keyer, while sold as a unit for the Argonaut, is all black unlike the radio and power supply which are off white with wood grain trim. Asking $375 which includes insured shipping in the lower 48 states. Buyer prepays with money order or we can use trade-direct (5% fee to buyer, see http://www.trade-direct.com for more information) Resonable offers considered.

I have a little used Kenwood TH-28 144 MHz handheld for sale. It has one standard battery, two extended time high capacity batteries, an alkaline "AA" cell holder, all other original parts and the original manual. This radio also has the expanded memory module for increased storage. I will also include a Master Charger I with the cup for this radio. Excellent condition, very little transmitting, mostly receiving. This radio is currently for sale at most amateur stores and the total price for the included parts would be over $500. Asking only $300 includes insured shipping in the lower 48 states. Buyer prepays with money order or we can use trade-direct (5% fee to buyer, see http://www.trade-direct.com for more information) Resonable offers considered.

I wish to buy a manual Vibroplex Bug and would prefer the Presentation/De-Luxe Original bug key with a New York address plate. That's the chromed manual key with the jewelled bearings.

This is for use and not for collecting. Key must be complete and in good working order so I would prefer to buy from a user who knows that the key is okay. Carry case also sought but not essential.

I have forsale a 2 month old Yaesu FT50RD dualband ht. It comes with a
Premeir SPM-102 speaker mic and softcase from "The Pouch".
No mods have been done and its seen maybe 20 hours of use.
I am selling for $285.00 and i will ship.

If you have a JC Penney outlet store nearby, you can get a real
bargain on these scanners. I've seen several in the store in Atlanta
going for between $129 and $149.

Antenna System For Sale

Moving to restricted subdivision on Fla. sea shore in late July/early August. The system will come down during the next three weeks.

Antenna system consists of:

1. 80' motorized aluminum crank up tower by Heights Towers. Legs are 1 3/4" thick wall hardened aluminum pipe, and cross bracing is 5/8" soid aluminun. This is an extreme duty TWO section triangular tower, which easilly withstood huricane Andrew. Bottom section is 36" per side at the base, and 30" at the top (48'high). The top section is 24" per side and is 32' high. This is a stand alone tower (no guys) and is motorized with an electric winch and stainles steel cable. All hardware is stainless steel. Total weight is approx. 650 lbs. Original cost was $6,100.00 in '92. It remains in perfect condition. The base which is buried in 8 cu/yds of reinforced concrete (and obviously stays) is simply three 7' X 1 3/4" stainless steel pipes the tops of which protrude 9" out of the concrete. The 3 legs of the tower bolt (2 bolts each) to 1/2" thick stainless steel plates which are welded to opposite sides of the tops of the pipes. This would be very easy to fabricate (as opposed to spending $400 from the factory as I did.) Price now:...$3,000.00

2. KLM KTX34A tri-band beam (5 el on 20m, 5 el on 15m, and 6 el on 10m) 3 years old (had a mosely pro67b up
for year and a half, but didnt like the performance.) This is a big antenna, but it's a pileup killer. New...$740.00 Price now:...$500.00

3. Cushcraft 40-2CD 2 element 40 meter beam...2 1/2 years old. Have 226 contries confirmed on 40 since I put it up. New...$450.00 Price now:...$300.00

4. Yaesu G-1000SDX variable speed rotor with 12' of heavy wall aluminum mast.   New...$520.00
    Price now:...$300.00

5. Cushcraft 13 element 2 meter beam on side mounted seperate rotor (Radio Shack) at top of tower...2 years   old. New...$160.00   Price now:...$100.00

6. Associated mil spec RG213 coax for both hf antennas included with it's corresponding antenna.

Since putting this antenna system up in various stages, it took me 2 years to work 5 band DXCC (Plaque dated March 27, 1995,) with 308 total confirmed, with 226 on 40 meters.

Selling price for complete system is $4,000 U.S. Dollars and I'll take it down. You pick it up.

o.amateur.antenna,rec.radio.amateur,rec.ham-radio.swap

FOR SALE:

YAESU FT-890AT in excellent condition. Has built-in antenna tuner
(great for mobile use), built-in cw keyer, 100 Watts output, general
coverage receiver, and all mode transmitter. Comes with hand-held mic.
Still have original box and owner's manual. I always found this rig to
have a really great receiver.

Also for sale:

YAESU YS-60 SWR + Power meter (matching color to 890)
ASTRON RS-50M (with meters) (barely used)
BENCHER BY-1 Keyer (barely used)
HUSTLER Mobile resonators for:
80, 75, 40, 30, 20, 17, 15, 12 and 10 meters (low power models)
AND two masts - one stainless steel and other is fiberglass covered.
Also have a mast mount for base use.
(all resonators in good condition and worked well for mobile and base!)

and I'll throw in a 75' length of 9913 coax (no connectors).

Prices dependent on who pays shipping, but figuring:

FT-890AT $750
YS-60 $ 70
RS-50M $175
BY-1 $ 60
Hustler $150 for all including masts.

Would prefer to sell entire package. Am selling because work hours are too long and I don't travel any more and the cash would be useful.

Please e-mail me for further details, or call in the afternoons at work: (423) 974-0123.

Thank you!

Subject: FS: Yaesu FT-890AT + Base/Mobile Accessories
Date: 1997/07/02
Message-ID: <33BAE9A0.6269@utk.edu>#1/1
X-Deja-AN: 254162915
Organization: University of Tennessee: Thompson/Boling Arena
Newsgroups: rec.radio.swap,rec.radio.amateur.equipment,rec.radio.amateur,rec.ham-radio.swap

FOR SALE: Almost everything needed for base and mobile operations!

YAESU FT-890AT in very good condition. Has built-in antenna tuner (great for mobile use), built-in cw keyer, 100 Watts output, general coverage receiver, and all-mode transmitter. Comes with hand-held mic and two (2) DC power cords (1 for mobile, 1 for base). Still have original box and owner's manual. I always found this rig to have a really great receiver.

Also for sale:

YAESU YS-60 SWR + Power meter (matching color to 890)
ASTRON RS-50M (with meters) (barely used)
BENCHER BY-1 Keyer (barely used)
HUSTLER Mobile resonators for:
80, 75, 40, 30, 20, 17, 15, 12 and 10 meters and two masts - one stainless steel and other is fiberglass covered.
Also have a mast mount for base use and a spring for mobile use.
(all resonators in very good condition and worked well for mobile and base!)

AND I'll throw in a 75' length of Belden 9913 coax (no connectors).

Prices dependent on who pays shipping, but figuring:

FT-890AT $750
YS-60 $ 70
RS-50M $175

BY-1 $ 60
Hustler $155 for all including masts.

Original purchase value of this equipment was well over $1,800.

Would prefer to sell entire package, but will break up and sell pieces separately (except Hustler antenna equipment).

Am selling because work hours are too long and I don't travel much any more and the cash would be useful.

Please e-mail me if you need further details, or call in the afternoons at my work:
(423) 974-0123.

Thank you!

55 Foot, 3 Section Heavy Duty Galvanized Crank-Up Antenna Tower.
Cable fairly new but pulleys probably need replacing. Minor surface rust only at base. Purchased used last year but never put up. Tower is located in Cape Coral Florida which is on the SW Coast. This tower is approx 24' long in it's down position and weighs about 250-300 pounds. First $175.00 CASH (FIRM) takes it away. Don't miss this one. Please e-mail me with any questions you might have about this tower.

mrymer@peganet.com

The radio is only 4 Months old and in GREAT condition. Still have box, cables and mounting bracket. This radio has been moded for out of band TX and will recieve the 900 Mhz cordless/ ham band which is now blocked on newer ft8000 and ft8100. Cellular is still blocked and I know of no mod for this. Will recieve 110Mhz (AM) ~ 550Mhz /
750Mhz~1330Mhz.

$430.00+shipping.

I have, new in the box, never used, the following: A Yaesu FT-790RII UHF "multi-purpose" multimode transciever (430-450 mhz, CW, SSB, FM 25w mobile/portable) with the following options: Battery pack, charger, tone board (not installed-new in box as well).

Current HRO prices:

FT-790RII	$769.95
FBA-8 battery pack	44.95
FTS-7A tone board	39.95
NC-26B charger	14.95
TOTAL	$869.80

plus applicable tax and shipping

I will sell the complete package for $600, including domestic UPS shipping. Payment by money order or cashier's/certified check only.

73,
Martin

Does this come with any options included ie interface cable etc?
Also, this unit has an external antenna connector?

Have a nice AL811 Ameritron amp for sale. 600 watts out,new svetlanas at xmas. 500$ certified check or money order and I will ship and e-mail the tracking number. New house in tight subdivision and having rfi problems is the reason for sale. Request check up front so ups won't hold it forever on a cod. Price is firm. Thanks Jim

Dear Friend,

I am a retired Attorney, and about two years ago a man came to me with a letter. The letter he brought me is basically the letter in your hands. He
asked me to verify the fact that this letter was legal.

I told him that I would review it and get back to him. When I first read the letter my new client brought me I thought it was some off-the-wall idea to make money. However, a week and-a-half later we met in my office to discuss the issue. I told him the letter he originally brought to me was not 100% legal. I suggested a few changes with which the letter would be 100% legal.

I was curious about this letter, and my client told me how this plan works and suggested that I give it a try. I thought it was a long shot and would be a waste of time, so I decided against participating.

However, before my client left, I asked him to keep me updated of his results. About two months later he called me to tell me he had received over $800,000 in cash!!

I didn't believe him, so he suggested that I try this idea and find out for myself. I thought about it for a couple of days and decided that I didn't really have anything to lose, so I asked my client for a copy of the letter.
I followed the instructions exactly, sent out 200 copies, and sure enough, the money started arriving! It came slowly at first, but after 3 weeks, I was getting more mail than I could open in a day! The money stopped coming

after about three months. I kept a precise record of my earnings, and they totaled $968,498.00!! I was earning a good living as a lawyer, but anyone in the legal profession, or even anyone who owns their own business will tell you, there is a lot of stress that comes with the job. I told myself that if things worked out, I would retire from my job and travel. I decided to try the letter again, but this time I sent out 500 letters. Well, three months later, my earnings totaled $2,344,178.00!!! I just could not believe it. I met with my former client (and now my friend) for lunch to find out how it worked. He told me there are quite a few similar letters going around.

What made THIS ONE DIFFERENT WAS THE FACT THAT 6 ADDRESSES APPEAR ON THE LIST, AND NOT 5 LIKE MOST OF THE OTHERS. This fact alone results in your name being on far more returns. Of course I was thankful that he had shown this plan to me, but he was just as thankful that I had suggested the changes to ensure that this plan was legal since most people don't want to risk doing something illegal.

I'll bet that by now you are curious to know the little change I suggested in my friend's original letter. Well, if you sent a letter like this out, to be legal you must actually sell a product or service if you expect to receive a dollar. I told my friend that anyone sending a dollar back to him must receive something in return. You have received this letter due to the participation of each of the 6 persons given below. This letter and the plan given within this letter are a "product" that you have received. Thus, you will be sending $1.00 to each of the 6 persons given below in exchange for receiving this letter and for asking them to provide the "service" of adding you on their mailing list. THIS IS A SERVICE AND IS A 100% LEGAL BUSINESS OPPORTUNITY WHICH IS COVERED IN TITLE 18, SECTION 1302 AND 1342 OF THE POSTAL AND LOTTERY LAWS.

NOW, PLEASE FOLLOW THESE TRIED AND TRUE STEPS TO OBTAIN THE AMOUNT YOU DESIRE: Immediately send a $1 dollar bill to each of the 6 people on the list below. Wrap this dollar in a note with the words: "Please put me on your mailing list." (Remember, in this way, you're not just sending a dollar to someone; you're paying for a legitimate service.) Include your address. You do not need to include your name. This is the key to the program!

Also, let each person know what number they are in your letter so he/she knows which cycle he is receiving the $1.00 from. Make sure that you retain EVERY name and/or address sent to you, either on computer or hard copy, but do not discard the names and notes that people send to you. This is PROOF that you are truly providing a service, and should the IRS or some other government agency question you, you can provide them with this proof! Therefore, you will start a list of all the people who send you a dollar requesting to be added on a mailing list. Actually, you will want to safeguard this list because it can generate even better responses and much more money later!

See step #4 below.

Remove the #1 name on the list, and move the rest of the names up one

position. Then place your name in the #6 spot. Thus, #6 becomes #5, #4 becomes #3, etc., and YOU will be #6 on the list. DO NOT EDIT THIS LETTER ANYMORE BEYOND THIS POINT. When you are mailing this letter, you may edit the reference to the Internet.

Post this letter in at least 250 newsgroups, I do 5 groups per post. You can simply copy the contents of this letter and post it to the newsgroups of your choice. (If you're not sure how, see my directions at the bottom.)

IMPORTANT NOTE: Please pay attention to the newsgroups in which you post. If there is an abundance of similar letters, you may want to seek another newsgroup. Thus, pay respect to the harmony of the newsgroup and use common sense. There are plenty of newsgroups on the Internet. (I think there are close to 18,000 of them.) ALSO, PLEASE POST IN APPROPRIATE GROUPS AND SPREAD YOUR POSTINGS OVER MANY DIFFERENT LOCAL & INTERNATIONAL AREAS (SPREAD THE WORD) !

For added success, you can also mail this letter as well, in addition to posting in newsgroups. Order 200 (or more) names from a mailing list company. Two that have been most effective for these names are:

S.E. Mailing List
P. O. Box 15061
Ft. Lauderdale, FL 33318S
(954) 742-9519

Advon Distributors
P. O. Box B-11
Helly, ID 83274
(800) 992-3866

Keep a copy of this letter so you can use it a second time. Also keep EACH AND EVERY NAME AND ADDRESS SENT TO YOU as instructed in #1. Then, send out more copies in about 6 months, but mail it to the addresses you received (your new mailing list) with each dollar! It will work again, only much better! Here are the addresses that you must send a dollar to with your slip of paper requesting placement on their mailing list, as instructed above:

1. G. Haugen, P.O. Box 1541,Comox, BC, V9N 8A2, Canada
2. M. Greenberg, 1701 Siskiyou Blvd., Ashland, Oregon, 97520
3. S. Shumacher, 1520 Sturgeon Crt., Pickering, Ontario, Canada, L1V 5P7
4. G. Herlinger, 18 Kingsgate Place, Bolton, Ontario, Canada, L7E 5Z5
5. R. Bailey, 218 Main ST. #246 Kirkland WA. 98033
6. R Charles, P. O. Box 8946 Cincinnati, Ohio 45208

THIS PLAN WILL NOT WORK UNLESS YOU SEND $1.00 TO EACH OF THE ABOVE PERSONS AS DIRECTED. HONESTY AND INTEGRITY IN FOLLOWING THIS PLAN IS ESSENTIAL FOR EVERYONE'S SUCCESS!!

****
****

OK. This is how I did it (Windows95/PC). Do not re-type this email (as this post previously instructed). First, open up an empty Notepad file. (In Windows it should be under the Accessories menu.) Then, put your cursor at the beginning of this document, hold the left mouse button down, drag it to the bottom and release. Now hold the Control key down and press 'C' (CTRL-C). This will copy the highlighted text to the clipboard. Now get back to your notepad file (in Windows95 it's down in your taskbar), put the cursor at the top of the notepad file, then hold the control key down and press 'V' (CTRL-V). This will copy the contents of the clipboard into your notepad file. Now you can edit the file. Don't forget to remove name #1, put your name in at #6 and re-number accordingly. Save this file (as a .txt file.) If you want to break up your sessions of posting you'll always have this file to go back to.

FOR NETSCAPE USERS:

1) Click on any newsgroup. From a newsgroup, click on the 'TO NEWS' button, which should be in the top left corner of the newsgroups page. This will bring up a message box.

2) Fill in the Subject.

3) Highlight the entire contents of your .txt file, do a CTRL-C to copy the document into the clipboard, get back to the e-mail you are posting to the newsgroup and press CTRL-V to copy your file into the body of the e-mail.

4) Hit the 'SEND' button in the upper left corner. You're done with your first one!

5) Go to another newsgroup, press 'TO NEWS' button, type in the Subject line, press CTRL-V, press 'SEND'. That's two! Repeat as needed...

INTERNET EXPLORER USERS:
(Directions are pretty much the same, except for the names of the buttons.)

1) Go to newsgroups and press 'POST AN ARTICLE'.

2) Fill **********
* D I R E C T I O N S
*
* How to Re-Post
*

in the Subject.

3) Same as #3 above.

4) Hit the 'POST' button.

****
* E N D O F D I R E C T I O N S
*
****

Some valuable, suggestions:

1) DO NOT TRY AND CHEAT THIS PROCESS. IF YOU DO, YOU WILL NOT ACHIEVE

THE DESIRED RESULTS.

2) The Internet is a very effective medium for exposing this vehicle. However, pay attention to newsgroups, and avoid posting this letter in the newsgroups where there are a lot of upset people complaining about "spamming." In other words, we are asking that you use common sense, and have courtesy to others on the Internet. This may be opposite of what many other similar postings may be saying.

Keep in mind that there are plenty of people out there who believe and want this as much as you do.

3) Keep a positive frame of mind while engaging in this process, and you will receive the amount of money you desire.

4) In order to achieve maximum results DO NOT CHANGE THE CONTENTS OF THIS LETTER. However, you may edit applicable portions relating to Internet when sending this letter via regular mail.

5) When the money begins to arrive, it is a good gesture to give 10% or more to your church or favorite charity with a joyful spirit.

The Internet has proved to be a very quick and effective means to reach millions of people with your message. This message exemplifies a UNIVERSAL LAW OF ABUNDANCE that there is plenty to go around for everyone. You will not be hurting anyone and will be creating the opportunity for those who read your message to benefit -- just as you will -- from the abundance
that exists in this universe.

Peace and goodwill !!!

I need help finding a schematic for two old GE mobiles (currently used
as local repeaters), especially the wiring for the control head as the
controllers are about to be replaced, and the wiring of the old ones us
a mess.

the numbers listed on the ID plaques are:

RG56TFS66, or N.P. 243349

and

YG56KJJ66, or N.P. 243349

They appear to be the same radios with different options.

Thanks to all,

Ron, N7TAW

I am looking for a Kenwood TS-850SAT or a HF rig somewhere in the same ballpark.. Here is what I have to trade..

I will ALSO include my NEW *7 week old * HTX-212 complete with everything including box, manual, AND 3 year extended warrenty with this deal!

Tower Case
486/33 (8 Megs Ram)
6X Speed CD Drive
16 Bit Soundcard
2.6 Gig Hardrive
(1) 1.4 Meg Disk Drive
800 Meg Tape Backup (Internal) Ditto
28.8 Modem (Internal)
SVGA (1 Meg) Video Card
FM Radio Card (FM Radio Station)
Windows 95 Installed
SVGA 13" Monitor

ALL EQUIPTMENT IS NEW 6 MONTHS AGO EXCEPT FOR THE MONITOR! I put this package together myself.

Looking to trade for a Kenwood TS-850S/AT also in good condition. I checked with HRO Atlanta, they said that it would be a perfect trade. They said $1000 for the TS-850S/AT without tuner $850.
I have about $1100 invested in my computer, and $200 invested in the 2 meter mobile.

Either E-Mail or Call! Here is the information

The first unit sounds like an older GE Exec (not the Exec II). If I
recall, this radio may have tube finals. Not sure about the 2nd unit.

I have the following computer for sale:

Cyrix 686-166+ processor
96 MB 60ns EDO RAM
3.1GB EIDE HDD
12x IDE CD-ROM drive
2MB Cirrus Logic video card
33.6 US Robotics compatible internal modem
ESS 1688 16-bit sound card
IBM Ethernet card
Mid-tower case, 3 open bays

Monitor not included, system is hooked up and demonstratable.
Currently has Windows NT Workstation 4.0 and OS/2 Warp 4.0 loaded.

I'll take $850, pick up in San Francisco.

I have, new in the box, never used, the following: A Yaesu FT-790RII UHF "multi-purpose" multimode transciever (430-450 mhz, CW, SSB, FM 25w mobile/portable) with the following options: Battery pack, charger, tone board (not installed-new in box as well).

Current HRO prices:

FT-790RII	$769.95
FBA-8 battery pack	44.95
FTS-7A tone board	39.95
NC-26B charger	14.95
TOTAL	$869.80

plus applicable tax and shipping

I will sell the complete package for $550. Payment by money order or cashier's/certified check only.

73,
Martin

Re: BOATANCHORS SWAPLIST

This e-mail list is for posting of items for sale, want to buys,
and want to trades. It is for tube type equipment and their
contemporary accessories and parts. Any equipment with
tubes is welcome.

Here's how to subscribe:

THE LIST NAME IS: baswaplist
It is located at: baswaplist@foothill.net

To subscribe send email TO: majordomo@foothill.net
 and in the message ONLY say: subscribe baswaplist

To unsubscribe send email TO: majordomo@foothill.net
  and in the message ONLY say: unsubcribe baswaplist

To send a post to the members of the list:
 send email TO: baswaplist@foothill.net

To get a copy of the posting sent back to yourself you
must CC it to yourself.

For ANY administrative matters, complaints, etc please
 address them to:
The list manager who is: Eugene Rippen <soundval@foothill.net>

When you subscribe you will get a complete list of the rules
and commands!

HAPPY BA TRADING!

Newsgroups: rec.ham-radio.swap,rec.radio.amateur.boatanchors

The Henry:
Near mint condition, amp is almost like new inside and out. Full output, graphite 3-500Z tubes with about 10 hours on them. Checked by Omega Amlifiers (Knightdale, NC) last year, and found to have full output. Only used sparingly since then. Sits in a rack protected from dust. I found an amplifier that matches my radio, and need the cash from this one to buy it. $900 firm plus shipping, or will deliver out to 100 miles or so n/c. I have one other amp for sale, and only one will be sold- the other will be kept for a spare. See the other ad for information.

SPECS: Wired for 220

    Uses 2 3-500Z tubes

    I get about 600 watts out with 70 watts drive on my
    uncalibrated Ten-Tec tuner meter(see, I don't lie!)

    Will do 1KW with 100 watts in (calibrated meter was used in this
    measurement)

    Shows 2400-3800 volts on plate meter (CW/SSB)

    Plate current about 600mA (2280 watts input)

Grey in color with silver-anodized aluminum and black front.

80-10 meters

The BTI:

Nice condition Brad Thompson Industries LK-2000. Uses either a 3-1000Z or a 4-1000A to develop about 1250 watts. Does NOT have the optional heavy-duty power supply. Has 3-1000Z in it, and a spare 4-1000A goes with this beautiful amp. Re-worked by Omega Amplifiers with a new zener, plate cap, relay, plate choke (rewound), and some smaller parts replaced. The "AG6K" parasitic supressor kit was also added when the work was being done. This is a large floor console amp, with soft lined soft naugahyde cover. Guaranteed to warm the room, and impress visitors with the glow of it's HUGE single tube, large copper-tubing tank coil, and other heavy-duty components. The bottom cabinet has been repainted, and looks very nice. The amp can be separated from the power supply with some longer cables, so the power supply can sit on the floor while the amp sits on your desk. Delay circuit keeps fan on for awhile after amp is turned off. This is a deluxe model amplifier for the discriminating amateur. $900 will get this beautiful example of a mid-1960's luxury amp. Pickup only. (May deliver out to 100 miles). Too heavy/large to ship. (Unless you're willing to pay for the packaging services of a professional shipper)

SPECS: Wired for 220 volts

3700 volts on the plate at 800+mA = 2960 watts input
(Includes certification of rating - 1250 to 1500 watts depending on frequency, with full one hour cycle test)

Does 1250+ watts with 100 watts of drive

80-10 meters

Light grey with cream color trim rings (matches Collins colors)

Will consider a Ten-Tec Titan amp trade for both my amps, or a Centurian for one or the other. Mine are in perfect working order, yours must be too.

Within a week I will be ready to purchase a HF rig. I am now wanting to discuss what goodies you have for sale.

Looking for Kenwood TS-850S/AT
TS-930S/AT
TS-940S/AT

Not looking for radios in "good" condition, want one that is in excellent condition, and has never been mobile. Please send me condition of the radio, extra's that you might have with the radio, and your asking price.

Hi,

Is there somebody who has the pin assignments of plug 14 of this old (at least more than 10 years) R&S receiver. The plug is normally attached to the power-supply, which I'm missing, and has two rows of pins (labeled 1-8A & B). Any description on what comes out and goes in would be great. This would help me in building my own power-supply.

73s, ON1DJU

I have a Standard C468A for sale. I am a non smoker. This HT is in "mint" new condition. It is less than a year old. I used the radio until 02/97. For my BD my wife bought myself a dual band HT. Comes with wall charger, stock antenna, leahter case, box, and manual. Asking $245.00 OBO. 73, Stuart KB8VIY stu@harborcom.net

If memory serves, what you have are GE MSTR EXEC II series...one
standard
and the other is the IMTS version....Best to use one radio as the rptr.

They are 60 watt models (the 5 in 56) and are in the 150-174 range (the
66 at the end) but they do tune to 2mtrs...
I'll see what I have in my docs on those models...

I'm an amateur and am converting these for use on the 900mhz ham band. I'm
looking for used radios, trade-ins, etc. any model. If you have any to sell
or know of any please reply via email with model numbers and asking price.

Thanks you,

Ron

Speaking of Eico 360 Sweep generators, I just received one.
(Thanks Larry) along with an Eico 377 Audio gen. I also
have an Eico 147A signal tracer. I would very much like
to get manuals for these units. Copies would be fine.
If you have any or know of sources please let me know.
All costs cheerfully covered. Thanks and 73 Gary

Heathkit SA-2060A Tuner: This is a 2kw Roller Inductor, features include dual metering for forward/ reflected power & direct SWR, Antenna Switching, counter for inductor setting.

It is in excellent condition with manual.
I am asking $200 or reasonal offer.....my current operation has been Qrp ,and this 2kw Tuner is alittle overkill for my 5 watts Qrp.

If interested I can be reached at (716)367-9826 or via e-mail at: jsbraun@frontiernet.net

Thanks/ 73's
Scott

AMATEUR EXAMINATION PRACTICE SOFTWARE

I'm looking for a program called "AMATEUR EXAMINATION PRACTICE
SOFTWARE" anything above version 4.1.

This is a program for taking the many of the different ham tests.
The version that I have is rather old and looking for something
more current. I have version 4.1, from 1994, and need something
more up to date.

If someone has the recent version of "AMATEUR EXAMINATION PRACTICE
SOFTWARE", can you PLEASE email it to me?

Thanks..

James

I, too, have an Eico 147A signal tracer, and am in need of a manual. If
you locate a source at reasonable cost, drop me a note.

I have for sale the following:

Kenwood TS-830s with two optional CW filters....$600
Kenwood VFO-230.....$175
Package deal.....$750 AND I'll throw in a
Shure 444 desk mike.

All equipment is in excellent electrical and cosmetic condition,
operation and service manuals included. Non-smoker. Prices are firm,
you ship COD or postal money order (or pick up in central CA).

I'd prefer the package deal, so I'll save all replies in the order
received for a couple of days before splitting it up.

For further information, send email.

Does this mean they are sold out? That's great for the attendees.

Have you contacted the Hamvention committee to see if anyone has
offered theirs for sale because they can't make it?

You might try www.hamvention.org and send the organizers some
e-mail abou your request.

Good luck.

1. HF Wattmeter, 2-30 Mhz, Model ME165, from GRC-122,142, 26D radios. Includes 600 Watt FS wattmeter movement with internal 50 ohm air cooled termination. Also provides VSWR measurents on antennal load. N connectors in and out, but can be changed to SO-239 types in a few minutes. Units are in like new condition from depot pack.
$50 plus ups on 22 lbs from zip 95827

2. R390/390A type "C" adaptor cable jumper. Has type "C" male connector on one end of a 15" length of RG-214/U cable and a PL-259 male connector on the other end. A solid solution to the antenna connection problem with these receivers if the "C" connector input is satisfactory to your needs.

$12 US First Class postage prepaid CONUS

3. RG-62 75 ohm jumper cables with BNC male connectors on each end 10-15" lengths, $2.00 each pp conus

4. TA/312PT style handset with PTT switch, coil cord, and connector as used on military radio sets such as GRC-19, GRC-106, GRC-3,4,5 5,7,8 etc. Used, but tested $10 plus UPS on 5 lbs from zip 95827 Sacramento

5. 28VDC/50 amp power supply, Mil PP 4763A, Like new from depot pack 115/220 single phase primary. Metered for DC Volts and Amps, with AC circuit breaker. Will deal with dynamotor loads and has been used to run the 618T(3) system, ARC-2, GRC-8, GRC-9, GRC-19 GRC-106 without a single burp.
$150 with docs, prefer pickup, but will ship for additional $25 for packing materials. weighs 125 lbs and ships at just under 150 lbs ups. It is rugged enough to make the trip and I have shipped a few to date without any problems.

Thanks for the read

Tnx es 73

Don't be a baby! If you shop around a bit and if you knew anything about HRO
you would know the following:

1. In most cases HRO will give you the same price as anyone else. Just tell them
who has it for the lower price and they will come down to that price.

2. They charge shipping for any order under $100.00.

If you don't do your homework when you are ordering, than don't cry when
you don't have a clue what the final price is. All ypu had to do was ask what
the total was. If you don't like the price, SEND THE ITEM BACK!!!

Rocco

I've got a Tektronix 465B scope that's been sitting around for years that I have no use for. I used to repair computer electronics but have long since gone on to do programming and don't mess with the electronics any more.

The scope comes with 3 probes (2 - 10x and 1 - 1x, if I remember correctly); operators manual, and I believe I have the maintenance manual for it also.

Sorry to be so vague about the description, but it's just become something that I have to move around the work room to get out of my way and I don't think about it much. I'm sure it still works fine, just a little dusty.

Price is $400, plus you pick up shipping from Tallahassee, FL. I guess UPS ground can't be any more than $10-$15?

Certified funds requested before shipping.

Entire H.F. Station for sale:

Kenwood TS 680S HF with 6 meters.
-100 watts on all bands, 20 watts on 6 meters, all mode.
- Narrow CW filter
- SP 430 matching external speaker
- AEA model ET-1 HF antenna tuner
- 20 Amp power supply
- Orig. box, manual, and service manual.
$900.00 including shipping continental U.S.

Misc. Ham equipment:

AEA PK-88 packet controller.
- includes MFJ TNC/MIC switch for Kenwood/Alinco radios.
- Orig. box and manual
- Serial Cable/Audio Cable/Microphone Cable.
$75.00 including shipping continental U.S.

MFJ Model 1796 Vertical Antenna:
- Covers 2, 6, 10, 15, 20, and 40 meters.
- Pick up or delivery near Hartford, CT
$100.00

Will split up station if necessary. Please e-mail me if interested.

The only reason for selling is that I am attending grad school and
working full time and will not be using the gear for a number of years.

Newsgroups: rec.ham-radio.swap,rec.radio.swap,rec.radio.amature.equipment

These Duplexers are manufactured by Cellwave. Each Duplexer is new and is the "Six-Pack" type. Each tunes from 440MHz thru 470MHz with no problem. The Duplexers are designed for UHF-Repeater, Duplexed UHF Base or Duplexed Mobile Radios.

The Duplexers have three precision cavities for the receiver and three precision cavities for the transmitter on the same frame. Some have a Round while label with a red leaf and the word "CANADA" on them, indicating export to Canada is approved.

The Duplexers are rated at 50 watts continuous duty and 65 watts intermittent. Each connector is identified, but there is no mfg. label on the Duplexer(s) themselves.

Duplexers are flat black, 9" Long, 6" Wide, 1 1/2" Tall and weight 2 lbs.

CONNECTORS: TX Port= Type "N", Rx Port = BNC, ANT. Port = SO239 (SO239 is the mate to the standard PL259 connector). All connectors are the preferred *Teflon type, silver.

These Duplexers are "perfect" for repeater use. These are OEM Duplexers and are used in Telemobile, EF Johnson, Pace and many other Repeaters and UHF duplexed operations.

Telemobile Repeater specs are as follows (sorry, these are the only technical specs. I can offer):

Transmitter spurs >70bd below carrier and 5MHz split, duplexed.
Receiver selectivity 70db @ 30 khz
Image Rejection 75db
Spurious Rejection & Harmonic Rejection 80db typical

Now I DO realize that these ARE the Repeater specs, but the Repeater could never attain these specs without a good Duplexer! I've used this same Duplexer for almost seven years now in a Repeater on a "high profile" mountain top here in Los Angeles with no problems at all.

The $150 price includes U.S. Priority Mail Shipping and Insurance. If it's possible, I ship the same day. USPO Money Order, Money Order

or Certified Bank Check are prefered but business/personal checks
are accepted. I will ship as soon as your check clears the bank.

Again, please respond by EMAIL rather than via the Newsgroups!

Thanks!
Tony

I have a virtually new Alinco DX-70 for sale. It has been used to receive for
about 10 hours, never got to send on it since I don't have an antenna at my
new house. Since I got it it has been in its box on a shelf so I figured I
might as well let someone else get some use out of it. All original manuals
and parts in original box, I probably even have the receipt from when I bought
it. $650 includes insured shipping in the lower 48 states. Buyer prepays with
money order or we can use trade-direct (5% fee to buyer, see
http://www.trade-direct.com for more information) Resonable offers considered.

Is this the 70T (10 watts on 6) or the 70TH(100 watts on 6)?
Thanks

Just wanted to add a couple of things to this (my) ad. The radio is a DX-70T,
I
missed the "T" on the box. It is not the high powered (H) model. I also have a
complete second power cable assembly with fuses and connector for the radio.

DX Antenna System For Sale

Antenna system consists of:

1. 80' motorized aluminum crank up tower. This is an extreme duty two section triangular tower. Bottom section is 36" per side at the base, and 30" at the top (48'). The top section is 24" per side and is 32' long. This is a stand alone tower (no guys) and is motorized with an electric winch. Total weight is approx. 650 lbs. Original cost was $6,100.00 in '92. It remains in perfect condition.

2. KLM KTX34A tri-band beam 3 years old (had a mosely pro67b up for year and a half, but didnt like the performance.) This is a big antenna, but it's a pileup killer.

3. Cushcraft 2 element 40 meter beam...2 1/2 years old. Have 226 contries confirmed on 40 since I put it up.

4. Yaesu G-1000SDX variable speed rotor with 12' of heavy wall aluminum mast.

5. Cushcraft 13 element 2 meter beam on side mounted seperate rotor at top of tower...2 years old.

Since putting this antenna system up in various stages, it withstood perfectly hurricane Andrew...(That is what it was designed to do). As far as performance, it took me 2 1/2 years to work 5 band DXCC (Plaque dated March 27, 1995,) with 308 total confirmed, with 226 on 40 meters.

I am forced to sell this system which I had planned to keep for the rest of my life, as I am being transferred to Florida. It's just too much trouble to move it all, and go through setting it all back up.

Selling price is $4,800 U.S. Dollars and I'll take it down. I'll split the freight in the U.S.A.

A friend asked me if I could find a CTCSS board for his IC-28 but I can't even see where one was ever offered. Will we have to go "after market" (e.g., ComSpec, etc.), or did ICOM offer a board? He says the manual makes no reference to one.

Thanks!

I think the board was the UT-28, always get it confused with the ICOM
DCS board for the radio. The IC-28 would only decode CTCSS in Simplex
and only encode CTCSS in Duplex. No mod to get the radio to decode in
duplex. though you could encode in simplex by setting the radio into
duplex and adjusting the offset to zero MHz.

several months. For between $230 and $250, you can buy the Garmin 12xl
brand new and 12 X the machine that the 40 is. (12X because it is a 12
channel reciever as opposed to a single channel like the 40. Check out
 News group sci.geo.satellite-nav for answers to most GPS questions.

FOR SALE:
Yaesu FT 840 in NEW Condition. I added optional FM
unit and includes the optional mobile bracket. This is a current model,
not a discontinued one.

The rig has 100 memories and dual vfo's. The price is reduced to $650(
firm) plus shipping. I used the radio very little times. Great H.F. rig
for a potential or General ticket holder. Easy to use! I got the rig in
anticipation of upgrading to General, but haven't had the time. Lots of
nice features. Dual VFO's.

Very nice clean rig, though...

Please send e-mail to: n1rpd@amsat.org or francer@usa1.com

DX Antenna System For Sale

Antenna system consists of:

1. 80' motorized aluminum crank up tower. This is an extreme duty two section triangular tower. Bottom section is 36" per side at the base, and 30" at the top (48'). The top section is 24" per side and is 32' long. The vertical legs are 2" heavy wall military spec. aluminum pipe, and the cross ties are solid 1/2" aluminum. All hardware (nuts, bolts, pins, rollers, etc.) are stainless steel. This is a stand alone tower (no guys) and is motorized with an electric winch. Total weight is approx. 490 lbs. Original cost was 6,100.00 in '92. It remains in perfect condition. Cranked down height

is 48'. The base consists of three 2" X 6'6" heavy wall stainless steel pipes which are inbedded into a 6' cube of reinforced concrete. They protrude 6" out of the ground, and have stainless mounting plates welded to them. This part of the tower will have to be refabricated at a cost of probably around $100. Mast is 12' of 1/4" wall 2 1/2" Aluminum (cost $90) with a 2 1/2" thrust bearing (cost $80).

2. KLM KTX34A tri-band beam 3 years old (had a mosely pro67b up for year and a half, but didnt like the performance.) This is a big antenna, but it's a pileup killer.

3. Cushcraft 2 element 40 meter beam...2 1/2 years old. Have 226 contries confirmed on 40 since I put it up.

4. Yaesu G-1000SDX variable speed rotor with 12' of heavy wall aluminum mast.

5. Cushcraft 13 element 2 meter beam on side mounted seperate rotor at top of tower...2 years old.

Since putting this antenna system up in various stages, it withstood perfectly hurricane Andrew...(That is what it was designed to do). As far as performance, it took me 2 1/2 years to work 5 band DXCC (Plaque dated March 27, 1995,) with 308 total confirmed, with 226 on 40 meters.

I am forced to sell this system which I had planned to keep for the rest of my life, as I am being transferred to Florida. It's just too much

trouble to move it all, and go through setting it all back up. However,

I'm not desperate...I'll store it if I have to.

Selling price is $4,800 U.S. Dollars and I'll take it down. I may split

part of the freight in the eastern U.S.A. If you have a jpeg file

viewer, I attached 2 small Pix.

Can you help??

I have a CES (Winter Park, FL.) 700L *Touch-Tone Microphone.

**Do you have the Color Code for this Mike??

The Mike now has a connector for a GE-MVS series radio.

I contacted the company but they want $25 for a photocopy of the
manual! At present the mike has a 8-pin Molex connector for GE~MVS.
I would like to convert the Mike it to work on a KENWOOD UHF Radio.
The Kenwood has a connector that looks like a modular telephone
connector (only more pins)... I plan to build a junction box.

I HAVE data for the Kenwood Mike Connector, but I need data for the
CES Mike!... While I would like to convert to a official CES Mike
Cable for Kenwood, the cost is another $25! Plus, CES advised that
the Mike would require modifications.

Any help with this project will be greatly appreciated! Any help with

the switch on the back of the Mike, "AUTO" / "MANUAL"?

Many thanks!
Tony

Hi-

 Im looking for a AEA ISOLOOP 10-30 prefer with a tuner.
I also if interested have a Cushcraft R-7 bought about a month before the R7000 came out and up less that a year. Still shiny and in exclnt condition. would prefer a trade.

Reason: Had to move to an apartment.

Thank You

Let me know.

I have, new in the box, never used, the following: A Yaesu FT-790RII UHF "multi-purpose" multimode transciever (430-450 mhz, CW, SSB, FM 25w mobile/portable) with the following options: Battery pack, charger, tone board (not installed-new in box as well).

Current HRO prices:

FT-790RII	$769.95
FBA-8 battery pack	44.95
FTS-7A tone board	39.95
NC-26B charger	14.95
TOTAL	$869.80

plus applicable tax and shipping

I will sell the complete package for $600, including domestic UPS shipping. Payment by money order or cashier's/certified check only.

Due to purchase of a new home with covenants and supposedly rfi ridden neighbors the following gear is for sale:
1. Kenwood TS140S with recently purchased MC60 Mike. I am original owner,mars modified,excellent condition. 650$ together,will not break up.
2.Ameritron AL811, 3 tuber,original owner,new Svetlanas put in at xmas,600 watts all day. 450$
3.MFJ 989C 2KW tuner,bought new at xmas,MINT. 275$
Entire package,1300$
All manuals and power cables of course. All prices you pay shipping or pickup in Atlanta,Georgia.
Terms: Items must be prepaid with certified check or money order. No cod's because UPS takes months to cut a moneyorder. I will ship immediately on receipt UPS and verify with a tracking number. Prices are firm,this a great station. Queries via e-mail Thanks KD4CDB Jim

Kenwood TS 680S HF with 6 meters.
-100 watts on all bands, 20 watts on 6 meters, all mode.
- Narrow CW filter
- SP 430 matching external speaker
- Orig. box, manual, and service manual.
$750.00 including shipping continental U.S.

The price is firm.

The only reason for selling is that I work full time and will be
starting a Part-time Graduate program. I simply won't have time to
operate.

This radio has been sold. It's strange how frequently on these
newsgroups you can post something once or twice without any response,
and then suddenly get flooded with interested people.

This station is once again for sale. Prices are FIRM;do not send e-mail
concerning prices. Conditions:certified check or money order to me and
then I'll ship. Do not want to wait two months for a money order from
ups. You pay shipping or add 10%. When I ship I will e-mail you the ups
tracking number.

1. Kenwood TS140S with mint MC60 mike. Original owner,mars modified. Not
compact like a 50S but a lot better receiver. 700$ Together only.
2. Ameritron AL811A Amplifier. New Svetlanas at xmas,600 watts out all
day. 500$
3. MFJ 989C Tuner. Bought new from Ham Station xmas. Two kilowatt,roller

inductor,pep and average meter. 275$

Will sell all as a package for 1400$ Thanks Jim KD4CDB

Here's an interesting proposition:

I have an absolutely mint Yaesu FT-1000MP with matching SP-8 SPKR, extra 250, 500, 2.0 filters, which I think I'd like to trade for a Kenwood TS-950SDX w/SPKR, in same condx.

Almost bought the Knwd instead, but the Yaesu was more alluring, newer technology, etc. at the time. Now I find I miss my '940 (which I sold in the process), and would be willing to give up the 'MP for a spin in the '950.

Any Kenwood '950SDX guys out there curious/thinking abt getting an MP?
Could work for us both.
SDX only, not the SD, please.

Thanks for reading this.

I have for sale a Icom IC-706 Transceiver. This is a Transceiver which
has many features, and Covers 10-160m, 6m, and 2m (100watts on HF/ 6m,
and 10watts on 2m).
Transceiver is in mint condition with FL-100 500hz CW filter, and UT-102
Voice synthesizer both installed. Also have MB-62 mobile bracket, but
transceiver has never been mobile..only used in the shack.
Have all boxes/ and manuals.
I am asking $1100 or best offer.
If interested or have any questions I can be reached at (716)367-9826
or via e-mail at: jsbraun@frontiernet.net

I have a like new Kenwood TS-950SDX that I might consider trading
on the FT-1000MP. I kept my TS-940 when I bought the 950SDX and
would like to compare it with the FT-1000 MP. Let me know what you
think

Hi:

I've got a Yaesu FLDX2000 linear that I got with a bunch of other equipment in the late 1970's. I'm not a ham, so it's been sitting ever

since. Physically it is complete and clean, but I have never plugged it in, so I don't know it's operating condition. Anyone interested? Any feedback on what it's worth would also be appreciated.

Thanks,

Phil Barber

Hello all,

I have large inventory of (NEW) TRW Type FRW -22 Flat wire wound 10 ohm resistors @ 55watts.
These resistors are 3.5 inches long, 1 inch wide, 1/4 inch thick. They mount in the horizontal position using
the pre assembled shaft thru the middle and standoffs that accept two #8 or #10 screws.
The resistor mounts 1/2 inch above the chassis.
These are Mil spec vitreous enameled units of very high quality.
Put them in series or parallel for many applications.

65 cents each, plus a small fee for shipping via US mail.

Let me know how many you need.

Allen

Dear Allen, and all the other readers of this news group
I am not a regular subscriber to this news group. Rather I am a researcher who searches for obscure information from sources that are not official in order to find out what the reality of a situation is. Many times what is offered as information from sources that have a stake in what is being expostulated is heavily slanted pro for their side con for the opposition. It is my function to discern what it real.
Just on the chance that you might know (and what leads me to believe that this might work is the fact that Sean mentioned an AR 3000a and you responded as if you knew what that was), what is a

Model GMRS-210+3
UHF Model Two-Way Radio?

I know this is meagre, but it's all I have except on the same page (that came on my FAX) that has the above model number are the following model numbers:

Model GMRS-10
UHF Two-Way Radio

Model GMRS21-A
UHF Two-Way Radio

There is also hand written line on the page that says Comtell Electronics.

What I am trying to find out is: Who makes these radios? Is it Comtell
Electronics? What are a radios like this worth? Are they state of the
art?

Any information would be appreciated.

I used to do a lot of prototyping with these, but not so
much anymore. My inactivity is your gain. I'm selling
the following integrated circuits.

17cnt 2Kx8 Static memories. Desoldered, $12
   (mix of MB8128-15, TMS4016-20, TMM2016P-1/2)

~80cnt Fairchild 9xxx series "uTTL" discrete logic. New, $10

8080A CPU & Support Chips. Socket Pulls, $24
  7 8080A 8-bit microprocessor
 10 8228/8238 System Controller and Bus Driver
  6 8224 Clock Generator and Driver

Z80 Support Chips. New, $5
  Z8536 Counter/Timer & Parallel I/O Unit
  Z8530PS SCC Serial Communications Controller

9 8251/8251A/8251AP Program. Comm. Interface (USART). Desoldered, $10

7 8085A/AC/AH/AP CPUs. Desoldered, $13

8 8255A. Desoldered, $13

18 8212/3212 (74S412) 8-bit I/O buffers. Desoldered, $30

7 8253-5, Intel & NEC mixed. Desoldered, $10

Prices above are flexible, but do not include shipping.
I'd like to sell groups of chips, but let me know your interest.
I'm posting this in several places; please let me know where you
found the notice.

==========
Motorola Radios & Accessories (see below for more info)

$400 shipped for the lot

qty 1 HT50 154.6 MHz
qty 4 HT90 154.6 MHz
qty 3 HT90 154.57 MHz
several partially assembled HT90s and HT50s

qty 1 NTN4864B charger
qty 6 NLN7646A charger
qty 6 NTN4864A charger

qty 14 NLN7434A & similar batteries
qty 1 NTN5453A battery

qty 13 BNC whip antennas various lengths
qty 1 HT50 screw in antenna

I would like to sell all this together if possible. The chargers are in decent cosmetic shape, some have marker writing on the front. The radios are somewhat more beat up. All of the radios were used for data transmission, all have had the accessory jack removed. Some have a short coiled cord with a strange connector in place of the jack, some have nothing at all here. I have tried most of them, however, and they all seem to function anyway. The condition of most of the batteries is

unknown; I charged up a few to test the radios, that's it. Because of
the condition of this equipment, I offer no guarantees on it.
==========
HP 1222A Oscilloscope $100 shipped

     Not working, possible problem with sweep generator. When you press
     the beam find button, you can see the beam sitting there in the
     middle.
==========
Tandy Model 102 $60 shipped

     Seems to be working, comes up when I put batteries in it.
==========
Commodore 128 $70 shipped

     128 KB RAM. Includes original box, power supply. Unknown condition.
==========
SCSI Hard Drives - Swap Space Bonanza $30 shipped for the lot

     2 Quantum 105S 105 MB - dead
     1 Miniscribe 8225S 20 MB - was working in a Mac Plus
     1 Seagate ST-138N 30 MB - was working in a Mac SE
     1 Bracket to mount HH 3-1/2" HD inside Mac SE with 2 floppies
==========
IBM 5153 EGA? Colour Monitor $50 shipped

     No EGA card to test this, but on power up you get a nice sharp white
     screen. :-) Cable terminates in a DB9.
==========
Packard Bell PB2400PLUS $25 shipped

     External 2400 baud modem. Include manual and power supply.
     Full status LEDs on front.
==========
Apple Scribe $30 shipped

     Thermal-transfer dot-matrix printer. Used with an Apple IIc.
     Includes manual, cable (Apple IIC to DB25), power cord.
     Unknown condition.
==========
Kensington System Saver Mac Plus $30 shipped

     Fan/power switch combination for Mac Plus. Help save that
     power supply! May fit other compact Macs as well.
==========
Rolodex Hand Held Organizer Model K32/EL3132 $30 shipped

     Personal hand held organizer, store phone numbers, schedule,
     calender, calculator. Infra-red link for dumping to PC. 32K
     memory. Original box, manual, unknown condition.
==========
Beyond Zork $10 shipped

A cool Infocom game for Macintosh. Includes original box,
manuals and floppy.

==========

Red Hat Software Linux Library CD 1995 $15 shipped

==========

Misc SIMMs $25 shipped for the lot

30-pin 256K 120ns SIMM (8 chip) qty 4
Original Apple brand SIMMS from a Mac Plus
30-pin 256K 80ns SIMM (2 chip) qty 8 work in Macs, not PCs
Macmemory Max-Plus SIMM converter
Converts 4 30-pin 256K SIMMs into 1 30-pin 1MB SIMM. Worked in
a Mac Plus (a tight fit though), probably work in most older macs.

30-pin 256K 120ns SIMM (8 chip) qty 4
Original Apple brand SIMMS from a Mac Plus
30-pin 256K 80ns SIMM (2 chip) qty 8 work in Macs, not PCs
Macmemory Max-Plus SIMM converter
Converts 4 30-pin 256K SIMMs into 1 30-pin 1MB SIMM. Worked in
a Mac Plus (a tight fit though), probably work in most older macs.

For sale Yaesu MW-1 remote control microphone. This mic
will work with the FT-5200, and may work with other Yaesu rigs.
The mic transmits control signals via IR, and audio via 49 mhz.
I have the orginal box and manual.

Asking $50.00 or best offer.

If interested please call or write Bill @:

    702-896-0353
    w_hutch@accessnv.com

Thanks and 73's

Ryan,
I've listed some of the better sites in the Rochester, NY area on my
site. There are some real good VHF info on some of them.
